Wilson,2020-01-22 This book has been considered by academicians and scholars of great significance and value to literature This forms a part of the knowledge base for future generations So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published Hence any marks or annotations seen are left intentionally to preserve its true nature Mrs. Welch's Cook Book Mary Welch,2015-06-02 Excerpt from Mrs Welch s Cook Book A genuine civilization and good cooking are more closely related than is usually appreciated Savages live on food either wholly or partially raw and have not the faintest conception of the routine of meals variety of diet and combination of flavors that are to us absolute necessities They gorge themselves when food is plentiful and starve when it is scarce They eat the coarsest and grossest substances without subjecting them to the refining effects of fire or the transforming influence of condiments herbs or extracts They know nothing of the subtle combinations by which the palate may be tickled and the digestive powers stimulated to easy and effective work To their habits of eating may be ascribed in great measure their imperfect physical development their mental dullness and their moral

obtuseness Improve their diet and you have taken the first step towards a better life Philanthropists and missionaries of all kinds are beginning to understand that no appeal can be effectually made to the higher nature until the stomach has first been revived and that all reforms in the individual must proceed from this center to the head and heart Coarse food even though perfectly digested produces coarse natures Indigestible food is even worse in its effect for it results in actual disease and disease of such a character as to influence in marked degree the whole mental outlook A sour stomach is apt to produce a sour temper Melancholy suspicion envy false and distorted views of men and things follow dyspepsia as the shadow follows substance The effect of diet in stimulating evil passions is well known Its effect also in disease is acknowledged and respected About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
