Davis,Robert E. Gallman,Karin Gleiter,2007-12-01 In Pursuit of Leviathan traces the American whaling industry from its rise in the 1840s to its precipitous fall at the end of the nineteenth century Using detailed and comprehensive data that describe more than four thousand whaling voyages from New Bedford Massachusetts the leading nineteenth century whaling port the authors explore the market for whale products crew quality and labor contracts and whale biology and distribution and assess the productivity of the American fleet They then examine new whaling techniques developed at the end of the nineteenth century such as modified clippers and harpoons and the introduction of darting guns Despite the common belief that the whaling industry declined due to a fall in whale stocks the authors argue that the industry s collapse was related to changes in technology and market conditions Providing a wealth of historical information In Pursuit of Leviathan is a classic industry study that will provide intriguing reading for anyone interested in the history of whaling A Second REFLECTION Stacey Gatrost,2018-06-03 A young woman is perplexed by recurring dreams but finds herself catapulted to the edge of a parallel universe of immortality when her husband and son are killed in a car accident after which she becomes aware of a ghostly presence As this presence reveals himself to her she learns he is someone who last reincarnated in 1776 and has come to help her reach within and find her inner strength and the will to go on The more he reveals himself to her she learns why he is so familiar to her and why she is so significant to him Through the intense and sometimes comical relationship that develops between them she finds healing wholeness and the ability to allow herself to be free to live and hope again It is intensely romantic and filled with a measure of suspense with a slight touch of comedy as you cross the bridge between two parallel realities **Miraculous Air** C. Heritage and Commodification of Non-human Animals: A Posthumanist Reflection Álvaro López López, Gino Jafet Quintero Venegas, Carol Kline, 2023-12-19 Heritage is a social construction rooted in modern and contemporary societies It is commonly a positive assessment of many elements of the physical and human environment e.g. ecosystems and landscapes monuments customs gender norms religious practices gastronomy and livelihoods Heritage and tourism are strongly related to each other in that heritage gives rise to tourist attractions and activities and tourism enhances the designation of heritage sites A post humanist perspective the moral valuation of equality between humans and other animals demands that both are sentient beings and self aware of their pain and pleasure Thus the involvement of animals as heritage elements by themselves or as an element of tourist consumption in heritage sites implies their commodification and lack of agency As such these practices are usually unethical since they threaten the animals primary interests not to suffer not to feel pain and to be able to live their freedom This book contains chapters that reveal both the unethical interactions between humans and animals within heritage tourism and those that show experiences in which efforts are made to minimize damage within the commercialization of animals involved as heritage themselves [The Doryman's Reflection](#) Paul Molyneaux, 2017-07-25

What happens when the oceans are emptied of all their fish What happens when three hundred years of human knowledge and expertise disappear before the onslaught of the technology driven world The Doryman's Reflection is simply the most accurate and eloquent account of what transpired in the New England fisheries over the past half century as told by the people who lived it including author Paul Molyneaux Fishermen survive as relics the last hunter gatherers among us Their boats crammed with ropes and nets carry the mystique of a nearly forgotten world ruled by the elements Now an accomplished writer Molyneaux as a young man journeyed to Maine with no experience and a dream of working on a boat This is the story of his apprenticeship with Bernard Raynes one of Maine's last independent commercial fishermen The Doryman's Reflection speaks to those who want to know what really happened and what will happen on our oceans Part coming of age memoir part biography it is a very personal account of what families in this dying but important industry face each day Molyneaux shares his own history as a young man seeking the fisherman's life in Maine and Alaska Originally

published in 2005 it has been thoroughly updated to cover the events of the past ten years Told through the life of the colorful and engaging Bernard Raynes The Doryman's Reflection is alive and real and powerful far from a dry pedantic treatise on the economics of commercial fishing Watching Whales & Dolphins in Southern Africa Noel Ashton, 2012-07-11 Southern Africa has some of the best whale and dolphin watching opportunities in the world with over half of the world's species being found in our waters Watching Whales Dolphins in Southern Africa is an essential guide to watching the region's 12 more common species In addition to species accounts and charts that aid identification this guide provides detailed information on cetaceans their evolution senses behaviour classification and anatomy Multiple clear images both photographic and illustrated help identify each species by showing how to read the partial signs that cetaceans usually offer such as a flipper tail or even just their blow The book also discusses the tragic toll that hunting has had on whale populations and the ongoing struggle to protect these majestic mammals This is an invaluable guide for anyone wishing to know more about whales and dolphins of the region **Nature Tourism** Joseph S. Chen, Nina K. Prebensen, 2017-01-20 In recent decades the fast rise of emerging economies like the BRICS nations has propelled the growth of tourism worldwide Meanwhile a plethora of nature destinations has been developed to meet the diverse needs of the new wave of demand from emerging economies and to entice existing tourists from advanced and rich economies Nature Tourism augments the current literature on the benefits and pitfalls in recent developments of nature tourism tracing the history in development highlighting the ecological impacts and showcasing the current practices in nature tourism along with discussions on specific tourist markets from holistic viewpoints embracing lessons learned from various destination nations and continents across the globe A host of topics with global significance will be explored such as the effect of climate change on nature tourism technological innovation in managing nature tourism visitor management in nature tourism and market positioning in a highly competitive environment These are reviewed in a wide range of countries from USA Canada South America Scandinavian countries the Swiss Alps Middle East countries Africa China and Australia New Zealand This book will offer significant insight into nature based tourism and its future development It will be of interest to upper level students researchers and academics in tourism environmental studies development and sustainability *San Francisco Review of Books*, 1995 Managing Natural and Cultural Heritage for a Durable Tourism Anna Trono, Valentina Castronuovo, Petros Kosmas, 2024-04-28 This contributed volume offers a wealth of cases that explore the factors and conditions required for heritage tourism to be economically and socially beneficial to local communities without impairing the natural environment cultural heritage preservation or sustainability for future generations The studies presented here comprise an examination of measures which have been and can be implemented to ensure sustainable use of natural and cultural systems leading to a new concept of tourism that incorporates science and community practices together to create a favorable environment where tourists and locals can experience meaningful interactions and experiences The book focuses on the role of stakeholders in

the development of a new policy regarding the sustainable management of cultural tourism and the possibility of their involvement in the processes governing policy making Emphasis is placed on the role and commitment of local and international authorities including UNESCO in preserving the world s endangered cultural and natural heritage as well as the responsibilities of Member States and public and private actors with respect to future conservation challenges **AB**
