Rediscovering Christ In Asia:

Rediscovering Christ in Asia Kenneth Fernando, 2005 **Any Room for Christ in Asia?** Leonardo Boff, Virgilio P. Elizondo, 1993 **Buddhism and Christianity in Dialogue** Perry Schmidt-Leukel, 2005 This book is written for a general as well as a more specialist readership On the one hand it introduces basic topics of Buddhist Christian dialogue on the other hand it opens up new ground particularly insofar as the Buddhist and the Christian contributors all write comparatively

The Oxford Handbook of Anglican Studies Mark David Chapman, Sathianathan Clarke, Martyn Percy, 2016 The Anglican Communion is the third largest Christian denomination and claims a membership of some 80 million members in about 164 countries Given that there are only around two hundred countries in the world this makes the churches of the Anglican Communion the most geographically widespread denomination after Roman Catholicism The 44 essays in this volume embrace a wide range of academic disciplines theological historical demography and geography and different aspects of culture and ethics They are united in their discussion of what is effectively a new inter disciplinary subject which we have termed Anglican Studies At the core of this volume is the phenomenon of Anglicanism as this is expressed in different places and in a variety of ways across the world This Handbook covers a far broader set of topics from a wider range of perspectives than has been hitherto attempted in Anglican Studies At the same time it doesn't impose a particular theological or historical agenda The contributions are drawn from across the spectrum of theological views and opinions It shows that the unsettled nature of the polity is part of its own rich history and many will see this as a somewhat lustrous tradition In its comprehensive coverage this volume is a valuable contribution to Anglican Studies and helps formulate a discipline that might perhaps promote dialogue and discussion across the Anglican world **Christian Art in Asia** William A.

Dyrness, 1979 Two Rediscovered Works of Ancient Christian Literature: Gregory of Nyssa and Macarius Werner Jaeger, 2023-11-13 *Theologia Crucis in Asia* A.A. Yewangoe, 2024-08-19 *Rediscovering Japan, Reintroducing Christendom* Samuel Lee, 2010-03-01 In *Rediscovering Japan Reintroducing Christendom* Japan's unvoiced Christian history and cultural roots are examined from an alternative perspective It is commonly believed that Christianity was introduced to Japan by the Spanish and Portuguese missionaries during the 1500s however Samuel Lee draws on various forms of cultural religious and linguistic evidence to argue that Christianity was introduced to Japan through the Lost Tribes of Israel who were converted to Christianity through the missionary efforts of the Assyrian Church of the East around A.D. 500 Much of the evidence he discusses has become submerged into many Japanese folkloric songs festivals and is to be found in temples There are for example approximately 300 words in Japanese and Hebrew Aramaic that are similar Further Dr Lee outlines the history of Catholicism in Japan during the 1500s the systematic persecution of Christians from 1600s to the 1800s and the rise of Protestant Church in Japan The historical portion of the book ends with an analysis and discussion of 21st century Japanese society Lastly in *Rediscovering Japan Reintroducing Christendom* Samuel Lee questions the missiological methods

of Western Christianity and advocates an approach based in dialogue between Christianity and other cultures

Song, 2005-07-07 With Theology from the Womb of Asia Song continues to demonstrate that he is one of the most creative and important theologians of our time He forces us to expand the horizons of our theological vision not only by drawing on the resources of Asian thought and experience but also by insisting that we do theology with passion Here he offers images fables poems parables and visions woven together with his own compelling prose The biblical stories with which we thought we were familiar become new and more compelling stories when we revisit them with this able and wise guide And our whole approach to life and living is transformed by the freshness he breathes into all that he surveys with us Robert McAfee Brown Professor Emeritus of Theology and Ethics Pacific School of Religion In Theology from the Womb of Asia C S Song shows how the story of God's compassion in Jesus and the many heartrending stories and poems of the Asian people are reaching out towards each other Doing theology in this perspective is not a matter of application of doctrine but of recognition of a relation between the suffering God and suffering humanity which transcends many artificial and alienating distinctions The book is an appeal to Asian theologians but at the same time a necessary challenge to a Western academic theology and missionary thinking Bert Hoedemaker Professor of Missions and Christian Ethics University of Groningen the Netherlands A splendid example of doing theology with Asian resources A breath of fresh air to liven up traditional theology using original reflections and observations with the backing of close knowledge of traditional theology A book no theological college can do without Yeow Choo Lak The South East Asia Graduate School of Theology Singapore C S Song is Professor of Theology and Asian Cultures at Pacific School of Religion His recent publications include The Believing Heart

