American Capitalism and the Changing Role of Government Harry G. Shaffer, 1999-07-30 The conventional wisdom has it that a balanced budget is the height of economic rationality that social security should be privatized and that most adult welfare recipients could and should get jobs All our social and economic problems we are told are due to too much government if we only left the American free enterprise system alone the free market would heal all that ails our society and lead to lasting prosperity Challenging these widespread stereotypes and myths this book starts with the fundamental theory underlying capitalist ideology showing that even in theory an unfettered free market cannot deal effectively with the many needs of a modern economy Our society has many social goals to which the great majority subscribe goals such as sustained full employment universal health care and quality education for all The free market will not the author argues bring us

quality education for every American child affordable universal health care Social Security for the elderly assistance for the poor or protection of the environment Only an active participant government can affect positive change in such areas of social concern **Nominations of John E. Lawrence D. Bobo, Melvin L. Oliver, Jr. James H. Johnson, Abel, Jr. Valenzuela, 2000-11-02 This book cuts through the powerful mythology surrounding Los Angeles to reveal the causes of inequality in a city that has weathered rapid population change economic restructuring and fractious ethnic relations The sources of disadvantage and the means of getting ahead differ greatly among the city's myriad ethnic groups The demand for unskilled labor is stronger here than in other cities allowing Los Angeles's large population of immigrant workers with little education to find work in light manufacturing and low paid service jobs A less beneficial result of this trend is the increased marginalization of the city's low skilled black workers who do not enjoy the extended ethnic networks of many of the new immigrant groups and who must contend with persistent negative racial stereotypes Patterns of residential segregation are also more diffuse in Los Angeles with many once black neighborhoods now split evenly between blacks Hispanics Asians and other minorities Inequality in Los Angeles cannot be reduced to a simple black white divide Nonetheless in this thoroughly multicultural city race remains a crucial factor shaping economic fortunes A Volume in the Multi City Study of Urban Inequality Connecting the Dots Richard K.
