Muslims in the United States Karen Isaksen Leonard, 2003-06-19 As the United States wages war on terrorism the country's attention is riveted on the Muslim world as never before While many cursory press accounts dealing with Muslims in the United States have been published since 9 11 few people are aware of the wealth of scholarly research already available on the American Islamic population In *Muslims in the United States The State of Research* Karen Isaksen Leonard mines this rich vein of research to provide a fascinating overview of the history and contemporary situation of American Muslim communities Leonard describes how Islam never a monolithic religion has inevitably been shaped by its experience on American soil American Muslims are a religious minority and arbiters of Islamic cultural values and jurisprudence must operate within the framework of America's secular social and legal codes while coping with the ethnic differences among Muslim groups that have long divided their communities Arab Muslims tend to dominate mosque functions and teaching Arabic and the Qur'an whereas South Asian Muslims have often focused on the regional and national mobilization of Muslims around religious and political issues By the end of the 20th century however many Muslim immigrants had become American citizens prompting greater interchange among these groups and bridging some cultural differences African American Muslims remain the most isolated group a minority within a minority Many African American men have converted to Islam while in prison leading to a special concern among African American Muslims for civil and religious rights within the prison system Leonard highlights the need to expand our knowledge of African American Muslim movements which are often not regarded as legitimate by immigrant Muslims Leonard explores the construction of contemporary American Muslim identities examining such factors as gender sexuality race class and generational differences within the many smaller national origin and sectarian Muslim communities including secular Muslims Sufis and fundamentalists *Muslims in the United States* provides a thorough account of the impact of September 11th on the Muslim community Before the terrorist attacks Muslim leaders had been mostly optimistic envisioning a growing role for Muslims in U S society Afterward despite a brave show of unity and support for the nation Muslim organizations became more open in showing their own conflicts and divisions and more vocal in opposing militant Islamic ideologies By providing a concise summary of significant historical and contemporary research on Muslims in the United States this volume will become an essential resource for both the scholar and the general reader interested in understanding the diverse communities that constitute Muslim America

*Young Muslim America* Muna Ali, 2018-01-08 *Young Muslim America* is an ethnographic study explores the perspectives and identities of the American descendants of both immigrant Muslims and converts to Islam Muna Ali shows that whether their parents were new Muslims or new Americans the younger generations of Muslim Americans grow up bearing a dual heritage and are uniquely positioned to expand the meaning of both

**U.S. public diplomacy State Department expands efforts but faces significant challenges : report to the Committee on International Relations, House of Representation. ,** The First Amendment and State Bans on Teachers' Religious Garb Nathan C. Walker,2019-08-28 Examining the twelve decade legal conflict of government bans on religious garb worn by teachers in U S public schools this book provides comprehensive documentation and analysis of the historical origins and subsequent development of teachers religious garb in relation to contemporary legal challenges within the United Nations and the European Union By identifying and correcting factual errors in the literature about historical bans on teachers garb Walker demonstrates that there are still substantial and unresolved legal questions to the constitutionality of state garb statutes and reflects on how the contemporary conflicts are historically rooted Showcased through a wealth of laws and case studies this book is divided into eight clear and concise chapters and answers questions such as what are anti religious garb laws how have the state and federal court decisions evolved what are the constitutional standards what are the establishment clause and free exercise clause arguments and how has this impacted current debates on teachers religious garb before concluding with an informative summary of the points discussed throughout The First Amendment and State Bans on Teachers Religious Garb is the ideal resource for researchers academics and postgraduate students in the fields of education religion education policy sociology of education and law or those looking to explore an in depth development of the laws and debates surrounding teachers religious garb within the last 125 years *Uzbekistan Country Study Guide Volume 1 Strategic Information and Developments* IBP, Inc.,2017-11-30 *Uzbekistan Country Study Guide Strategic Information and Developments* *Stereotypes of Muslim Women in the United States* Alexis Tan,Anastasia Vishnevskaya,2022-06-21 This book brings into focus the perception of Muslim women in the United States often overlooked in research literature and common media narratives but at the same time facing increasing hate and aggression based on their religious and gendered identities Guided by data from three original experiments and theories of priming and media effects Alexis Tan and Anastasia Vishnevskaya discuss how stereotypes of Muslim women in the media influence public stereotypes and how public stereotypes direct aggressions towards them This book contributes to existing literature in the field by presenting evidence that both verbal and visual symbols in the media can activate implicit prejudices and that activation can be controlled by people who self identify as social liberals Ultimately Tan and Vishnevskaya suggest both

media and intrapersonal interventions to mitigate harmful consequences of prejudice towards Muslim women in the United States Scholars of media studies communication religious studies gender studies and cultural studies will find this book particularly useful

