

SAFE FOR DEMOCRACY

THE ANGLO-
AMERICAN
RESPONSE TO
REVOLUTION,
1913-1923

LLOYD C. GARDNER

Safe For Democracy Anglo Amern Respons

Alan Dawley

Safe For Democracy Anglo Amern Respons:

A World Safe for Democracy G. John Ikenberry, 2020-09-22 A sweeping account of the rise and evolution of liberal internationalism in the modern era For two hundred years the grand project of liberal internationalism has been to build a world order that is open loosely rules based and oriented toward progressive ideas Today this project is in crisis threatened from the outside by illiberal challengers and from the inside by nationalist populist movements This timely book offers the first full account of liberal internationalism s long journey from its nineteenth century roots to today s fractured political moment Creating an international space for liberal democracy preserving rights and protections within and between countries and balancing conflicting values such as liberty and equality openness and social solidarity and sovereignty and interdependence these are the guiding aims that have propelled liberal internationalism through the upheavals of the past two centuries G John Ikenberry argues that in a twenty first century marked by rising economic and security interdependence liberal internationalism reformed and reimagined remains the most viable project to protect liberal democracy

Trial by Friendship David R. Woodward, 2014-10-17 During the crucial period of 1917 1918 the United States superseded Great Britain as the premier power in the world The differing strategic perspectives of London and Washington were central to the tensions and misunderstandings that separated the two dominant powers in 1918 and determined how these two countries would interact following the Armistice David R Woodward traces the projection of American military power to western Europe and analyzes in depth the strategic goals of the American political and military leadership in this first comprehensive study of Anglo American relations in the land war in Europe Based on extensive research in British and American archives the study focuses on Woodrow Wilson and David Lloyd George whose relationship was poisoned by the mutual suspicion and hostility generated by their disagreements over strategy and military policy President Wilson sought to use his country s military effort in western Europe as a tool to gain acceptance for his new diplomacy The British anxious over the Turko German threat to Asia and their worsening manpower situation sought to utilize American military intervention for their own political military purposes Woodward s use of unpublished sources provides new perspectives on war leadership and his analysis of the British American interaction serves as a case study of the inevitable tension between national self interest and efforts at collective security even among nations that share many cultural and political values For historians and anyone interested in military history and World War I **Trial by Friendship** fills a gap in the study of Anglo American relations by providing a strong well written study on an area of American history that has received scant attention from scholars

The Oxford Encyclopedia of American Military and Diplomatic History Timothy J. Lynch, 2013 Entries written by renowned diplomatic and military historians as well as key scholars in international relations Provides assessments and analyses of key episodes issues and actors in the military and diplomatic history of the United States Based on the award winning Oxford Companion to United States History Comprehensive collection of entries that span the founding

of the U S to its present state Offers a wide range of perspectives to provide an encompassing context of the United States military and diplomatic legacies Expansive bibliographies and suggested readings for each article to aid in research The Oxford Encyclopedia of American Military and Diplomatic History a two volume set will offer both assessment and analysis of the key episodes issues and actors in the military and diplomatic history of the United States At a time of war in which ongoing efforts to recalibrate American diplomacy are as imperative as they are perilous the Oxford Encyclopedia will present itself as the first recourse for scholars wishing to deepen their understanding of the crucial features of the historical and contemporary foreign policy landscape and its perennially martial components Entries will be written by the top diplomatic and military historians and key scholars of international relations from within the American academy supplemented as is appropriate for an encyclopedia of diplomacy with entries from foreign based academics in the United Kingdom and elsewhere The crucial importance of the subject is reflected in the popularity of university courses dedicated to diplomatic and military history and the enduring appeal of international relations IR as a political science discipline drawing on both The Oxford Encyclopedia will be a basic reference tool across both disciplines a potentially very significant market Readership University level undergraduate and graduate students in History **Revolutions** David Brion Davis,1990 Analyzes American attitudes and reactions to revolutions The Juggler Warren F. Kimball,1994-08-08 Here Warren Kimball explores Roosevelt s vision of the postwar world by laying out the nature and development of FDR s war aims his long range political goals As the face of eastern Europe and the world changes before our eyes Roosevelt s goals dismissed during the Cold War as impractical seem less unrealistic today **Changing the World** Alan Dawley,2013-11-28 In May of 1919 women from around the world gathered in Zurich Switzerland and proclaimed We dedicate ourselves to peace Just months after the end of World War I the Womens International League for Peace and Freedom a group led by American progressive Jane Addams and comprising veteran campaigners for social reform knew that a peaceful world was essential to their ongoing quest for social and economic justice Alan Dawley tells the story of American progressives during the decade spanning World War I and its aftermath He shows how they laid the foundation for progressive internationalism in their efforts to improve the world both at home and abroad Unlike other accounts of the progressive movement and of American politics in general this book fuses social and international history Dawley shows how interventions in Latin America and Europe affected domestic plans for social reform and civic engagement and he depicts internal battles among progressives between unabashed imperialists like Theodore Roosevelt and their implacable opponents like Robert La Follette He draws a contrast between Woodrow Wilson s use of force in exporting American ideals and Addams s more cosmopolitan pursuit of economic justice and world peace In discussing the debate over the League of Nations within the context of turbulent domestic affairs Dawley brings keen insight into that complicated moment in American history In striking and original ways Dawley brings together domestic and world affairs to argue that American progressivism cannot be understood apart from its

