Sails Of Tau Ceti:

The Sails of Tau Ceti Michael McCollum,1992 The Sails of Tau Ceti Michael McCollum,2020-10-01 Starhopper was humanity's first interstellar probe. It was designed to search for intelligent life beyond the solar system. Before it could be launched, however, intelligent life found Earth. The discovery of an alien light sail inbound at the edge of the solar system generated considerable excitement in scientific circles. With the interstellar probe nearing completion, it gave scientists the opportunity to launch an expedition to meet the aliens while they were still in space. The second surprise came when Starhopper's crew boarded the alien craft. They found beings who, despite their alien physiques, were surprisingly compatible with humans. That two species so similar could have evolved a mere twelve light years from one another seemed too coincidental to be true. One human being soon discovered that coincidence had nothing to do with it. The Sails of Tau Ceti Michael McCollum,2020-10-07 Starhopper was humanity's first interstellar probe. And yet the opening of the foldlines has not been the pure blessing the Altans had supposed. The reestablishment of interstellar travel has brought with it news of the encroaching Ryall, an alien race whose goal is the extermination of humanity. If they are to avoid defeat at the hands of the alien forces, Alta must seek out the military might of Earth. The only suitable path, however, requires a journey into the heart of a supernova. *Thunderstrike!* Michael McCollum,2020-10-01 The new comet found near Jupiter was an incredible treasure trove of water, ice, and rock. Immediately, the water-starved Luna Republic and Sierra Corporation, a leader in asteroid mining, were squabbling over rights to the new resource. But all thoughts of profit and fame were abandoned when a scientific expedition discovered that the comet's trajectory placed it on a collision course with Earth. As scientists struggled to find a way to alter the comet's course, world leaders tried desperately to restrain mass panic, and two lovers quarreled over the direction the comet was to take. All Earth waited to see if humanity had any future at all. **Euclid's Wall** Michael McCollum,2020-10-01 A century after civilization fell in a day and a night of tectonic cataclysm, scattered communities have regained a fraction of what humanity lost on that Day of Destruction. One such is the Duchy of Hampshire on the southern tip of England. Hampshire is at war with the Califat de Normandie. It is a war that has been profitable for merchant sea captain

Ethan Scott of the Sailing Barque Hellespont Despite the money to be made Scott prays for the war to end Each time he puts to sea he risks his ship and the lives of his crew on his ability to evade the Norman raiders in the Channel and the Eirish Sea It is a gamble he will inevitably lose if he keeps at it too long The Duke of Hampshire has problems of his own War is expensive If he doesn't find additional resources soon he will be defeated The Duke plans to send an expedition to North America to discover whether the fabled wealth of old still exists there For that he needs a ship Scott's chance meeting with a beautiful woman presents both men with the solution to their respective problems Soon Hellespont sets sail for America and the mysterious Wall that scholars believe precipitated the fall of civilization and which may yet destroy the world

Gibraltar Stars Michael McCollum,2019-11-18 The great debate is over The human race has rejected the idea of retreating to Earth and that the Broa will continue to overlook them at least for a few more generations Instead the World Parliament by a 60 40 vote has decided to throw the dice and go for a win Brave words echo in Parliament Hall as members declare a victory inevitable While plans for war mount on Earth Mark and Lisa Rykand face grave danger as spies in enemy territory The Broa have begun to scrutinize these strange two legged interlopers and question their intentions It's only a matter of time before their identities are revealed But the Rykands mission is key to securing a victory With the number of forces favoring the enemy by roughly a million to one Earth will need all the help they can get **Antares Dawn** Michael McCollum,2019-05-01 When the supergiant star Antares exploded in 2512 the human colony on Alta found their pathway to the stars gone isolating them from the rest of human space for more than a century When a powerful warship materializes in the system without warning the commanders of the Altan Space Navy are alarmed They dispatch one of Alta's most powerful ships to investigate only to discover the unknown behemoth is battered and helmed by a dead crew This is disturbing news for the Altans as the defeated battleship would have easily defeated the whole of the Altan navy on its own And if that ship was able to stumble into the Altan system so too could the force responsible for its destruction Something must be done

Lost Earth Michael McCollum,2020-11-16 A Galaxy Reborn It is the 43rd century and humanity occupies a substantial chunk of the Orion Spur the small galactic arm in which Sol is located Homo sapiens Terra has become Homo sapiens Galactica Following the invention of faster than light travel in 2530 the Great Hegira went from a trickle to a flood as human occupied space expanded at an exponential clip Over the centuries rivalries grew as did star system navies When widespread war finally came it raged across entire sectors Mass bombardments of enemy planets took their toll Much that had been built during the preceding thousand years was smashed in flashes of nuclear fusion A dark age descended Eventually a new Pax Galactica took hold The return of stability brought with it a renaissance Much knowledge that had been lost was regained Much but not all On worlds across human space parents told their children stories of a place where once dwelt knights and princesses magicians and dragons where bold warriors sallied forth to victory or defeat What the children did not learn was where this magical place could be found The years of chaos had robbed them of that information The stellar coordinates of

Sol were lost And with them the location of Planet Earth **Procyon's Promise** Michael McCollum,2020-02-04 For millennia the Makers Life Probes explored the farthest reaches of space in search of the secret behind faster than light speed In the 22nd century the people of Earth made a pact with this far flung civilization all of the Makers intelligence in exchange for help in their mission Three hundred years later descendants of the original Procyon expedition have returned to Earth in a starship They find a world that has forgotten the generations old contract No matter The returning colonists have overcome far greater obstacles in their single minded drive to redeem a promise made before any of them were born