**Muslims and the State in the Post-9/11 West** Erik Bleich, 2013-09-13 From the terrorist attacks of 9 11 to the assassination of Dutch filmmaker Theo van Gogh to the London transportation bombings dramatic events of recent years have generated security concerns about Muslim communities in the West These have added an additional layer to the tensions surrounding Muslim immigrant integration and have generated heated discussions about how governments should address such challenges This collection assembles leading scholars to address four central themes related to the interactions between Muslims and states in contemporary Europe and North America Its authors investigate the timing of Muslims emergence as a perceived security risk they review the variety of actions undertaken in response to the new concerns they assess the effectiveness of different kinds of policies in managing the security and social challenges that governmental actors observe and they identify relevant Muslim sub groups and their highly divergent views on recent developments This book thus serves as a foundation for understanding an issue of critical importance and as a touchstone for advancing public policy and scholarly debate about Muslim state interactions This book was originally published as a special issue of the Journal of Ethnic and Migration Studies

**America and the Production of Islamic Truth in Uganda** Yahya Sseremba, 2023-05-16 This book investigates the ways in which the war on terror has transformed the postcolonial state in Africa Taking American intervention in Islamic education in Uganda as the entry point the book demonstrates how state control over Islamic truth production and everyday Muslim life has increased During the colonial period the Muslims in Uganda were governed in two ways partly as lesser citizens within the Christian dominated civil sphere and partly as members of a distinct Muslim domain In this domain a local system of Islamic education developed with a degree of autonomy that reflected the limits of the colonial state in shaping the Muslim subject In the subsequent postcolonial period systems of patronage and clientelistic networks dominated and Muslim leaders were co opted by the state but without much real interference in the day to day lives of ordinary Muslims However as part of the war on terror the US State Department seeks to bring the mechanisms of Islamic truth production especially the madrasa under direct state control and civil society scrutiny This book argues that the Muslim domain as a separate entity is coming to an end as it is being absorbed into the civil sphere unifying the state s domination of society The book also analyzes local Ugandan Muslim initiatives to modernise and contextualize their own education and religion and how these initiatives are shaped by and transcend the dominant power A thorough exploration of US foreign policy and Islamic education this book will be of interest to students and scholars in the fields of Political Studies African Studies and Religious Studies

*Being and Belonging* Katherine Pratt Ewing, 2008-06-12 The terrorist attacks of September 11 2001 instantly transformed many ordinary Muslim and Arab Americans into suspected terrorists In the weeks and months following the attacks Muslims in the United States faced a

frighteningly altered social climate consisting of heightened surveillance interrogation and harassment In the long run however the backlash has been more complicated In *Being and Belonging* Katherine Pratt Ewing leads a group of anthropologists sociologists and cultural studies experts in exploring how the events of September 11th have affected the quest for belonging and identity among Muslims in America for better and for worse From Chicago to Detroit to San Francisco *Being and Belonging* takes readers on an extensive tour of Muslim America inside mosques through high school hallways and along inner city streets Jen nan Ghazal Read compares the experiences of Arab Muslims and Arab Christians in Houston and finds that the events of 9 11 created a cultural wedge dividing Arab Americans along religious lines While Arab Christians highlighted their religious affiliation as a means of distancing themselves from the perceived terrorist sympathies of Islam Muslims quickly found that their religious affiliation served as a barrier rather than a bridge to social and political integration Katherine Pratt Ewing and Marguerite Hoyler document the way South Asian Muslim youth in Raleigh North Carolina actively contested the prevailing notion that one cannot be both Muslim and American by asserting their religious identities more powerfully than they might have before the terrorist acts while still identifying themselves as fully American Sally Howell and Amaney Jamal distinguish between national and local responses to terrorism In striking contrast to the erosion of civil rights ethnic profiling and surveillance set into motion by the federal government well established Muslim community leaders in Detroit used their influence in law enforcement media and social services to empower the community and protect civil rights Craig Joseph and Barnaby Riedel analyze how an Islamic private school in Chicago responded to both September 11 and the increasing ethnic diversity of its student body by adopting a secular character education program to instruct children in universal values rather than religious doctrine In a series of poignant interviews the school s students articulate a clear understanding that while 9 11 left deep wounds on their community it also created a valuable opportunity to teach the nation about Islam The rich ethnographies in this volume link 9 11 and its effects to the experiences of a group that was struggling to be included in the American mainstream long before that fateful day Many Muslim communities never had a chance to tell their stories after September 11 In *Being and Belonging* they get that chance

