Language Policy and Conflict Prevention Iryna Ulasiuk, Laurențiu Hadîrcă, William Romans, 2018-04-10 Language policy can promote stability For many individuals and groups language is a key component of identity and threats to it can raise tensions Respect for linguistic rights whilst also considering a state's need to maintain cohesion reduces conflict potential The OSCE High Commissioner on National Minorities promotes functional solutions to such contentious issues and the Oslo Recommendations regarding the Linguistic Rights of National Minorities address these challenges This book analyses the components of a balanced legal and policy framework on language use with a view to preventing conflict In addition to reviewing the work of the OSCE HCNM in this area it also draws upon the expertise of other international organisations and leading academics working in this field See inside the book

Kroskrity, 1998-05-28 Language ideologies are cultural representations whether explicit or implicit of the intersection of language and human beings in a social world Mediating between social structures and forms of talk such ideologies are not only about language Rather they link language to identity power aesthetics morality and epistemology Through such linkages language ideologies underpin not only linguistic form and use but also significant social institutions and fundamental notions of person and community The essays in this new volume examine definitions and conceptions of language in a wide range of societies around the world Contributors focus on how such defining activity organizes language use as well as institutions such as religious ritual gender relations the nation state schooling and law Beginning with an introductory survey of language ideology as a field of inquiry the volume is organized in three parts Part I Scope and Force of Dominant Conceptions of Language focus on the propensity of cultural models of language developed in one social domain to affect linguistic and social behavior across domains Part II Language Ideology in Institutions of Power continues the examination of the force of specific language beliefs but narrows the scope to the central role that language ideologies play in the functioning of particular institutions of power such as schooling the law or mass media Part III Multiplicity and Contention among Ideologies emphasizes the existence of variability contradiction and struggles among ideologies within any given society This will be the first collection of work to appear in this rapidly growing field which bridges linguistic and social

Guimarães,2024-06-04 Higher education institutions HEIs are increasingly affected by globalization and internationalization with implications for language use teaching and learning in their academic communities As a consequence HEIs may change their approach to multilingualism on campus taking into account language needs as well as opportunities and challenges associated with language diversity The book aims at discussing aspects for the design of language policies which could support internationalization and promote multilingualism and participation of different stakeholders By presenting a language policy model the book provides an alternative for those engaged in language diversity in HEIs **Spaces of Multilingualism** Robert Blackwood,Unn Røyneland,2021-10-17 This innovative collection explores critical issues in understanding multilingualism as a defining dimension of identity creation and negotiation in contemporary social life Reinforcing interdisciplinary conversations on these themes each chapter is co authored by two different researchers often those who have not written together before The combined effect is a volume showcasing unique and dynamic perspectives on such topics as rethinking of language policy testing of language rights language pedagogy meaning making and activism in the linguistic landscape The book explores multilingualism through the lenses of spaces and policies as embodied in Elizabeth Lanza s body of work in the field with a focus on the latest research on linguistic landscapes in diverse settings Taken together the book offers a window into better understanding issues around processes of change in and of languages and societies This ground breaking volume will be of particular interest to students and scholars in multilingualism applied linguistics and sociolinguistics Canadian Language Policies in Comparative Perspective Michael A. McGuire,2023-09-18 This volume explores performative linguistic space namely a space which ushers or hinders linguistic practices Space is made productive as a result of individuals who bring linguistic politics from diverse spaces into new ones By moving away from the notions of discrete units of language and linguistic communities associated with a specific space this volume suggests a fluid productive aspect of space It goes beyond the assumed space linguistic community association through ethnographic accounts that mediate linguistic anthropology cultural geography sociolinguistics and deaf studies **Critical Translation Studies** Douglas Robinson,2017-02-17 This book offers an introduction for Translation Studies TS

scholars to Critical Translation Studies CTS a cultural studies approach to the study of translation spearheaded by Sakai Naoki and Lydia H Liu with an implicit focus on translation as a social practice shaped by power relations in society The central claim in CTS is that translators help condition what TS scholars take to be the primal scene of translation two languages two language communities with the translator as mediator According to Sakai intralingual translation is primal we are all foreigners to each other making every address to another heterolingual thus a form of translation and it is the order that these acts of translation bring to communication that begins to generate the two separate languages scenario CTS is dedicated to the historicization of the social relations that create that scenario In three sets of Critical Theses on Translation the book outlines and explains and partly critiques the CTS approach in five interspersed chapters the book delves more deeply into CTS with an eye to making it do work that will be useful to TS scholars

