Tom Hashimoto, Michael Rhimes

Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns:

Referendum Democracy M. Mendelsohn, A. Parkin, 2001-09-25 As the referendum becomes a more regular component of decision making it leaves few if any institutions processes and values of democracy untouched Political actors of all kinds including political parties and interest groups seek to use the referendum device to further their own objectives The end result is a different kind of democracy than existed before This book lays out the comparative research agenda on the impact of referendums on the practice of liberal democracy

Constitutional Change and Popular Sovereignty Maria Cahill, Colm Ó Cinnéide, Seán Ó Conaill, Conor O'Mahony, 2021-07-15 This collection focuses on the particular nexus of popular sovereignty and constitutional change and the implications of the recent surge in populism for systems where constitutional change is directly decided upon by the people via referendum It examines different conceptions of sovereignty as expressed in constitutional theory and case law including an in depth exploration of the manner in which the concept of popular sovereignty finds expression both in constitutional provisions on referendums and in court decisions concerning referendum processes While comparative references are made to a number of jurisdictions the primary focus of the collection is on the experience in Ireland which has had a lengthy experience of referendums on constitutional change and of legal political and cultural practices that have emerged in association with these referendums At a time when populist pressures on constitutional change are to the fore in many countries this detailed examination of where the Irish experience sits in a comparative context has an important contribution to make to debates in law and political science

Evaluating Democratic Innovations Brigitte Geissel, Kenneth Newton, 2012 In the face of increasing political disenchantment many Western governments have experimented with innovations which aim to enhance the working and quality of democracy as well as increasing citizens political awareness and understanding of political matters This text is the most comprehensive account of these various democratic innovations Written by an outstanding team of international experts it examines the theories behind these democratic innovations how they have worked in practice and evaluates their success or failure It explains experiments with new forms of democratic engagement such as Direct Democracy Deliberative Democracy Co Governance E Democracy Drawing on a wide variety of theoretical perspectives and with a broad range of case studies this is essential reading for all students of democratic theory and all those with an interest in how we might revitalise democracy and increase citizen involvement in the political process

Referendums as Representative Democracy Leah Trueblood, 2024-04-18 In referendums on fundamental constitutional issues do the people come together to make decisions instead of representatives This book argues no It offers an alternative theory of referendums whereby they are one of many ordinary ways that voters give direction to their representatives In this way the book argues that referendums are better understood as exercises in representative democracy The book challenges the current treatment of referendums in processes of constitutional change both in the UK and around the world It argues that referendums have been used under the banner of popular sovereignty in a

way that undermines representative institutions This book makes the case for the use of referendums stronger by showing how they can support rather than undermine institutions of representative democracy Understanding referendums as exercises in representative democracy has broader implications for constitutional democracy as well Rather than see the power to constitute constitutions as something that happens occasionally in exceptional moments through referendums this book argues instead that voters constantly have the power to constitute and reconstitute their constitutions

Political Communication Carsten Reinemann, 2014-07-28 Against the background of an enormous expansion and diversification of both political communication itself and scientific research into its structures processes and effects this volume gives an overview of some of the key theories and findings accumulated by political communication research over the last decades In order to do so the volume provides readers with review articles by renowned international authors on various aspects of I the normative regulatory and conceptual foundations of political communication II different situations of political communication e g elections referendums social movements media hypes crisis and war III the activities of and part played by political actors IV mass media and journalism V characteristics and typical features of media messages VI the role played by citizens as well as VII various kinds of effects on citizens Each section includes several chapters that address specific issues and research problems in the form of comprehensive overviews articles

The Limits and Legitimacy of Referendums Richard Albert, Richard Stacey, 2022 The possibility of democracy enhancing uses and anti democratic abuses of referendums reveals a paradox mechanisms of democracy can be exploited to do violence to the basic principles of democracy *The Limits and Legitimacy of Referendums* seeks to identify standards we might use to assess the democratic legitimacy of a referendum when we cannot rely on the norms of traditional liberal democracy This innovative book explores how referendums manage the tension between liberalism and democracy and whether this device holds promise for reconciling these two commitments A range of scholars from around the world expose how referendums may be abused on one hand to achieve short term political or even personal gains and how on the other they may aspire to reflect the best traditions of deliberative innovative democracy enhancing popular decision making Structured around three big questions this book seeks to identify what makes a referendum legitimate First why have referendums on issues of fundamental political importance become so frequent around the world Second who are or who should be the people that make decisions about a political community's future And third are referendums an effective and reliable mechanism of popular sovereignty or democratic choice These essays written for scholars public lawyers political actors and citizens bring together diverse perspectives on referendums constitutionalism liberalism and democracy in ways that challenge the conventional wisdom prompt new answers to enduring questions and urge reconsideration of how we evaluate the legitimacy of referendums

