Sources for Studying the Holocaust Paul R. Bartrop,2023-04-14 *Sources for Studying the Holocaust* provides a pathway for readers to engage with questions about what sources can be used to study the Holocaust For many historians the challenge has been how to rescue the story from oblivion when oft used sources for other periods of history introduce even more issues around authenticity and reliability What can be learned of what transpired in villages and towns numbering

several thousand people when all its Jewish inhabitants were totally obliterated through Nazi action Who can furnish eyewitness testimony if all the eyewitnesses were killed How does one examine written records preserving knowledge of facts or events where none were kept or survived the onslaught And what weight do we put upon such resources which did manage to endure the destruction wrought by the Holocaust Each chapter looks at one of a diverse range of source materials from which scholars have rescued the history including survivor testimony diaries letters newspaper accounts photographs trial documents artefacts digital resources memorials films literature and art Each chapter shows how different types of records can be utilised as accurate sources for the writing of Holocaust history Collectively they highlight the ways in which all material even the most fragmentary can be employed to recreate a reliable record of what happened during the Holocaust and show how all sources considered can be employed to find meaning and understanding by exploring a range of sources deeply This book is a unique analysis of the types of sources that can be used to access the history of Holocaust It will be of invaluable interest to readers students and researchers of the Holocaust **Poetical Works** George Crabbe,1908
