Reformation In National Context:

The Reformation in National Context Robert Scribner, Roy Porter, Mikulas Teich, 1994-06-09 The collection of essays by prominent historians of the Reformation explores the experience of religious reform in national context discussing similarities and differences between the reform movements in a dozen different countries of sixteenth century Europe Each author provides an interpretative essay emphasising local peculiarities and national variants on the broader theme of the Reformation as a European phenomenon The individual essays thus emphasise the local preconditions and limitations which encountered the Reformation as it spread from Germany into most of the countries of western and central Europe Together they present a picture of the many sided nature of the Reformation as it grew up in each national context The book includes examples of countries where the Reformation was strikingly successful as well as those where it failed to make an impact A final comparative essay seeks to understand the different Reformations as variations on an overall theme This volume forms part of a sequence of collections of essays which began with *The Enlightenment in national context* 1981 and has continued with *Revolution in history* 1986 *Romanticism in national context* 1988 *Fin de siecle and its legacy* 1990 *The Renaissance in national context* 1991 *The Scientific Revolution in national context* 1992 and *The national question in Europe in historical context* 1993 The purpose of these and other envisaged collections is to bring together comparative national and interdisciplinary approaches to the history of great movements in the development of human thought and action

The Oxford Handbook of the Protestant Reformations Ulinka Rublack, 2016-12-06 This is the first Handbook of the

Reformation to include global Protestantism and the most comprehensive Handbook on the development of Protestant practices which has been published so far. The volume brings together international scholars in the fields of theology, intellectual thought and social and cultural history. Contributions focus on key themes such as Martin Luther or the Swiss Reformation, offering an up-to-date perspective on current scholarly debates but they also address many new themes at the cutting edge of scholarship with particular emphasis on the history of emotions, the history of knowledge and global history. This new approach opens up fresh perspectives onto important questions: how did Protestant ways of conceiving the divine shape everyday life? Ideas of the feminine or masculine, commercial practices, politics, notions of temporality or violence. The aim of this Handbook is to bring to life the vitality of Reformation ideas. In these ways, the Handbook stresses that the Protestant Reformation, in all its variety and with its important radical wings, must be understood as one of the lasting long-term historical transformations which changed Europe and subsequently significant parts of the world.

Early Modern Prophecies in Transnational, National and Regional Contexts (3 vols.) Lionel Laborie, Ariel Hessayon, 2020-12-07. In this 3-volume set of primary sources, Lionel Laborie and Ariel Hessayon bring together a wide range of vital sources for the study of prophecy in the early modern world. This meticulously edited collection includes rare material and fascinating manuscripts published in English for the first time. Volumes are organized geographically, each with its own introduction by a specialist. Together with their respective contributors, they show how prophecies circulated widely throughout this period at all levels of society. Indeed, they often emerged in times of crisis and were delivered as warnings as well as signals of hope. Moreover, they were constantly adapted and translated to suit ever-changing contexts, including those for which they had not been originally intended. Contributors include Viktoria Franke, Monika Frohnäpfel, William Gibson, Mayte Green, Marios Hatzopoulos, Jacqueline Hermann, Ariel Hessayon, Warren Johnston, Lionel Laborie, Adelisa Malena, Andreas Peär, Martin Pjecha, Michael Riordan, Luis Filipe, Silvio Lima, Damien Tricoire, Leslie Tuttle, and Kristine Wirts.