Words become Worlds Ellen van Wolde, 2021-08-30 By carefully analyzing the text semantic features of the texts of Genesis 1 11 this book offers a quite new perspective on the primaeval history The first part of the book examines Genesis 1 11 which is usually read as a creation story concerning the human being in relation to God in which the human being falls from bad to worse In these text semantic studies it is shown that such is not the case especially in the rather exciting analysis of the story of the Tower of Babel In the second part of the book the methodological framework of these text semantic studies is presented

Language Issues in Comparative Education Carol Benson, Kimmo Kosonen, 2013-06-13 This volume compiles a unique yet complementary collection of chapters that take a strategic comparative perspective on education systems regions of the world and or ethnolinguistic communities with a focus on non dominant languages and cultures in education Comparison and contrast within each article and across articles illustrates the potential for using home languages which in many cases are in non dominant positions relative to other languages in society in inclusive multilingual and multicultural forms of education The 22 authors demonstrate how bringing non dominant languages and cultures into schooling has liberatory transformative potential for learners from ethnolinguistic communities that have previously been excluded from access to quality basic education The authors deal not only with educational development in specific low income and emerging countries in Asia Afghanistan Bangladesh Cambodia the Philippines Thailand and Vietnam Latin

America Guatemala and Mexico and Africa Mozambique Senegal and Tanzania but also with efforts to reach marginalized ethnolinguistic communities in high income North American countries Canada and the USA In the introductory chapter the editors highlight common and cross cutting themes and propose appropriate sometimes new terminology for the discussion of linguistic and cultural issues in education particularly in low income multilingual countries Likewise using examples from additional countries and contexts the three final chapters address cross cutting issues related to language and culture in educational research and development The authors and editors of this volume share a common commitment to comparativism in their methods and analysis and aim to contribute to more inclusive and relevant education for all A richly textured collection which offers a powerful vision of the possible now and in the future Alamin Mazrui Rutgers State University of New Jersey USA This book takes the local perspective of non dominant language communities in arguing for a multilingual habitus in educational development Benson and Kosonen masterfully extend theories and clarify terminology that is inclusive of the non dominant contexts described here Ofelia Garc a City University of New York USA *The Sixth Jewel of Earth* James W. Greenhalge, 2019-05-11 It s not like anybody s gonna see a real unicorn offered the stranger lamely as he turned and made for the exit A real unicorn The traveler watched the man depart He once saw the world and the future in the same way Unicorns dragons faith they were all unreal He was left alone again in his study carrel at the back of the library But what if you really did see a unicorn The Sixth Jewel of Earth follows the exploits of the traveler a twenty first century man mysteriously equipped with a marvelous ancient pendant whose capabilities he does not understand companions he does not fully appreciate and with an open ended mission he does not see any hope of accomplishing and an intractable enemy obsessed with his failure Now befriended by a unicorn could this journey become any more surreal But it is real all of it It is his future and yours **Language** Guanlian Qian, 2021-05-18 Heidegger characterizes the relationship between language and Being as language is the house of Being negating the idea that language is merely a tool ready to be used at hand Drawing on this idea as well as ideas from anthropology pragmatics and folklore studies the author argues that language is the last homestead of human beings meaning that mankind lives within language has to live within language and lives in formulaic speech events The author takes Western classic works on the philosophy of language and his own insights of language use rooted in traditional Chinese culture in order to develop his own localized theory In this title the author explores the philosophical aspect of man s survival by presenting day to day exchange routines such as weddings and fortune telling dialogues in the Chinese context Awarded the first prize for Academic Excellence in Philosophy and Social Sciences in Guangdong Province and second prize in the second Xu Guozhang Award for Foreign Language Studies this is a must read for researchers interested in philosophy of language and pragmatics *Language, Nations, and Multilingualism* Ying-Ying Tan, Pritipuspa Mishra, 2020-12-30 Language Nations and Multilingualism explores the legacy of Herder s ideas about the relationship between language and nationalism in the post colonial world Focusing on how anti colonial and post colonial