The Suffering and Victorious Christ Richard J. Mouw,Douglas A. Sweeney,2013-10-15 American theologians tend to focus on the great hope Christians have through Christ s resurrection emphasizing Christ s victory while minimizing or ignoring his suffering Through their engagements with Japanese Christians and African American Christians on the topic of Christology Richard Mouw and Douglas Sweeney have come to recognize and underscore that Christ offers hope not only through his resurrection but also through his incarnation The authors articulate a more compassionate and orthodox Christology that answers the experience of the global church offering a corrective to what passes for American Christology today The book includes an afterword by Willie James Jennings of Duke Divinity School

The Man Who Rediscovered God Martin Luther,2021-01-08 Martin Luther The Man Who Rediscovered God Complete Works by Martin Luther Theological Works Sermons Hymns The Ninety five Theses The Bondage of the Will A Treatise on Christian Liberty Prayers Hymns Letters and many more Martin Luther s theology is based on the Bible and not on dogmas Referring to Paul s Epistle to the Romans he claims that salvation is given through God s grace and not through deeds It was adopted by Lutheran Churches and also by the other Reformed Churches in principle Martin Luther was German theologian professor pastor and church reformer Luther began the Protestant Reformation with the publication of his Ninety Five Theses on October 31 1517 In this

publication he attacked the Church's sale of indulgences. He advocated a theology that rested on God's gracious activity in Jesus Christ rather than in human works. Nearly all Protestants trace their history back to Luther in one way or another. Luther's relationship to philosophy is complex and should not be judged only by his famous statement that reason is the devil's whore.

Theological Education in Asia Johan Ferreira, 2020-09-29. The book presents a theological basis for theological education based on the Great Commission Matt 28:18-20 within the context of Asia. The first part of the book asserts that theological education that is sound and biblical fulfills the purpose of the Great Commission by making disciples of all nations. The second part of the book considers the key text on discipleship in Matthew 16:24, emphasizing that suffering is an essential aspect of following Jesus. Discipleship and a theology of suffering must feature prominently in theological education. These crucial aspects of the Christian life are often missing in the teaching of pastors and churches today. Therefore, there is an urgent need in theological education to highlight and to remedy these deficiencies. The book also contains three appendices that are valuable for theological educators: a set of graduate attributes for theological students, a code of professional ethics for ministers, and a statement on spiritual abuse. The book provides invaluable reading for theological educators, church leaders, elders, pastors, and teachers.

The Oxford Handbook of Christian Monasticism Bernice M. Kaczynski, 2020-09-30. The Handbook takes as its subject the complex phenomenon of Christian monasticism. It addresses for the first time in one volume the multiple strands of Christian monastic practice. Forty-four essays consider historical and thematic aspects of the Catholic, Eastern Orthodox, Oriental Orthodox, Protestant, and Anglican traditions, as well as contemporary new monasticism. The essays in the book span a period of nearly two thousand years, from late ancient times through the medieval and early modern eras on to the present day. Taken together, they offer not a narrative survey but rather a map of the vast terrain. The intention of the Handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism. It presents the work of both academic and monastic authors, and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view. The authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues. They indicate developing trends in their areas of specialisation. The individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies. In today's world, where there is increasing interest in all world monasticisms, where scholars are adopting more capacious global approaches to their investigations, and where monks and nuns are casting a fresh eye on their ancient traditions, this publication is especially timely.

The Rule of Saint Benedict and the Ascetic Traditions from Asia to the West Mayeul de Dreuille, 2000. The Rule of St. Benedict, illuminated by the texts and traditions of Hindu and Buddhist monasticism as well as by the Desert Fathers and the spiritual giants of the western and oriental Christian traditions.
