The Course of Andean History Peter V. N. Henderson, 2013-08-01 The only comprehensive history of Andean South America from initial settlement to the present this useful book focuses on Colombia Ecuador Peru and Bolivia the four countries where the Andes have played a major role in shaping history Although Henderson emphasizes the period since the winning of independence in 1825 he argues that the region's republican history cannot be explained without a clear understanding of what happened in the pre Hispanic and colonial eras Henderson carefully explores the complex relationship between the Andean peoples and their land up until the fall of the Inka Empire in 1532 before addressing the Spanish conquest and the colonial aftermath emphasizing the syncretism often unwillingly forced upon the original inhabitants of the region His account of the nineteenth century discusses the attempts of the Andean elite to fashion modern nation states in the face of many divisive factors including race The final chapters carry the story from 1930 to the present as the Andean countries debated different ways to create a more inclusive and prosperous society Cauca's Indigenous

Movement in Southwestern Colombia Brett Troyan, 2015-06-10 Cauca's Indigenous Movement in Southwestern Colombia Land Violence and Ethnic Identity provides a vivid account of how the indigenous communities of Cauca in southwestern Colombia engaged with the Colombian central state Troyan begins with the question of how 34 percent of the Colombian population obtained legal rights to close to a quarter of the national territory Her in depth study of the correspondence between the central state and indigenous communities of Cauca reveals that the nation state played a key role in the legitimization of land claims based on ethnic identity Starting with the indigenous movement led by Manuel Quintín Lame in 1914 this book shows how in contrast to the local authorities of Cauca the central state adopted a more sympathetic albeit contradictory approach to indigenous communities grievances throughout the twentieth century Land Violence and Cauca's Indigenous Movement in Southwestern Colombia presents an examination of state initiatives in the 1930s 1950s 1960s and 1970s toward indigenous communities in Cauca which sheds light on the political and social construction of Colombian indigenous identity Troyan also reveals how violence and the representation of violence shaped the conversations between the central state and indigenous communities of Cauca the central state's inability to exert a monopoly on violence Troyan argues places indigenous communities and their leaders in jeopardy despite the discursive legitimization of land claims based on ethnic identity

Community of Peace Christopher Courtheyn, 2022-03-29 Achieving peace is often thought about in terms of military operations or state negotiations Yet it also happens at the grassroots level where communities envision and create peace on their own The San Jos de Apartad Peace Community of small scale farmers has not waited for a top down peace treaty Instead they have actively resisted forced displacement and co optation by guerrillas army soldiers and paramilitaries for two decades in Colombia s war torn Urab region Based on ethnographic action research over a twelve year period Christopher Courtheyn illuminates the community s understandings of peace and territorial practices against ongoing assassinations and displacement San Jos s peace through autonomy reflects an alternative to traditional modes of politics practiced through electoral representation and armed struggle Courtheyn explores the meaning of peace and territory while also interrogating the role of race in Colombia s war and the relationship between memory and peace Amid the widespread violence of today s global crisis Community of Peace illustrates San Jos s rupture from the logics of colonialism and capitalism through the construction of political solidarity and communal peace

Sorting Out the Mixed Economy Amy C. Offner, 2021-06-08 The untold story of how U S development efforts in postwar Latin America helped lead to the dismantling of the U S welfare state In this groundbreaking book Amy Offner brings readers to Colombia and back showing the entanglement of American societies and the contradictory promises of midcentury statebuilding The untold story of how the road from the New Deal to the Great Society ran through Latin America Sorting Out the Mixed Economy also offers a

