Doctoral Research in English Studies in India Ravindra Baburao Tasildar, 2025-07-05 Aspirant researchers are generally in search of a less researched topic on which to base their doctoral degree The constraints in identifying a suitable topic for doctoral study are generally ignored The lack of training in reference skills and the absence of reference sources results in piles of theses on the same or similar topics Hence this book which also includes a separate bibliography of PhD theses aims to help the aspirant researchers to find out a proper topic for their research degrees and review the related literature It will guide them to refer to the theses either available on Shodhganga a reservoir of Indian theses or in the academic libraries in Higher Education Institutions The book is also recommended for PhD coursework in Indian universities

Literary Research and British Postmodernism

Bridgit McCafferty, Arianne Hartsell-Gundy, 2015-09-02 *Literary Research and British Postmodernism* is a guide for scholars that aims to connect the complex relationships between print and multimedia technological advancements and the influence of critical theory that converge in postwar British literature. This era is unique in that strict boundaries between fiction, nonfiction, multimedia, and print are not useful. Postmodern literature is defined by the breaking down of boundaries as a reaction to modernism and requires an innovative, multifaceted approach to research. In this guide, the authors explore these complex relationships and offer strategies for researching this new period of literature. This book takes a holistic approach to postmodern literature that recognizes the way in which digital media, film, critical theory, popular music, and more traditional print sources are inextricably linked. Through this approach, the authors present a broad view of postmodernism that includes a wide variety of British authors writing in the last half of the twentieth century. The book's definition of postmodern includes any British literature following World War II that engages issues central to postmodern theory, including the social construction of gender, sexuality, and power; the subjectivity of truth; technology as a social force; intertextuality; metafiction; postcolonial narrative; and fantasy. This guide aims to aid researchers of postwar British literature by defining best practices for scholars conducting research in a period so broadly varied in the way it defines literature.
