Redeeming Television How Tv Changes Christians How Christians Can Change Tv:

Redeeming Television Quentin James Schultze, 1992 Quentin J Schultze offers an indispensable course in televisual literacy counseling us to become active watchers instead of passive viewers Winner of a 1993 Christianity Today Critics Choice Award 2nd place contemporary issues 180 pages paper *Watching TV Religiously (Engaging Culture)* Kutter Callaway, Dean Batali, 2016-11-15 Helping Christians Understand the Power and Meaning of TV Since its inception television has captured the cultural imagination Outside of work and sleep it is now the primary preoccupation of most Americans Individuals consume upward of five hours of TV daily even more when taking into account viewing done online and on mobile devices TV is so ingrained in the fabric of everyday life that it can't help but function as one of the primary means through which we make sense of our lives and the world This book shows that television as a technology a narrative art form a commodity and a portal for our ritual lives confronts viewers theologically Whether its content is explicitly spiritual or not TV routinely invites and sometimes demands theological reflection This book articulates something of the presence and activity of God in the golden age of TV and forges an appropriate response to an ever changing cultural form It constructs a theology of television that allows for both celebration and critique helping Christians more fully understand and appreciate the power and meaning of TV A supplemental website provides additional resources conversations and close readings of TV programs

Woods Jr., 2013-01-09 This three volume collection demonstrates the depth and breadth of evangelical Christians consumption critique and creation of popular culture and how evangelical Christians are both influenced by and influence mainstream popular culture covering comic books to movies to social media Evangelical Christians and Popular Culture Pop Goes the Gospel addresses the full spectrum of evangelical media and popular culture offerings even delving into lesser known forms of evangelical popular culture such as comic books video games and theme parks The chapters in this 3 volume work are written by over 50 authors who specialize in fields as diverse as history theology music psychology journalism film and television studies advertising and public relations Volume 1 examines film radio and television and the Internet Volume 2 covers literature music popular art and merchandise and Volume 3 discusses public figures popular press places and events The work is intended for a scholarly audience but presents material in a student friendly accessible manner Evangelical insiders will receive a fresh look at the wide variety of evangelical popular culture offerings many of which will be unknown while non evangelical readers will benefit from a comprehensive introduction to the subject matter **The Complete Book of Everyday Christianity** R. Paul

Stevens, Robert Banks, 2018-12-01 I am thrilled to know that The Complete Book of Everyday Christianity is being relaunched A well worn first edition of this book sits next to my office desk and I consult it often There is no better collection of everyday issues examined from a Christian perspective A wide variety of topics are addressed with a cleverly balanced combination of academic and practical perspectives informed by thoughtful biblical and theological reflection This is a wonderfully useful

tool I am pleased that it will be available to resource a new generation of Christians who are eager to understand more about what it means to follow Christ in every aspect of life Alistair Mackenzie Senior Lecturer School of Theology Mission and Ministry Laidlaw College Christchurch New Zealand Also Director of Faith at Work NZ Networked Theology (Engaging Culture) Heidi A. Campbell, Stephen Garner, 2016-09-20 The Theological Implications of Digital Culture This informed theology of communication and media analyzes how we consume new media and technologies and discusses the impact on our social and religious lives Combining expertise in religion online theology and technology the authors synthesize scholarly work on religion and the internet for a nonspecialist audience They show that both media studies and theology offer important resources for helping Christians engage in a thoughtful and faith based critical evaluation of the effect of new media technologies on society our lives and the church *The Christian in Today's Culture* Charles W. Colson, Nancy Pearcey, 2001 Each of these three books Developing a Christian Worldview of Science and Evolution Developing a Christian Worldview of the Problem of Evil and Developing a Christian Worldview of the Christian in Today's Culture is drawn from Colson's highly successful How Now Shall We Live Shorter in length and accessible to readers the Developing a Christian Worldview series is ideal for small group study and classroom use Each chapter begins with pre reading questions and each study session is made up of newly written discussion questions role playing activities and challenges to implement key insights All are designed to help readers grasp Colson's arguments and learn how to use the points effectively with non Christians **Prophetically Incorrect** Robert H. Jr. Woods, Paul D. Patton, 2010-08-01 The Bible includes prophetic speech and at times the church and its representatives are called to speak prophetically But in our media saturated age when many claim to speak for God how can we evaluate the avalanche of supposedly prophetic speech What does it mean to truly be prophetic And when Christians should speak prophetically how can they do so in a biblical and effective way Using vivid examples this book offers clear guidelines for creating critiquing and consuming popular media as well as practical suggestions for faithful communication It also helps readers think critically about communication technology The book includes a foreword by Quentin Schultze and a preface by Clifford Christians Christian Contours Douglas S. Huffman, 2012-01-12 What does it mean to think and live Christianly in a world of competing worldviews Christian Contours answers this question by inviting readers to consider the understanding of reality proposed by the Bible Though it is easy to divide life into separate compartments religious and secular theological and practical faith invites us to view all of life in the light of that Biblical understanding Presenting a clear compelling case for unity in essential Christian tenets the authors of Christian Contours guide the reader through developing internalizing and articulating a biblical worldview This robust worldview enables the Christian to be a critically thinking participant in culture and to be a faithful disciple of Christ with both heart and mind **Christian Popular Culture from The Chronicles of Narnia to Duck Dynasty** Eleanor Hersey Nickel, 2021-05-13 Christian popular culture has tremendous influence on many American churchgoers When we have a