Handbook of Democratic Innovation and Governance Stephen Elstub, Oliver Escobar, 2019-12-27 Democratic innovations are proliferating in politics governance policy and public administration These new processes of public participation are reimagining the relationship between

citizens and institutions This Handbook advances understanding of democratic innovations in theory and practice by critically reviewing their importance throughout the world The overarching themes are a focus on citizens and their relationship to these innovations and the resulting effects on political equality The Handbook therefore offers a definitive overview of existing research on democratic innovations while also setting the agenda for future research and practice **Reviewing**

European Union Accession Tom Hashimoto, Michael Rhimes, 2017-09-25 The year 2017 has been an uneasy one for the EU with so called Brexit on the horizon and the rise of populist euroskepticism in a number of Member States This year with the tenth anniversary of the Romanian and Bulgarian accession to the Union is a good year to pause and reflect over the life and future of the Union In this work we envision the next decade with Europe 2020 strategy and review the fruits of the 2004 accession in Central and Eastern Europe What has the Union achieved Which policy areas are likely to change and how How successful and by what measure has the accession of the 10 Member States in 2004 been Reviewing European Union Accession addresses a wide range of issues deliberately without any thematic constraints in order to explore EU enlargement from a variety of perspectives both scientific and geographical internal and external In contrast to the major works in this field we highlight the interrelated and often unexpected nature of the integration process hence the subtitle unexpected results spillover effects and externalities *Participatory Democratic Innovations in Europe* Brigitte Geißel, Marko

Joas, 2013-11-20 Representative democracy is often seen as a stable institutional system insusceptible to change However the preferences of the broad public are changing and representative group based democracy has lost importance This development made it necessary to change established ways of decision making and to introduce participatory democratic innovations Many national and sub national governments followed this route and implemented various kinds of participatory innovations i e the inclusion of citizens into processes of political will formation and decisionmaking The authors analyse and evaluate the various effects of these innovations in Europe providing a bigger picture of the benefits and disadvantages different democratic innovations can result in **Democratic Innovations** Graham Smith, 2009-07-02 Can we design

institutions that increase and deepen citizen participation in the political decision making process At a time when there is growing disillusionment with the institutions of advanced industrial democracies there is also increasing interest in new ways of involving citizens in the political decisions that affect their lives This book draws together evidence from a variety of democratic innovations from around the world including participatory budgeting in Brazil Citizens Assemblies on Electoral Reform in Canada direct legislation in California and Switzerland and emerging experiments in e democracy The book offers a rare systematic analysis of this diverse range of democratic innovations drawing lessons for the future development of both democratic theory and practice **Activating the Citizen** J. DeBardeleben, J. Pammett, 2009-08-12 The decline of citizen involvement affects two key elements of democratic government elections and political parties Activating the Citizen examines the reasons underlying citizen withdrawal and explores and assesses innovative approaches on both sides of the