surprising new account of the origins of neoliberalism **New Racial Missions of Policing** Paul Amar,2013-09-13 This book identifies new formations of race racism and ethnicity at the intersection of neoliberalism security urban governance and the law through a comparative international analysis of police organizations and practices It pushes analytical and theoretical boundaries by examining racialization and ethnicization in locations where the topic is politically taboo such as in China India and France and where racial and ethnic hierarchies have supposedly been banished to the past as in Bosnia and South Africa This book also examines police and security services not as mere artefacts of state authority or the prerogatives of capitalist development but as relatively autonomous and uniquely productive intersections of new kinds of state social and cultural formations that are remaking race embodiment fear and control on their own terms This book was published as a special issue of Ethnic and Racial Studies **Regionalism and Modern Europe** Xosé M. Núñez Seixas,Eric Storm,2018-12-13 Providing a valuable overview of regionalism throughout the entire continent Regionalism in Modern Europe combines both geographical and thematic approaches to examine the origins and development of regional movements and identities in Europe from 1890 to the present A wide range of internationally renowned scholars from the USA the UK and mainland Europe are brought together here in one volume to examine the historical roots of the current regional movements and to explain why some of them Scotland Catalonia and Flanders among others evolve into nationalist movements and even strive for independence while others Brittany Bavaria do not They look at how regional identities through regional folklore language crafts dishes beverages and tourist attractions were constructed during the 20th century and explore the relationship between national and subnational identities as well as regional and local identities The book also includes 7 images 7 maps and useful end of chapter further reading lists This is a crucial text for anyone keen to know more about the history of the topical and at times controversial subject of regionalism in modern Europe **Whiteness** Steve Garner,2007-08-03 Making sociological sense of the idea of whiteness this book skilfully argues how this concept can help us understand contemporary societies bringing an emphasis on empirical work to a heavily theorized area **Freedom's Captives** Yesenia Barragan,2021-07-01 Freedom s Captives is a compelling exploration of the gradual abolition of slavery in the majority black Pacific coast of Colombia the largest area in the Americas inhabited primarily by people of African descent From the autonomous rainforests and gold mines of the Colombian Black Pacific Yesenia Barragan rethinks the nineteenth century project of emancipation by arguing that the liberal freedom generated through gradual emancipation constituted a modern mode of racial governance that birthed new forms of social domination while temporarily instituting de facto slavery Although gradual emancipation was ostensibly designed to destroy slavery she argues that slaveholders in Colombia came to have an even greater stake in it Using narrative and storytelling to map the worlds of Free Womb children enslaved women miners free black boatmen and white abolitionists in the Andean highlands Freedom s Captives insightfully reveals how the Atlantic World processes of gradual emancipation and post slavery rule unfolded in Colombia **A Fervent Crusade for**

the National Soul Catalina Muñoz-Rojas, 2022-01-04 A Fervent Crusade for the National Soul examines the implementation of cultural policies in relation to the contested configuration of citizenship in Colombia between 1930 and 1946 At a time when national identities were re imagined all over the Americas progressive artists and intellectuals affiliated with the liberal governments that ruled Colombia established an unprecedented bureaucratic apparatus for cultural intervention that celebrated so called popular culture and rendered culture a social right This book challenges pervasive narratives of state failure in Colombia attending to the confrontations negotiations and entanglements of bureaucrats with everyday citizens that shaped the relationship between the ruler and the ruled Catalina Mu oz argues that while culture became an instrument of inclusion the liberal definition of popular culture as authentic and static was also a tool for domination that reinforced enduring structures of inequality founded on region race and gender Liberals crafted the state as the paternalistic protector of acquiescent citizens instead of a warden of political participation Mu oz suggests that this form of governance allowed the elites to rule without making the structural changes required to craft a more equal society **Afro-Latin American**

Studies Alejandro de la Fuente, George Reid Andrews, 2018-04-26 Alejandro de la Fuente and George Reid Andrews offer the first systematic book length survey of humanities and social science scholarship on the exciting field of Afro Latin American studies Organized by topic these essays synthesize and present the current state of knowledge on a broad variety of topics including Afro Latin American music religions literature art history political thought social movements legal history environmental history and ideologies of racial inclusion This volume connects the region s long history of slavery to the major political social cultural and economic developments of the last two centuries Written by leading scholars in each of those topics the volume provides an introduction to the field of Afro Latin American studies that is not available from any other source and reflects the disciplinary and thematic richness of this emerging field **Other Geographies** Sharad

Chari, Susanne Freidberg, Vinay Gidwani, Jesse Ribot, Wendy Wolford, 2017-07-27 An international group of distinguished scholars pay homage to and build on the work of one of the most influential thinkers of our time Michael Watts Shows how Michael Watts research writings teaching and mentoring have relentlessly pushed boundaries transforming his chosen field of geography and beyond Spans an array of topics including the political economy and ecology of African societies governmentality and territoriality in various Southern contexts food security cultural materialist expositions of capitalism modernity and development across the postcolonial world Builds on his legacy exploring its theoretical analytical and empirical implications and proposing exciting new possibilities for further exploration in the tracks of Watts **Colombia: A**

Country Study Rex A. Hudson, 2010-09-08 Treats in concise and objective manner the dominant historical social political economic and national security aspects of contemporary Colombia Chapter bibliographies appear at the end of the book

political history of this vibrant region from the onset of independence to the present day Includes coverage of the recent opening of diplomatic relations between the U S and Cuba as well as a new chapter exploring economic growth and environmental sustainability Balances accounts of the lives of prominent figures with those of ordinary people from a diverse array of social racial and ethnic backgrounds Features first hand accounts documents and excerpts from fiction interspersed throughout the narrative to provide tangible examples of historical ideas Examines gender and its influence on political and economic change and the important role of popular culture including music art sports and movies in the formation of Latin American cultural identity Includes all new study questions and topics for discussion at the end of each chapter plus comprehensive updates to the suggested readings