*Islam and the Liberal State*

Stephen H. Jones, 2020-11-26 National identity and liberal democracy are recurrent themes in debates about Muslim minorities in the West Britain is no exception with politicians responding to claims about Muslims lack of integration by mandating the promotion of fundamental British values including democracy and individual liberty This book engages with both these themes addressing the lack of understanding about the character of British Islam and its relationship to the liberal state It charts a gradual but decisive shift in British institutions concerned with Islamic education Islamic law and Muslim representation since Muslims settled in the UK in large numbers in the 1950s Based on empirical research including interviews undertaken over a ten year period with Muslims and analysis of public events organized by Islamic institutions Stephen Jones challenges claims about the isolation of British Islamic organizations and shows that they have decisively

shaped themselves around British public and institutional norms He argues that this amounts to the building of a distinctive British Islam Using this narrative the book makes the case for a variety of liberalism that is open to the expression of religious arguments in public and to associations between religious groups and the state It also offers a powerful challenge to claims about the insularity of British Islamic institutions by showing how the national orientation of Islam called for by British policymakers is in fact already happening

**Muslims in a Post-9/11 America** Rachel M. Gillum, 2018-07-27 Muslims in a Post 9 11 America examines how public fears about Muslims in the United States compare with the reality of American Muslims attitudes on a range of relevant issues While most research on Muslim Americans focuses on Arab Muslims a quarter of the Muslim American population Rachel Gillum includes perspectives of Muslims from various ethnic and national communities from African Americans to those of Pakistani Iranian or Eastern European descent Using interviews and one of the largest nationwide surveys of Muslim Americans to date Gillum examines more than three generations of Muslim American immigrants to assess how segments of the Muslim American community are integrating into the U S social fabric and how they respond to post 9 11 policy changes

Gillum's findings challenge perceptions of Muslims as a homogeneous isolated un American and potentially violent segment of the U S population Despite these realities negative political rhetoric around Muslim Americans persists The findings suggest that the policies designed to keep America safe from terrorist attacks may have eroded one of law enforcement's greatest assets in the fight against violent extremism a relationship of trust and goodwill between the Muslim American community and the U S government Gillum argues for policies and law enforcement tactics that will bring nuanced understandings of this diverse category of Americans and build trust rather than alienate Muslim communities *Routledge Handbook of Islam in Africa* Terje Østebø, 2021-12-20 Bringing together cutting edge research from a range of disciplines this handbook argues that despite often being overlooked or treated as marginal the study of Islam from an African context is integral to the broader Muslim world Challenging the portrayal of African Muslims as passive recipients of religious impetuses arriving from the outside this book shows how the continent has been a site for the development of rich Islamic scholarship and religious discourses Over the course of the book the contributors reflect on The history and infrastructure of Islam in Africa Politics and Islamic reform Gender youth and everyday life for African Muslims New technologies media and popular culture Written by leading scholars in the field the contributions examine the connections between Islam and broader sociopolitical developments across the continent demonstrating the important role of religion in the everyday lives of Africans This book is an important and timely contribution to a subject that is often diffusely studied and will be of interest to researchers across religious studies African studies politics and sociology **Religious Freedom in Islam** Daniel Philpott, 2019-02-01 Is Islam hospitable to religious freedom Daniel Philpott examines conditions on the ground in forty seven Muslim majority countries today and offers an honest clear eyed answer to this urgent question *Race, Popular Culture, and Far-right Extremism in the United States* Priya Dixit, 2022-10-25 This book analyzes key popular culture artifacts linked with United States far right extremism to illustrate how extremists use various narrative strategies to legitimate their interests and goals and to justify violent actions Recognizing these narrative strategies and how they are used partly explains the back and forth moves between mainstream politics and the far right of ideas and issues that used to remain within far right circles The main objective of this book is to utilize theoretical approaches that centralize processes of racialization to analyze and explain how far right extremists utilize recognizable narratives to mainstream and communicate their ideas The book will illustrate processes by which racialized subjects are produced and violence justified In order to do so the book concentrates on popular culture as sources of how the far right constitutes their identities and goals It first develops a methodological plan to study popular culture artifacts that is drawn from scholarship on race and discourse analysis in International Relations IR It then analyzes far right use of key popular culture artifacts such as magazines memes and manifestos to note how extremist identities and interests are produced publicly communicated and mainstreamed This will contribute to Security Studies and IR's understanding of far right extremism especially how they utilize similar narrative