Atlantic to try to counter these phenomena *Democratic Innovations in Central and Eastern Europe* Sergiu Gherghina, Joakim Ekman, Olena Podolian, 2020-05-21 *Democratic Innovations in Central and Eastern Europe* expands research on democratic innovations by looking specifically at different forms of democratic innovations in Central and Eastern Europe. The book covers direct democracy referendums in particular deliberative democracy practices and e participation forms which are salient in practice because they match the political realities of our time. Expert contributors show how the recent actions of ordinary citizens in several Central and Eastern European countries have challenged the contemporary political order and grassroots movements and diverse forms of mobilization have challenged the notion of weak civil societies in the East. The empirical evidence presented attempts to deepen citizen involvement in political contexts sometimes quite different from the democratic political systems in the Western world. Using lessons from a still largely underexplored part of Europe, the book both complements and revises theoretical approaches or complements empirical results in existing studies on democratic innovations. *Democratic Innovations in Central and Eastern Europe* will be of great interest to scholars working on democracy, political systems, political engagement and Central and Eastern European politics. The chapters originally published as a special issue of *Contemporary Politics* **Sovereignty, Civic Participation, and Constitutional Law** Brecht Deseure, Raf Geenens, Stefan Sottiaux, 2021-04-13 This book brings recent insights about sovereignty and citizen participation in the Belgian Constitution to scholars in the fields of law, philosophy, history and politics. Throughout the Western world, there are increasing calls for greater citizen participation. Referendums, citizen councils and other forms of direct democracy are considered necessary antidotes to a growing hostility towards traditional party politics. This book focuses on the Belgian debate where the introduction of participatory politics has stalled because of an ambiguity in the Constitution. Scholars and judges generally claim that the Belgian Constitution gives ultimate power to the nation which can only speak through representation in parliament. In light of this, direct democracy would be an unconstitutional power grab by the current generation of citizens. This book critically investigates this received interpretation of the Constitution and by reaching back to the debates among Belgium's 1831 founding fathers, concludes that it is untenable. The spirit, if not the text of the Belgian Constitution, allows for more popular participation than present-day jurisprudence admits. This book is the first to make recent debates in this field accessible to international scholars. It provides a rare source of information on Belgium's 1831 Constitution which was in its time seen as modern constitutionalism's greatest triumph and which became a model for countless other constitutions. Yet the questions it asks reverberate far beyond Belgium. Combining new insights from law, philosophy, history and politics, this book is a showcase for continental constitutional theory. It will be a valuable resource for academics and researchers in constitutional law, political and legal philosophy and legal history. The Palgrave Handbook of European Referendums Julie Smith, 2021-03-02 This handbook provides an empirically rich analysis of referendums in Europe from the end of the Second World War to the present. It addresses a range of perennial theoretical

and legal questions that face policy makers when they offer citizens the chance to take or influence decisions by referendum not least whether to accept the will of the people Taking a multi disciplinary approach drawing on historical philosophical and political science perspectives the book includes a contextual section on the history of referendums the theoretical questions underpinning their use and on constitutional and legal questions about the use of referendums The empirical sections are divided into those referendums that focus on domestic issues such as constitutional matters or questions of social policy and those related to the European Union including membership referendums and treaty ratification

Social Movements and Referendums from Below Donatella Della Porta, Francis O'Connor, Martin Portos, Anna Subirats Ribas, 2017-09-27 Over recent years social movements formed in response to European neoliberal austerity measures have played an increasingly important role in referendums This is the first book to bridge the gap between social movement studies and research on direct democracy It draws on social movement theory to understand the nature of popular mobilisation in referendums Co authored by one of the world's leading authorities on social movements the book uses unique case studies such as the referendum on independence in Scotland the consultations on independence in Catalonia the Italian referendum on water the referendum on the Troika proposals in Greece and the referendum on the debt repayment in Iceland to illustrate the ways the social movements that formed as a consequence of the 2008 financial crash have affected the referendums dynamic and results It also addresses the way in which participation from below has had a transformative impact on the organisational strategies and framing practices used in the campaigns Looking at general issues of democracy as well as the political effects of neoliberalism this topical book is ideally suited to understand the reasons for the Brexit result and will be read by a wide audience interested in social movements referendums and democratic innovation

Handbook of Comparative Political Institutions Adrian Vatter, Rahel Freiburghaus, 2024-10-03 This comprehensive Handbook presents a broad range of theoretical methodological and empirical perspectives on the comparative study of political institutions Exploring cutting edge developments in the field it provides new insight into the significant diversity and impact of political institutions across space and time This title contains one or more Open Access chapters

Radical Republicanism Bruno Leipold, Karma Nabulsi, Stuart White, 2020-03-05 Republicanism is a powerful resource for emancipatory struggles against domination Its commitment to popular sovereignty subverts justifications of authority locating power in the hands of the citizenry who hold the capacity to create transform and maintain their political institutions Republicanism's conception of freedom rejects social political and economic structures subordinating citizens to any uncontrolled power from capitalism and wage labour to patriarchy and imperialism It views any such domination as inimical to republican freedom Moreover it combines a revolutionary commitment to overturning despotic and tyrannical regimes with the creation of political and economic institutions that realise the sovereignty of all citizens institutions that are resilient to threats of oligarchical control This volume is dedicated to retrieving and developing this radical potential challenging the