Afterlives of Discovery heidi andrea restrepo rhodes, 2025-03-28 In *Afterlives of Discovery* heidi andrea restrepo rhodes traces global and national histories as they entangle through the concept and material life of Discovery across Colombia s evolution into a liberal settler colonial state Rather than seeing Discovery as a singular event or bygone era rhodes theorizes Discovery as a globally encompassing racialized formation of domination and geographic speculation that continues to structure settler colonialism Discovery s logics they argue are rooted in colonial and capitalist fantasies projected onto the racialized space and place of the colonized other rhodes draws on critical theory human rights research and Colombian archives to challenge dominant narratives that maintain the Colombian armed conflict began as a Marxist insurgency in 1964 Instead rhodes shows that the conflict is an extension of Discovery s ongoingness via projects of dispossession extraction whitening and epistemic and political hegemony Given that Colombia s national past present and future are grounded in Discovery rhodes asks How is it possible to build futures that escape Discovery s grasp

Blood and Capital Jasmin Hristov, 2014-07-31 In *Blood and Capital* The Paramilitarization of Colombia Jasmin Hristov examines the complexities dynamics and contradictions of present day armed conflict in Colombia She conducts an in depth inquiry into the restructuring of the state s coercive apparatus and the phenomenon of paramilitarism by looking at its military political and legal dimensions Hristov demonstrates how various interrelated forms of violence by state forces paramilitary groups and organized crime are instrumental to the process of capital accumulation by the local elite as well as the exercise of political power by foreign enterprises She addresses as well issues of forced displacement proletarianization of peasants concentration of landownership growth in urban and rural poverty and human rights violations in relation to the use of legal means and extralegal armed force by local dominant groups and foreign companies Hristov documents the penetration of major state institutions by right wing armed groups and the persistence of human rights violations against social movements and sectors of the low income population *Blood and Capital* raises crucial questions about the promised dismantling of paramilitarism in Colombia and the validity of the so called demobilization of paramilitary groups both of which have been widely considered by North American and some European governments as proof of Colombian president Ivano Uribe s advances in the wars on terror and drugs

Violence against Women in and beyond Conflict Julia Carolin

Sachseder,2022-09-16 Violence against Women in and beyond Conflict explores the processes and structures that underlie and contribute to sexual violence and internal displacement in armed conflict utilizing extensive ethnographic research to provide cutting edge insights The author argues that the key to understanding violence against women lies at the intersection of transnational capital race and gender that not only contribute to its production but also to its persistence The book uses the Colombian armed conflict as the primary case study but develops a broader framework for theorizing the relationship between the global political economy the history of coloniality and intersectional constructions of gender and race with regard to conflict and violence It offers an understanding of violence against women as not isolated from but part and a symptom of a larger system of political social and economic inequality that is rooted in colonialism and exploited and exacerbated by transnational capital relations The author also shows how the state and non state actors most prominently paramilitaries are involved in this relationship of violence The book highlights implications for meaningful and sustainable peace in post conflict contexts This book will be of great interest to students and scholars of international relations gender studies and conflict studies as well as policymakers non governmental organizations and practitioners interested in conflict and security

Path of Empire Aims McGuinness III,2016-12-01 Most people in the United States have forgotten that tens of thousands of U S citizens migrated westward to California by way of Panama during the California Gold Rush Decades before the completion of the Panama Canal in 1914 this slender spit of land abruptly became the linchpin of the fastest route between New York City and San Francisco a route that combined travel by ship to the east coast of Panama an overland crossing to Panama City and a final voyage by ship to California In *Path of Empire* Aims McGuinness presents a novel understanding of the intertwined histories of the California Gold Rush the course of U S empire and anti imperialist politics in Latin America Between 1848 and 1856 Panama saw the building by a U S company of the first transcontinental railroad in world history the final abolition of slavery the establishment of universal manhood suffrage the foundation of an autonomous Panamanian state and the first of what would become a long list of military interventions by the United States Using documents found in Panamanian Colombian and U S archives McGuinness reveals how U S imperial projects in Panama were integral to developments in California and the larger process of U S continental expansion *Path of Empire* offers a model for the new transnational history by unbinding the gold rush from the confines of U S history as traditionally told and narrating that event as the history of Panama a small place of global importance in the mid 1800s
