Marsh, 2025-07-15 Originally published in 1979 this book concentrates on the major developments in social policy in the second half of the 20th century The first part considers these in relation to the economic and social environment comprising essays on social policy in relation to industry urban planning and housing need Further chapters consider social policies designed to meet individual needs such as education health and the maintenance of income The final section deals with personal social services and the relation of social policy to crime For its breadth and scope of coverage the book will be of interest to all students of the history of social policy and social work **Doing Secondary Analysis** Angela Dale, Sara Arber, Michael Procter, 2025-06-30 Originally published in 1988 Doing Secondary Analysis is a practical guide to the secondary analysis of large scale survey data At a time when funding for primary data collection was increasingly constrained the secondary analysis of high quality government surveys offered the social scientist an unrivalled opportunity This volume provided a guide which moves through every stage of doing secondary analysis The authors begin with the conceptualization of the research problem and examine all the practicalities of using both standard rectangular data and hierarchical data and of deriving simple and complex variables They also provide a lucid description of the hardware and software available to the secondary analyst at the time This book successfully demonstrates the way in which secondary analysis can contribute both to the development of sociological theory and to social policy formation The authors emphasize throughout that secondary analysis cannot be used as a short cut to

quick results but that as much care over defining the research problem and understanding the categories of data is needed as for any other kind of research While Doing Secondary Analysis was invaluable to those about to embark upon social research it also offered many challenges to more experienced researchers

Identifying the Poor: Using Subjective and Consensual Measures Karel Van Den Bosch, 2017-11-01 This title was first published in 2002 An investigation into the problem of identifying the poor and determining the poverty line The book focuses on one particular approach to the issue where survey respondents are asked for their views and outlines the four variants in the approach the consensual income method the consensual standard of living method the income evaluation method and the income satisfaction method The book contains an extensive and thorough review of the theoretical and empirical literature as well as rigorous analysis of survey data from Belgium The result is a conclusive assessment of the validity and usefulness of the subjective and consensual approaches to poverty measurement

Teachers and Classes Kevin Harris, 2017-05-08 In this study first published in 1982 the author draws on his considerable experience at all levels in the school system to present a radical Marxist critique of that structure He argues that the schooling process within contemporary corporate capitalism is inimical to education while true education in turn is inimical to capitalism He argues further that teachers who are participants in ongoing class struggle can begin to be concerned primarily with education only when they perform the function of the collective labourer This title will be of interest to students of education and sociology

Routledge Library Editions: Organizations (31 vols) Various, 2021-12-02 Re issuing volumes originally published between 1949 and 1995 this 31 volume set examines the theory and behaviour of organizations Topics covered include the sociology of work leadership and organizations politics at work theory and practice of company organization patterns of business organization company strategy and organizational design

The International Yearbook of Organization Studies 1981 (RLE: Organizations) David Dunkerley, Graeme Salaman, 2013-05-02 The diverse topics in this volume bring together developments in the field of organization studies Although the approaches are by no means undifferentiated the articles share a commitment to a revitalized organizational analysis an historically based analysis and one which attempts to understand the structure and impact of organizations in terms of the location of these organizations within structure of class and power