international context Focusing on world historical events of empire revolution war and peace he shows how American reformers invented a new politics built around progressive internationalism Changing the World retrieves the progressive tradition in American politics and makes it available to contemporary debates The book speaks to anyone seeking to be both a good citizen within the nation and a good citizen of today s troubled world **Crucible of Power** Howard

Jones,2008-03-20 This book is a narrative history of America s foreign affairs from 1897 to the present that focuses on the major personalities and events from the William McKinley administration through President George W Bush **From**

Colony to Superpower George C. Herring,2008-10-28 The newest volume in the prestigious Oxford History of the United States From Colony to Superpower provides a sweeping account of United States foreign relations and diplomacy in a magisterial account of America s interaction with other peoples and nations of the world Herring tells a story of stunning successes and sometimes tragic failures captured in a fast paced narrative that illuminates the central importance of foreign relations to the existence and survival of the nation and highlights its ongoing impact on the lives of ordinary citizens And Herring does all this in a story rich in human drama and filled with epic events Trump and the Remaking of American

Grand Strategy Bastiaan van Apeldoorn,Jaša Veselinović,Naná de Graaff,2023-07-27 This book offers a comprehensive explanatory account of Trump s foreign policy by assessing its nature determining the extent to which it broke with the policy of preceding presidencies and explaining how this shift came about We argue that Trump has succeeded in remaking America s grand strategy by unmaking its long standing strategy of what we call Open Door Globalism a strategy of economic expansionism through the promotion of open markets across the globe and its institutionalization into a US led liberal world order Trump has broken with Open Door Globalism in probably lasting ways by adopting an outlook and strategy of neo mercantilist economic nationalism based upon an America First redefinition of US sovereignty and national interests We explain this Trumpian shift in US foreign policy by focusing on the social sources of Trump s foreign policy making elite s agency analysing it both in terms of foreign policy makers embeddedness in elite networks and within the changing global and domestic context The latter coupled with a crisis of established elite power also indicates why Biden has not returned to Open Door Globalism but doubled down on some aspects of the Trumpian economic nationalist break *The Moralist*

Patricia O'Toole,2019-04-16 Acclaimed author Patricia O Toole s superb The New York Times account of Woodrow Wilson one of the most high minded consequential and controversial US presidents A gripping USA TODAY biography The Moralist is an essential contribution to presidential history Booklist starred review In graceful prose and deep scholarship Patricia O Toole casts new light on the presidency of Woodrow Wilson Star Tribune Minneapolis The Moralist shows how Wilson was a progressive who enjoyed unprecedented success in leveling the economic playing field but he was behind the times on racial equality and women s suffrage As a Southern boy during the Civil War he knew the ravages of war and as president he refused to lead the country into World War I until he was convinced that Germany posed a direct threat to the United States

Once committed he was an admirable commander in chief yet he also presided over the harshest suppression of political dissent in American history After the war Wilson became the world s most ardent champion of liberal internationalism a democratic new world order committed to peace collective security and free trade With Wilson s leadership the governments at the Paris Peace Conference in 1919 founded the League of Nations a federation of the world s democracies The creation of the League Wilson s last great triumph was quickly followed by two crushing blows a paralyzing stroke and the rejection of the treaty that would have allowed the United States to join the League Ultimately Wilson s liberal internationalism was revived by Franklin D Roosevelt and it has shaped American foreign relations for better and worse ever since A cautionary tale about the perils of moral vanity and American overreach in foreign affairs The Moralist does full justice to Wilson s complexities The Wall Street Journal

Right here, we have countless ebook **Safe For Democracy Anglo Amern Respons** and collections to check out.
