natural sciences to international relations Somos uses richly contextualised portraits of Scaliger Heinsius Cunaeus and Grotius to develop a new model of secularisation as a contingent cumulative and incomplete process with some unintended consequences Facing severe conflict the Leiden Circle realised that rival claims that staked their truth content and validity on religious belief were ultimately irreconcilable Gradually they removed such claims from acceptable discourse contributing to the comprehensive secularisation that defines modernity If blindness to religious claims has become definitive of modern politics Somos concludes recollecting its historical complexity and contingency is essential for overcoming some of its failures

Lucian's Laughing Gods Inger NI Kuin, 2023-04-10 No comic author from the ancient world features the gods as often as Lucian of Samosata yet the meaning of his works remain contested He is either seen as undermining the gods and

criticizing religion through his humor or as not engaging with religion at all featuring the gods as literary characters His humor was traditionally viewed as a symptom of decreased religiosity but that model of religious decline in the second century CE has been invalidated by ancient historians Understanding these works now requires understanding what it means to imagine as laughing and laughable gods who are worshipped in everyday cult In Lucian s *Laughing Gods* author Inger N I Kuin argues that in ancient Greek thought comedic depictions of divinities were not necessarily desacralizing In religion laughter was accommodated to such an extent as to actually be constituent of some ritual practices and the gods were imagined either to reciprocate or push back against human laughter they were never deflated by it Lucian uses the gods as comic characters but in doing so he does not automatically negate their power Instead with his depiction of the gods and of how they relate to humans frivolous insecure callous Lucian challenges the dominant theologies of his day as he refuses to interpret the gods as ethical models This book contextualizes Lucian s comedic performances in the intellectual life of the second century CE Roman East broadly including philosophy early Christian thought and popular culture dance fables standard jokes etc His texts are analyzed as providing a window onto non elite attitudes and experiences and methodologies from religious studies and the sociology of religion are used to conceptualize Lucian s engagement with the religiosity of his contemporaries
