Raphael Two Angels:

Hidden Angels Norman Amato, 2008-05-05 *Hidden Angels* An Anthology of Angels is the latest reference book on Angels It puts into perspective what Angels really are and dispels the erroneous information and myths about Angels that have been handed handed down to us through the conjurers especially the fact that they are divided into the two camps of good and evil ever at war with eachother It depicts Satan as being restricted to doing only that which is the will of the Almighty and therefore contrary to the beliefs of many he does not have power or a will of his own The book describes in detail the ten Classes of Angels The names of the Archangels who govern them and the tasks that have been allotted to each of them It briefly deals with the Kabala and its description of Angels and discloses how we are able to arrive at the names of some angels whose names have been until now hidden from us The Meditations given are both inspiring most interesting and leave us with a strong feeling of Peace
