It contains many insights and lessons from teachers who have found their own professional experiences genuinely rewarding and who remained in the profession for a lifetime. From the Foreword by Harvey J. Stedman, Vice Chancellor, New York University: How can you fill the large number of teacher positions you need over the next decade as well as keep the best teachers on your staff? Each time you sign a contract with an educator, you are choosing someone responsible for helping children learn well and stay safe. Therefore, recruitment and retention form the foundation for achieving your school community's learning and safety goals. You know what it feels like to ask yourself: How will this professional fulfill his or her role in five years? Ten Induction: Connecting Teacher Recruitment to Retention is designed to help school administrators, teachers, and board of education members choose from a wide variety of proven practices to attract and retain the best professional staff in this competitive market. This excellent new resource provides you with the best practices for attracting and keeping educators by using five building blocks to construct a three-year practical plan to recruit and retain staff: Preparing, recognizing your induction needs, developing your mission statement, establishing policy, and setting your induction goals. Staffing, recruiting, interviewing, and hiring. Orienting Year One: conducting professional development, mentoring, and collaborating, and supervising, observing, and evaluating. Connecting Years Two and Three: continuing professional development as well as supervising, observing, and evaluating, granting tenure, permanence, keeping, retaining, sustaining the connection, developing career-long learners, and renewing and reorienting. The complexities of HR today call for a guiding manual to help keep the multitude of processes fair, legal, and accurate. This book provides the level of detail for new and seasoned HR leaders to use to staff and operate their libraries with the best employees they can find. It offers legal advice from labor law attorneys and operational steps, policies, and processes from Dr. Steve Albrecht, a longtime HR consultant for municipal government. Even with the support of an HR Department, however large or small, all library leaders who have supervisory responsibility over their staff, hiring, firing, performance evaluation, assigning job duties, must have a working, updated knowledge of HR issues related to employing people in their branches. And don't forget that even student interns, unpaid volunteers, and part-time employees have similar employment rights as full-time paid employees. This means that besides the myriad of other duties required to run a safe, efficient, useful library for the community, library leaders from the Director to the department heads to the managers to the frontline supervisors to the PIC (Person in Charge) on each work shift, each must know what they can and cannot do when it comes to HR laws, policies, guidelines, and best practices. This includes legal issues related to screening, interviewing, and hiring applicants; successful onboarding and new employee orientation programs; coaching for improved work performance; or employee behavior; mentoring employees for both promotional opportunities and succession planning; the challenges of attendance; sick leave; ADA and FMLA issues; fair and legal performance evaluations; working with employees in a union or an association; HR practices related to testing, promoting, disciplining, or terminating library employees; and keeping all employees motivated and connected using wellness, stress management, and programs to prevent burnout or quiet quitting. Other books for library leaders may touch on HR issues as part of a broader look at supervising employees. This book will focus on it.
