Office of Justice Programs. Office for Victims of Crime, 1999-12 **American Poultry Advocate**, 1919 *The European Union's Trade Defence Modernisation Package* Patricia Trapp, 2022-01-03 Anti dumping and anti subsidy measures are the most important elements of the European Union's trade defence instruments Since the beginning of the European integration process they have been used to combat trade practices which are considered unfair and their distortive effects on competition in the internal market However while the imposition of trade defence measures aims to level the playing field between EU producers and their foreign competitors it also produces negative effects on competition itself Based on the role attributed to competition and trade defence policy respectively throughout the European integration process this book argues that the trading bloc's trade defence instruments should not be designed or applied with the objective of granting maximum protection to EU producers but that their use should be limited to what is necessary to ensure fairness in competition between EU producers and exporting producers However an analysis of the changes made to the European Union's Basic Anti Dumping Regulation and the Basic Anti Subsidy Regulation by the Trade Defence Modernisation Package reveals that several aspects of the European Union's modernised trade defence instruments do not meet this requirement Rather than being limited to offsetting the unfair competitive advantages of producers practicing dumping or benefiting from subsidies the reformed provisions go beyond this distorting competition in favour of the EU industry instead Furthermore the book critically assesses the reformed rules relating to the integration of social and environmental aspects in the imposition of anti dumping or anti subsidy measures as well as the modernised basic regulations compatibility with WTO