The European Reformation Carter Lindberg, 2021-03-15. Rediscover the Reformation in Europe with this insightful and comprehensive new edition of a long-time favorite. Amongst the authoritative works covering the European Reformation, Carter Lindberg's *The European Reformation* has stood the test of time. Widely used in classrooms around the world for over twenty-five years, the first two editions of the book were enjoyed and acclaimed by students and teachers alike. Now the revised and updated Third Edition of *The European Reformation* continues the author's work to sketch the various efforts to reform received expressions of faith and their social and political effects, both historical and modern. He has expanded his coverage of women in the Reformation and added a chapter on reforms in East Central Europe. Comprehensively covering all of Europe, *The European Reformation* provides an in-depth exploration of the Reformation's effects on a wide variety of countries. The author discusses the late Middle Ages and the historical context in which the Reformation gained a foothold. Martin Luther, the theological and pastoral responses to insecurity, and the theological implications of those responses. The implementation of

reforms in Wittenberg Germany Zwingli's reform program the Reformation in Zurich Switzerland and the impact of medieval sacramental theology The Genevan Reformation and The Most Perfect School of Christ Perfect for undergraduate and graduate students in courses on Reformation studies history religion and theology this edition of The European Reformations also belongs on the bookshelves of theological seminary students and anyone with a keen interest in the Reformation and its ongoing impact on faith and society

Women and Early Modern Cultures of Translation Hilary Brown, 2022 Women and Early Modern Cultures of Translation Beyond the Female Tradition is a major new intervention in research on early modern translation and will be an essential point of reference for anyone interested in the history of women translators Research on women translators has often focused on early modern England the example of early modern England has been taken as the norm for the rest of the continent and has shaped research on gender and translation more generally This book brings a new European perspective to the field by introducing the case of Germany It draws attention to forty women who can be identified as translators in sixteenth and seventeenth century Germany and shows how their work does not fit easily into traditional narratives about marginalization and subversiveness The study uses the example of Germany to argue against reading the work of translating women primarily through the lens of gender and to challenge claims about the existence of a female translation tradition which transcends the boundaries of time and place Broadening our perspective to include Germany provides a more nuanced and informed account of the position of women within European translation cultures and forces us to rethink gender as a category of analysis in translation history The book makes the case for a new woman interrogated approach to translation history to borrow a concept from Carol Maier and as such it will provide a blueprint for future work in the area Provided by publisher

Society and Culture in the Huguenot World, 1559-1685 Raymond A. Mentzer, Andrew Spicer, 2002-01-10 The Huguenots formed a privileged minority within early modern France During the second half of the sixteenth century they fought for freedom of worship in the French wars of religion which culminated in the Edict of Nantes in 1598 The community was protected by the terms of the Edict for eighty seven years until Louis XIV revoked it in 1685 The Huguenots therefore constitute a minority group tolerated by one of the strongest nations in early modern Europe a country more often associated with the absolute power of the crown in particular that of Louis XIV This collection of essays explores the character and identity of the Huguenot movement by examining their culture and institutions their patterns of belief and worship and their interaction with French state and society The volume draws upon research by leading historians and specialists from across Europe and North America

Lutheran Churches in Early Modern Europe Andrew Spicer, 2012 Until recently the impact of the Lutheran Reformation has been largely regarded in political and socio economic terms yet for most people it was not the abstract theological debates that had the greatest impact upon their lives but the physical alterations made to their local parish church This collection of essays provides a coherent and interdisciplinary investigation of the impact that the Lutheran Reformation had on the appearance architecture

and arrangement of early modern churches By focusing on ecclesiastical material culture the collection helps to place the art and architecture of Lutheran places of worship into the historical political and theological context of early modern Europe

A Cloister on Trial Gabriella Erdélyi, 2016-03-09 In 1517 the usually tranquil friary in the Hungarian town of Krmend found itself at the centre of controversy when its Augustinian friars charged with drunkenness sexual abuses and liturgical negligence were driven out and replaced with observant Franciscans The agent of change in this conflict cardinal Thomas Bakcz claimed to be acting in the name of cloister reform motivated by a religious agenda while the Augustinians portrayed themselves as the victims of a political game Based on the surviving interrogations of a papal enquiry into these events this book illuminates the tensions and potential conflict that lurked within the religious culture of a seemingly unremarkable and remote town The story of the friary trial of Krmend provides a fascinating window into religion and society of Europe at the dawn of the Reformation investigating the processes by which ordinary people emerge as historical agents from the written records By focussing on their experiences as represented in the trial documents the book reveals the spaces and borders of individual and communal action within the dynamic of lay clerical relations negotiated in a friary reform at the beginning of the 16th century Furthermore the moral nature of the accusations levelled at the Augustinians and whether these were justified or instigated for political reasons offers further insights into the nature of late medieval Catholicism and the claims of Protestant reformers