choice between studying the Bible and reading novels downloading movies or watching television we become less familiar with Numbers than with Narnia This book examines popular Christian narratives with rigorous scholarly methods and assumes that they are just as complex fascinating and worthy of investigation as the latest secular Netflix series or dystopian novel While most scholars focus on the religious aspects of Christian texts this study takes a new approach by analyzing their social responsibility in portraying the complex dynamics of race class and gender in a profoundly unequal America Close readings of six case studies The Chronicles of Narnia Francine Rivers's Redeeming Love Jan Karon's Mitford novels Left Behind the films of the Sherwood Baptist Church and Duck Dynasty uncover both harmful stereotypes and Christians serving as leaders in social justice

How Now Shall We Live? Charles Colson, Nancy Pearcey, 2011-07-14 2000 Gold Medallion Award winner Christianity is more than a personal relationship with Jesus Christ It is also a worldview that not only answers life's basic questions Where did we come from and who are we What has gone wrong with the world What can we do to fix it but also shows us how we should live as a result of those answers How Now Shall We Live gives Christians the understanding the confidence and the tools to confront the world's bankrupt worldviews and to restore and redeem every aspect of contemporary culture family education ethics work law politics science art music This book will change every Christian who reads it It will change the church in the new millennium

can be implemented by following a three phase interdisciplinary process that allows production teams to submit their content intent style and format to reflect a Biblical pattern of storytelling and establish an alternative consciousness with the audience When implemented this process creates a powerful tool for transforming culture by combining communication theory and theology into a mold for communicating Spirit filled messages via moving image media The first in a trilogy of Jonahre films will be released November 2009 Trajectory of the 21st Century Lawrence J. Terlizese,2009-01-10

Trajectory of the Twenty first Century explores what many prophets of the twentieth century such as Oswald Spengler Paul Tillich Aldous Huxley Jacques Ellul and others have predicted would transpire in the current century Their vision included an out of control technological system and a return to religious sentiment that will ultimately undermine the system to which it is reacting This book aims to accurately present their positions and draw certain logical conclusions from them that pertain to the course of history in our time The book s theme argues that modernity is a secularized version of millennial Christianity which reaches its fullest development in the twenty first century and will regress into what Russian philosopher Nicholas Berdyaev called the new Middle Ages or a new religious period This will mean the twilight of modern technological society as its values of rationalism give way to a postrationalist society Ironically decline will come through further technological advance Omnicide threatens through religious world war driven by transcendent values and modern weaponry Jihadist thinking and posthumanist technology both establish the omnicidal mentality New technologies such as genetic engineering and artificial intelligence created under millennial inspiration to reach for immortality could potentially bring an end to the human species either through a slow steady obsolescence or through environmental catastrophe The titanic forces of technological progress and regress are on a direct collision course in the twenty first century **Religion as**

of this show's moral vision its methods of moral reasoning and its narrative function reveal the complexity of moral discourse on television and provides a good model for the moral critique of other television shows **Winning Your Kids Back from the Media** Quentin James Schultze, 1994 Media expert Quentin J Schultze offers the essential companion for making the media your family's servant rather than its master A Saltshaker R book 192 pages paper **Communication and Change in American Religious History** Leonard I.