nations reconcile their myriad multilingualisms with the Herderian model of one language one nation it shows how Herder's model is both attractive and problematic for such nations Why then does the Herderian model have such valency How has the Herderian ideal of one nation one language continued to survive beneath the uncomfortable resolution struck by new multilingual nations as they create fictions of a singular national mother tongue To what extent is Herder still relevant in our contemporary world How have different nations negotiated the Herderian ideal in different ways What does the way in which multilingual post colonial nations deal with this crisis tell us about a possible alternative framework for understanding the relationship between language and nation By approaching this investigation from diverse archives across Asia Africa Europe Latin America and the Caribbean *Language Nations and Multilingualism* proposes answers to the aforementioned questions from a global perspective that takes into account the specificities of a range of colonial experiences and political regimes And by extending the discussion backwards in time to offer a more historical reading of the making of modern nations it allows us to see how multilingualism has always disrupted constructions of monoglot nations

[Multiculturalism in Israel](#) Adia Mendelson-Maoz, 2015-03-15 By analyzing its position within the struggles for recognition and reception of different national and ethnic cultural groups this book offers a bold new picture of Israeli literature Through comparative discussion of the literatures of Palestinian citizens of Israel of Mizrahim of migrants from the former Soviet Union and of Ethiopian Israelis the author demonstrates an unexpected richness and diversity in the Israeli literary scene a reality very different from the monocultural image that Zionism aspired to create Drawing on a wide body of social and literary theory Mendelson Maoz compares and contrasts the literatures of the four communities she profiles In her discussion of the literature of the Palestinian citizens of Israel she presents the question of language and translation and she provides three case studies of particular authors and their reception Her study of Mizrahi literature adopts a chronological approach starting in the 1950s and proceeding toward contemporary Mizrahi writing while discussing questions of authenticity and self determination The discussion of Israeli literature written by immigrants from the former Soviet Union focuses both on authors who write Israeli literature in Russian and of Russian immigrants writing in Hebrew The final section of the book provides a valuable new discussion of the work of Ethiopian Israeli writers a group whose contributions have seldom been previously acknowledged The picture that emerges from this groundbreaking book replaces the traditional homogeneous historical narrative of Israeli literature with a diversity of voices a multiplicity of origins and a wide range of different perspectives In doing so it will provoke researchers in a wide range of cultural fields to look at the rich traditions that underlie it in new and fresh ways

languages sign languages and world languages such as English Arabic and Mandarin not to mention emerging linguistic varieties and practices of language mixing How does the government manage these languages in different domains such as education the media the workplace and the public while balancing concerns over language endangerment and the need for participation in the global community Subhan Zein asserts that superdiversity is the key to understanding and assessing these intricate issues and their complicated contested and innovative responses in the complex dynamic and polycentric sociolinguistic situation in Indonesia that he conceptualises as superglossia This offers an opportunity for us to delve more deeply into such a context through the language and superdiversity perspective that is in ascendancy Zein examines emerging themes that have been dominating language policy discourse including status prestige corpus acquisition cultivation language shift and endangerment revitalisation linguistic genocide and imperialism multilingual education personnel policy translanguaging family language policy and global English These topical areas are critically discussed in an integrated manner against Indonesia s elaborate socio cultural political and religious backdrop as well as the implementation of regional autonomy In doing so Zein identifies strategies for language policy to help inform scholarship and policymaking while providing a frame of reference for the adoption of the superdiversity perspective on polity specific language policy in other parts of the world
