

Safe Sex In The Age Of Aids For Men And Women

Catherine Waldby

Safe Sex In The Age Of Aids For Men And Women:

Birth in the Age of AIDS Cecilia Van Hollen, 2013-04-03 Birth in the Age of AIDS is a vivid and poignant portrayal of the experiences of HIV positive women in India during pregnancy birth and motherhood at the beginning of the 21st century The government of India together with global health organizations established an important public health initiative to prevent HIV transmission from mother to child While this program which targets poor women attending public maternity hospitals has improved health outcomes for infants it has resulted in sometimes devastatingly negative consequences for poor young mothers because these women are being tested for HIV in far greater numbers than their male spouses and are often blamed for bringing this highly stigmatized disease into the family Based on research conducted by the author in India this book chronicles the experiences of women from the point of their decisions about whether to accept HIV testing through their decisions about whether or not to continue with the birth if they test HIV positive their birthing experiences in hospitals decisions and practices surrounding breast feeding vs bottle feeding and their hopes and fears for the future of their children

The Gender Politics of HIV/AIDS in Women Nancy Goldstein, Jennifer L Manlowe, 1997-06 From their posts at the center of the pandemic in the laboratory the academy clinics and community based organizations experts such as Evelyn Hammonds Risa Denenberg Michelle Murrain and Paul Farmer criticize blind spots in the recognition and treatment of HIV in women and articulate accessible and practical solutions to specific areas of difficulty

Love, Money, and HIV Sanyu A. Mojola, 2014-05-10 How do modern women in developing countries experience sexuality and love Drawing on a rich array of interview ethnographic and survey data from her native country of Kenya Sanyu A Mojola examines how young African women who suffer disproportionate rates of HIV infection compared to young African men navigate their relationships schooling employment and finances in the context of economic inequality and a devastating HIV epidemic Writing from a unique outsider insider perspective Mojola argues that the entanglement of love money and the transformation of girls into consuming women lies at the heart of women's coming of age and health crises At once engaging and compassionate this text is an incisive analysis of gender sexuality and health in Africa

AIDS and the Body Politic Catherine Waldby, 2003-09-02 First published in 2004 Routledge is an imprint of Taylor Francis an informa company

The Link between Masculinity, Alcohol and HIV/Aids in Malawi Norwegian Church Aid, 2016-04-30 It is common knowledge that HIV is widespread in Malawi as it is in many other countries of Southern Africa It is also a well known fact that women suffer most and frequently are blamed the most Many attempts are being made to address the pandemic and reduce the suffering and often women are the focus This book differs in that it looks at the other side men It contends that men have to play a major role in the fight not only by changing behaviour but also by understanding concepts of masculinity and that women may also profit from that

The Other Half of Gender Ian Bannon, Maria Correia, 2006-01-01 This book is an attempt to bring the gender and development debate full circle from a much needed focus on empowering women to a more comprehensive gender

framework that considers gender as a system that affects both women and men The chapters in this book explore definitions of masculinity and male identities in a variety of social contexts drawing from experiences in Latin America the Caribbean and sub Saharan Africa It draws on a slowly emerging realization that attaining the vision of gender equality will be difficult if not impossible without changing the ways in which masculinities are defined and acted upon Although changing male gender norms will be a difficult and slow process we must begin by understanding how versions of masculinities are defined and acted upon

AIDS in the World II Global AIDS Policy Coalition,1996 AIDS in the World Vol 1 published in 1992 was the first full analysis of mankind s global confrontation with this disease The AIDS scene however has been changing so rapidly that the need for a second volume was felt much earlier than expected In AIDS in the World II the authors extend the international comparisons from 38 countries to the entire world and show that the AIDS pandemic has become increasingly fragmented within the world population They present data that takes the discussion beyond the current understanding of the vulnerability of nations and communities to the worldwide spread of HIV engaging in a detailed exploration of the social strategies that have enabled individuals to avoid infection Mann and Tarantola chart a course into the future based on an incisive investigation of the global pandemic and response the crucial lessons learned from the first decade and their expert understanding of the scientific and social dimensions of the HIV challenge The authors explain how the variety of reactions to the pandemic has contributed to a more advanced awareness of our vulnerability to HIV AIDS and offer a blueprint for an expanded global prevention effort Intended to serve the information needs of all professionals involved in AIDS research and care this volume s accessibility and clarity of writing make it highly suitable for the general reader as well

Social and Psychological Aspects of HIV/AIDS and their Ramifications Gobopamang Letamo,2011-10-26 This book has assembled an array of chapters on the social and psychosocial aspects of HIV AIDS and their impact on HIV AIDS and related behaviours The book addresses key areas of HIV and AIDS including but not in any way limited to care seeking behaviour adherence access psychosocial needs and support services discrimination and the impact the epidemic has on various sectors of the economy The book has seventeen chapters seven chapters deal with social aspects of HIV AIDS four with psychosocial aspects of HIV AIDS and the remaining six chapters with the impact of social and psychosocial factors on HIV AIDS and related behaviours The book is an essential reading for academics students and other people interested in the field of HIV and AIDS

The Politics of AIDS Håkan Thörn,2008-04-01 HIV AIDS is the major political challenge of our time Based on empirical observations from all over the world this book examines how HIV AIDS has become increasingly transnational as nation states have extended their programmes across borders and transnational networks have increased their activities