more conventional moderate conceptions of republicanism It brings together scholars at the forefront of tracing this radical heritage of the republican tradition and developing arguments texts and practices into a critical and emancipatory body of political and social thought The volume spans historical discussions of the English Levellers French and Ottoman revolutionaries and American abolitionists and trade unionists explorations of the radical republican aspects of the thought of Machiavelli Marx and Rousseau and theoretical examinations of social domination and popular constitutionalism It will appeal to political theorists historians of political thought and political activists interested in how republicanism provides a robust and successful radical transformation to existing social and political orders Routledge Handbook of Comparative Constitutional Change Xenophon Contiades, Alkmene Fotiadou, 2020-06-11 Comparative constitutional change has recently emerged as a distinct field in the study of constitutional law It is the study of the way constitutions change through formal and informal mechanisms including amendment replacement total and partial revision adaptation interpretation disuse and revolution The shift of focus from constitution making to constitutional change makes sense since amendment power is the means used to refurbish constitutions in established democracies enhance their adaptation capacity and boost their efficacy Adversely constitutional change is also the basic apparatus used to orchestrate constitutional backslide as the erosion of liberal democracies and democratic regression is increasingly affected through legal channels of constitutional change Routledge Handbook of Comparative Constitutional Change provides a comprehensive reference tool for all those working in the field and a thorough landscape of all theoretical and practical aspects of the topic Coherence from this aspect does not suggest a common view as the chapters address different topics but reinforces the establishment of comparative constitutional change as a distinct field The book brings together the most respected scholars working in the field and presents a genuine contribution to comparative constitutional studies comparative public law political science and constitutional history *Division of Power: Continuity and Change* Marcin Romanowski, Bogumił Szmulik, Jarosław Szymanek, The separation of powers doctrine is undoubtedly one of the key principles of contemporary constitutionalism Despite this it has not been framed into a single homogeneous and thus universal form The abundance of approaches and nuances found in legal and political doctrine makes it an extremely labile and meandering concept which can take on a variety of shapes Its legislative articulation is by no means uniform and thus reproducible either The separation of powers in constitutional law is therefore expressed in a broad array of formulas sometimes explicitly sometimes implicitly In addition it can take on a classic almost model form or it can be shaped in a significantly altered manner compared to what we used to call its model the dispersion of ideas about what the separation of powers is where it originates or how to best frame and apply it in legislation and practice does not deprive the separation of powers of the nature of a timeless general notion that underlies the very concept of the division of power After all the impulse to formulate the assumptions for the separation of powers was in each case triggered by the desire to eliminate the vesting of unlimited or excessive power in an individual or a

narrow oligarchised group Therefore its essence and also the main advantage is first of all protection against the despotism of power which translates into the specific benefit of consolidation of institutional guarantees of civil rights and liberties through the attribution of individual power functions to different branches of government and then their clear separation

MARCIN ROMANOWSKI Separation of Powers Meanders of Doctrine and Legislation

Sovereignty Referendums in

International and Constitutional Law İlker Gökhan Şen, 2015-01-28 This book focuses on sovereignty referendums which have been used throughout different historical periods of democratization decolonization devolution secession and state creation Referendums on questions of sovereignty and self determination have been a significant element of the international political and legal landscape since the French Revolution and have been a central element in the resolution of territorial issues from the referendum in Avignon in 1791 until today More recent examples include Quebec East Timor New Caledonia Puerto Rico and South Sudan The global aim of this book is to achieve a better empirical and legal understanding of sovereignty referendums and related problems in international and national law and politics Accordingly it presents readers a comprehensive study of sovereignty referendums from the perspectives of both international and constitutional law

Whispering the Secrets of Language: An Mental Quest through **Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns**

In a digitally-driven earth wherever screens reign great and quick conversation drowns out the subtleties of language, the profound secrets and emotional subtleties concealed within phrases often move unheard. Yet, located within the pages of **Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns** a interesting fictional prize pulsing with natural thoughts, lies an extraordinary quest waiting to be undertaken. Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns Introduction

In the digital age, access to information has become easier than ever before. The ability to download Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns has opened up a world of possibilities. Downloading Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download

Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns Books

What is a Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within

the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobat's export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Referendum Democracy Citizens Elites And Deliberation In Referendum Campaigns PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, iLovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