strategies as used in mainstream contexts to justify their calls for violence

**Exploring the Public Effects of Religious Communication on Politics** Brian Calfano, 2021-08-03 Though not all people are religious believers religion has played important historic roles in developing political systems parties and policies affecting believers and nonbelievers alike This is particularly true in the United States where scholars have devoted considerable attention to a variety of political phenomena at the intersection of religious belief and identity including social movements voting behavior public opinion and public policy These outcomes are motivated by identity boundary making among the religiously affiliated The contributors to this volume examine two main factors that influence religious identity the communication of religious ideas and the perceptions of people including elites in communicating said ideas Exploring the Public Effects of Religious Communication on Politics examines an array of religious communication phenomena These include the media's role in furthering religious narratives about minority groups religious strategies that interest groups use to advance their appeal the variable strength of Islamophobia in cross national contexts what qualifies as an evangelical identity and clergy representation of religious and institutional teachings The volume also provides ways for readers to think about developing new insights into the influence religious communication has on political outcomes

**Islam and Politics in Bangladesh** Mubashar Hasan, 2020-01-27 This book conceptualizes the politics of Bangladesh through an Islamic concept called ummah or the global brotherhood of Muslims It demonstrates that against the backdrop of geopolitics capitalism and free flow of ideas localization of this global religious concept at individual level institutional level major party platforms and state has cemented the current political condition in Bangladesh in which religiosity religious intolerance Islamization and extremism take place By exploring the effects of ummah in Bangladeshi politics this book shows how major political parties have mainstreamed political Islam in the country The book rejects the long standing scholarly claim of religious secular distinction in Bangladeshi politics and argues that with most Muslim dominated states there are no major secular parties in Bangladesh There are only Islamic parties which are more or less Islamic The purely rational domain of politics in Bangladesh is long lost and political Islam sets the framework for politics in the country The reason behind this logic of Bangladeshi politics is formed contained and expanded by ummah

**The Battle for the Soul of Islam** James M. Dorsey, 2024-07-02 This book describes the battle between major Middle Eastern and Asian Muslim majority states to control the definition of Islam in the 21st century Focusing on United Arab Emirates Saudi Arabia and Indonesia the book explores how the outcome of this battle will significantly empower the winner or winners to wield religious soft power secure leadership of the Islamic world and project strategic influence worldwide The result of the rivalry will determine which notions of a moderate Islam will prevail including the degree to which these notions embrace religious and political pluralism

tolerance gender equality secularism and human rights as defined by the Universal Declaration of Human Rights or remain vague as in current Saudi and Emirate usage of the term moderation which is designed to mask these states failure to systematically integrate these values into their domestic and foreign policy agendas Ultimately the battle for the soul of Islam will significantly impact how Muslims worldwide understand and practice their faith Waged in diverse arenas across the globe this complex religious and geopolitical struggle will play a significant role in determining the prospects for peace and security not only in the vast region extending from the Atlantic coast of Africa to the Philippines but also in the United States and Europe