Restoring Christ's Church Dr Michael S Springer, 2013-06-28 This book examines the struggle for Protestant consensus and unity through the work of John a Lasco 1499 1560 It is only in recent years that scholars have begun to recognize the importance of Lasco as one of the leading figures of the European Reformation and a pivotal figure between Lutheran and Reformed theologians The Polish reformer was among the most dynamic church organizers of the sixteenth century dedicated to healing the divisions among evangelicals and searching for the key to Protestant unity in the example of the Apostolic Church It was to this end that he published the *Forma ac ratio* in 1555 a work that recorded the rites and practices of the London Strangers Church of which he had been the first superintendent and to provide a model for uniting the disparate Protestant communities on the Continent Although some recent works have focused on aspects of Lasco's early career in Germany and England this is the first book to provide a comprehensive analysis of the *Forma ac ratio* and the reformer's reasons for writing it This study also puts Lasco's distinct model for Protestant churches into the wider European context and assesses his impact on the struggle for unity through an examination of his correspondence the reaction to his writings and his influence on Protestant congregations across Europe

Calvinism on the Frontier, 1600-1660 Graeme Murdock, 2000-08-03 This is the first book to examine one of Europe's largest Protestant communities in Hungary and Transylvania It highlights the place of the Hungarian Reformed church in the international Calvinist world and reveals the impact of Calvinism on Hungarian politics and society Calvinism attracted strong support in Hungary and Transylvania where one of the largest Reformed churches was established by the early seventeenth century Understanding of

this Hungarian Reformed church remains the most significant missing element in the analysis of European Calvinism The Hungarian Reformed church survived on narrow ground between the Habsburgs and Turks thanks to support from Transylvanias princes and local nobles They worked with Reformed clergy to maintain contact with western co religionists to combat confessional rivals to improve standards of education and to impose moral discipline However there were also tensions within the church over further reforms of public worship and church government and over the impact of puritanism This book examines the development of the Hungarian church within the international Calvinist community and the impact of Calvinism on Hungarian politics and society **Encyclopedia of Historians and Historical Writing** Kelly

Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like J rgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Cross in Tensions Philip Ruge-Jones,2008-08-08 Luther s theology of the cross is a direct critique of oppressive power relationships in his day Luther s early thought challenges specific economic political social ideological and religious power dynamics the cross confronts those who enjoy power prestige pomp and profits at the expense of the poor Ruge Jones maps the power relationships that Luther s theology addressed and then turns to specific works that challenge established structures of his world Luther s Latin texts undermine the ideological assumptions and presumptions that bolstered an opulent church and empire Luther uses the cross of Christ to challenge what he called volatile cogitatum knowledge that is prone to violence His German writings directed to a broader more popular audience focus this critique of human pretensions into an attack on systems of wealth status and power that refuse to look with compassion upon poor Mary or upon the many domestic servants of Germany God has respected the ones whom the world disrespects and has thus entered the world to turn it upside down Also in the German writings the Lord s Supper calls the powerful to enter into solidarity with the poor suffering people to whom Christ has given himself Finally in his popular pamphlets visual images show with graphic specificity that throughout his life Christ sought out solidarity with the least These images contrast brutally with images of a church that has sold its soul to wealth political influence military power and status **Popular Religion in**

Sixteenth-Century England Christopher Marsh,1998-07-31 This book is a lively and accessible study of English religious life during the century of the Reformation It draws together a wide range of recent research and makes extensive use of colourful contemporary evidence The author explores the involvement of ordinary people within alongside and beyond the
