obtuseness Improve their diet and you have taken the first step towards a better life Philanthropists and missionaries of all kinds are beginning to understand that no appeal can be effectually made to the higher nature until the stomach has first been revived and that all reforms in the individual must proceed from this center to the head and heart Coarse food even though perfectly digested produces coarse natures Indigestible food is even worse in its effect for it results in actual disease and disease of such a character as to influence in marked degree the whole mental outlook A sour stomach is apt to produce a sour temper Melancholy suspicion envy false and distorted views of men and things follow dyspepsia as the shadow follows substance The effect of diet in stimulating evil passions is well known Its effect also in disease is acknowledged and respected About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
