Reform Through Community:

Building Commitment to Reform through Strategic Communication Cecilia Caba ero-Verzosa, Helen R. Garcia, 2009-10-06 Strategic communication is a powerful tool for creating broad based support for reform and change initiatives Much has been written about why communication matters in reform efforts but there is scant material available to help those who manage reforms apply communication concepts and approaches to their own programs and policy reform initiatives Building Commitment to Reform through Strategic Communication attempts to bridge that gap The authors present a pragmatic and systematic approach for reformers ready to use communication strategically to achieve their reform goals The Five Communication Management Decision Tool helps reformers and their teams develop a framework for their communication strategies This decision tool helps managers see change initiatives through the eyes of those who will be affected by the reforms When the decision tool is used in the early stages of the development of change programs reformers gain an even deeper understanding of the stakeholders perspectives on the reforms which influence stakeholder opposition or support for them Such understanding will not only be instructive but possibly transformative for both change agents and those stakeholders whose support is critical to the success of reform Reform agents may recognize the source of stakeholder resistance and be able to revise reform goals and redesign change interventions Stakeholders who have a shared understanding of why the status quo is not acceptable and change is necessary are more likely to create coalitions of committed allies and supporters who will work together to achieve reform goals This workbook illustrates how the decision tool can be used for various types of change and reform initiatives from policy reform to country and donor partnership agreements to sectoral reforms Tested and used in learning interventions across cultures regions and sectors the tool has been used successfully by teams in government nongovernmental organizations the business sector and donor agencies The book will be of great interest to readers working in all of these areas *China's Development and the Construction of the Community with a Shared Future for Mankind* Linggui Wang, 2023-05-05 This book focuses on China's experience in development over the past 70 years and its significance as well as building a community with a shared future for mankind The book consists of a collection of papers contributed by researchers from many countries covering the topics of world order a community with a shared future for mankind the Belt and Road initiative exchange and mutual learning between civilizations China Model China and the World multi bilateral relationship sustainable development *Learning through Community* Kathryn Church, Nina Bascia, Eric Shragge, 2008-02-01 The Turbulence of Learning to Publish As researchers we learned about working together and collaborating across multiple dimensions of space time and our own identities We learned and we are still learning We are learning as we write and revise this book We learn as we begin to see this book through the eyes of others who have not lived through the process of discovery with us in the field We learn as we go back to work to try to figure out how our learnings can make a difference Jackson 2004 p 289 It took 10 years to create this book Of

course none of us intended to take so long Like a lot of things that appear to be individual pathology our tardiness was socially produced The first defining relation was the collegial way in which Nina Bascia Eric Shragge and I selected contributors for this volume As co editors we sought contributions from academics who had produced case studies for the Toronto based 1 research network called NALL Network for New Approaches to Lifelong Learning **Community-based Water Law and Water Resource Management Reform in Developing Countries** Barbara C. P. Koppen, Mark Giordano, John Butterworth, 2007 The lack of sufficient access to clean water is a common problem faced by communities efforts to alleviate poverty and gender inequality and improve economic growth in developing countries While reforms have been implemented to manage water resources these have taken little notice of how people use and manage their water and have had limited effect at the ground level On the other hand regulations developed within communities are livelihood oriented and provide incentives for collective action but they can also be hierarchical enforcing power and gender inequalities This book shows how bringing together the strengths of community based laws rooted in user participation and the formalized legal systems of the public sector water management regimes will be more able to reach their goals

House of Commons - Communities and Local Government Committee: Community Budgets - HC 163 Great Britain: Parliament: House of Commons: Communities and Local Government Committee, 2013-10-23 Community Budgets are demonstrating their potential to deliver cheaper more integrated and more effective public services They are at risk however of being replaced after a few years if key issues are not resolved If this opportunity is missed the Committee warns that local services could come under unsustainable pressure in the face of increased demand and reduced budgets This in turn may result in more spending later on judicial and emergency health and welfare interventions The Government should send a clear message that it will assist every local authority wishing to introduce Community Budgets and to set out the specific assistance it will provide them with Furthermore the programme of pilots must not be allowed to slow progress towards wider implementation If they are to succeed public service providers and local authorities must realise investment in Community Budgets will bring them benefits Local authorities their partners and central government should therefore develop a framework for agreements on how the benefits of investment are to be shared On the Troubled Families Programme the Committee is supportive of the work being done but highlights the need for greater focus on how work with these families will continue after the programme ends in 2016 Noting that the resources available have not increased in proportion to the number of families added to the programme in June DCLG needs to monitor carefully progress and provide more resources to local authorities if necessary
