Kazantzakis, Volume 2 Peter Bien, 2010-07-01 Putting Greek writer Nikos Kazantzakis's vast output into the context of his lifelong spiritual quest and the turbulent politics of twentieth century Greece Peter Bien argues that Kazantzakis was a deeply flawed genius not always artistically successful but a remarkable figure by any standard This is the second and final volume of Bien's definitive and monumental biography of Kazantzakis 1883-1957 It covers his life after 1938 the period in which he wrote *Zorba the Greek* and *The Last Temptation of Christ* the novels that brought him his greatest fame A demonically productive novelist poet playwright travel writer autobiographer and translator Kazantzakis was one of the most important Greek writers of the twentieth century and the only one to achieve international recognition as a novelist But Kazantzakis's writings were just one aspect of an obsessive struggle with religious political and intellectual problems In the 1940s and 1950s a period that included the Greek civil war and its aftermath Kazantzakis continued this engagement with undiminished energy despite every obstacle producing in his final years novels that have become world classics

Toward a Catholic Theology of Nationality Dorian Llywelyn, 2010-06-28 Nationality continues to be an important part of how people identify themselves and others Who am I is inseparable from the question Who and what are we Historically many nations have made use of the Bible and Christian notions to understand themselves and to justify their political ambitions Catholic theology however has never elaborated on a systematic treatment of nationality Dorian Llywelyn forges a new approach treating the nation as a form of culture He addresses some key questions How are the religious and national aspects of human identity connected What does Catholic doctrine have to say about nationality and nationalism Is there really such a thing as a Christian nation Is Catholicism compatible with patriotism Llywelyn's wide ranging book introduces the reader to contemporary approaches to nationality nationality national identity nationalism and patriotism Drawing from the insights of sociology history and anthropology he investigates the many ways in which nations and Christianity have intertwined and explores what scripture and twentieth century papal teaching have to say on the matter He provides an original Catholic theology of national belonging one which is based on the implications of the Incarnation Examining popular devotions to the Virgin Mary as national patroness and drawing from the metaphysical acumen of the medieval thinker John Duns Scotus Llywelyn argues for the theological value of nationality and proposes that global community and cultural and national diversity are mutually necessary values
