Aluta Continua Biblical Hermeneutics for Liberation Obvious Vengeyi, Joachim Kügler, 2013 This book was passed as a PhD thesis at Bayreuth University Germany The author challenges African Biblical scholars and Christian leaders to premise Biblical interpretation on the experiences of the often neglected underclasses The author argues that from a comparative historical cultural and material methodological point of view the experiences of the Zimbabwean underclasses whose collective ordeal is represented by the experiences of domestic workers are strikingly similar to those suffered by slaves among other underclasses in the biblical world In the same way religion was appropriated by the elite to validate oppression of the underclasses in the biblical world the author shows that since the colonial era Christianity in Africa through biblical interpretation among many other tactics has been an influential force on the side of the dominant class to advance their racial class and gender interests To date in Zimbabwe for example the Bible and religion in general is manipulated by the dominant minority to justify and entrench the exploitation of the majority underclasses On the other hand the author observes that the history of ancient Israel Roman colonial Palestine and colonial Zimbabwe evidences that when religion is appropriated and or the Bible is read and interpreted from the historical cultural and material conditions of the underclasses it can be a valuable resource not only for their mobilization to overthrow oppressive systems but also for justifying their resistance tactics Aluta Continua The Struggle goes on **Labour and Economic Change in Southern Africa**

c.1900-2000 Rory Pilosof, Andrew Cohen, 2021-06-03 This book explores the social and economic development of Zimbabwe Zambia and Malawi over the course of the twentieth century These three countries have long shared and interconnected pasts All three were drawn into the British Empire at a similar time and the formation of the ill fated Federation of Rhodesia and Nyasaland formally linked these countries together for a decade in the mid twentieth century This formal political relationship created dynamics that resulted in yet closer economic and social links After Federation the economic realities of industry transport and labour supplies meant that these three countries continued to be intricately interconnected Yet despite these connected pasts comparative work on the economic histories of Malawi Zambia and Zimbabwe and how these change over time is rare This book addresses the gap by providing the first comprehensive collection of labour and census data across the twentieth century for these three countries The different economic models and performances of these states offer good comparison allowing researchers to look at different models of development and how these played out over the

long term The book provides data on population growth and change industrial and occupational structure and the various shifts in what the economically active population did It will be useful for historians economists development studies scholars and non governmental organisations working on twentieth century and contemporary southern Africa *Hungochani* Marc Epprecht,2004 Challenging the stereotypes of African heterosexuality from the precolonial era to the present Women and Racial Discrimination in Rhodesia A.
