Josephine Garis Cochrane the brains behind one of the world's most used kitchen appliances. Many Americans have a dishwasher in their kitchen. But who invented it? Meet Josephine Garis Cochrane, entrepreneur, innovator, girlboss. Washing dishes is a pain; it leaves Josephine's cups cracked, her dishes dinged, and her chowder bowls chipped. She'd rather be picking flowers, frosting cakes, or playing piano than dealing with cracked crockery. What to do about a chore that's icky, destructive, and time-consuming? Josephine tackles this task the modern way: she makes a machine to do it for her. She tinkers and tests and perseveres through fizzles and flops until she has a government patent for her invention, and there are whirring, whizzing, bubbling dishwashers making a splash across America. This charming tale includes an author's note, a list of notable women inventors, a timeline of fascinating inventions, and a list of sources.

The Greatest Stock Picks of All Time W. Randall Jones, Julie M. Fenster, 2007-12-18 Worth magazine founder Randy Jones shows how to pick the best stocks of the future by learning the lessons of the greatest stocks of all time. In a turbulent investing environment, luck must be the only way to score in the stock market, right? Not so, says Randy Jones. The people who bought McDonald's in 1965 or Chrysler in 1980 weren't just fortunate. Most of them knew how to read the signs of a good stock and jumped on the opportunity. Such stocks exist in every economic climate, and Jones shows readers exactly how to find them. In *The Greatest Stock Picks of All Time*, Jones describes twenty-five of the best stock picks ever and explains what made them great. He shows how the smartest investors find companies that are about to zoom, giving readers a framework for analyzing stocks today. For example, Jones explains why AT&T was a great stock pick in the 1920s, Polaroid in the 1940s, Xerox in the 1950s, Teledyne in the 1970s, and Intel in the 1990s. He then guides readers to discover stocks that represent the same kinds of pathbreaking products, innovative business models, great management teams, and other harbingers of success that will certainly be characteristic of the great stock picks of tomorrow. *The Greatest Stock Picks of All Time* has invaluable lessons for anyone in the market today. Today, a lot of people think they should murder their brokers, but my advice is: don't. You can stay out of jail and make a lot of money by learning from the greatest stocks of the last century and by heeding this advice for your future investments. Dominick Dunne

You Twit Face: Your Complete Guide to Nomophobia Clay Sherrod, 2016-11-11 Nomophobia, the fear of having our phones taken from us, is taking over our lives. The smart devices are in our homes, carried room to room as if glued to the hands of our family members. They meander into the bathroom, the laundry room, the shop, the garage, the backyard, and even into the bedroom where the adults once had their alone time. Our teenage children require them to either be under their pillows, by their pillows, or within arm's reach at a nightstand in order to even sleep at night. The cell phone must be visible for them to take tests at school without withdrawal anxiety. The phones travel where we do: school, the office, the gym, so that we are in constant contact with the virtual world. Other people who also

have no real lives outside of their phone They are ringing in churches movie theaters restaurants concerts funerals Nothing says goodbye to the recently departed like your ring tone from Metallica s Hardwired Welcome to the world of smart phone addiction
