Saints Sinners And Sisters Gender And Northern Art In Medieval And Early Modern Europe:

"Saints, Sinners, and Sisters" JaneL. Carroll, 2017-07-05 A collection of original essays *Saints Sinners and Sisters* showcases the diverse questions currently being asked by gender scholars dealing with French Netherlandish and German art from the medieval and early modern periods Moving beyond the reclamation of personalities and oeuvres of lost female artists the contributors pose questions about gender and sex within specific historical contexts addressing such issues as intended audience use of the object and patronage These avenues of inquiry intersect with larger cultural questions concerning societal control of women The book's three sections *Saints Sinners and Sisters Wives Poets* are each preceded by a concise introductory essay detailing themes and offering reflective comparisons of theses and information In *Saints* contributors look at women who were positive exemplars used by society to uphold standards In the second section the essays focus on the power of women's sexuality The third section expands beyond the customary dichotomous division of the first two to examine women in diverse roles not widely studied as positions of women in those times This final section expands our definitions of women's responsibilities and realigns them historically it argues that women and thus gender need to be understood within a much broader historical context and beyond simplistic approaches sometimes superimposed by present day readers on past times This volume answers an acute need for research on the art of Northern Europe prior to the 20th century and highlights the possibilities of new directions in the field The effect of the new scholarship presented here is to broaden the discursive field allowing fluidity of disciplinary boundaries resulting in a volume that is illuminating to historians of more than art alone **Gender, Otherness, and Culture in Medieval and Early Modern Art** Carlee A.

Bradbury, Michelle Moseley-Christian, 2017-11-29 This collection examines gender and Otherness as tools to understand medieval and early modern art as products of their social environments The essays uniting up and coming and established scholars explore both iconographic and stylistic similarities deployed to construct gender identity The text analyzes a vast array of medieval artworks including Dieric Bouts's *Justice of Otto III Albrecht Dürer's Feast of the Rose Garland* Rembrandt van Rijn's *Naked Woman Seated on a Mound* and Renaissance era transitional tombs of French women to illuminate medieval and early modern ideas about gender identity poverty religion honor virtue sexuality and motherhood among others **The Cult of St. Anne in Medieval and Early Modern Europe** Jennifer Welsh, 2016-12-08 Dr Jennifer Welsh received her M A in Medieval Studies from Cornell University in 2000 and her M A and PhD in History from Duke University in 2004 and 2009 Her dissertation dealt with the cult of St Anne in late medieval and early modern Europe After four years as a Visiting Assistant Professor at the College of Charleston in Charleston SC she started working as an Assistant Professor in the Department of History at Lindenwood University Belleville in Belleville IL in August of 2014 This is her first book *The Ashgate Research Companion to Women and Gender in Early Modern Europe* Jane Couchman, 2016-03-23 Over the past three decades scholars have transformed the study of women and gender in early modern Europe This Ashgate Research

Abject Eroticism in Northern Renaissance Art Yvonne Owens, 2020-10-29 Hans Baldung Grien the most famous apprentice and close friend of German artist Albrecht Dürer was known for his unique and highly eroticised images of witches In paintings and woodcut prints he gave powerful visual expression to late medieval tropes and stereotypes such as the poison maiden venomous virgin the Fall of Man death and the maiden and other motifs and eschatological themes which mingled abject and erotic qualities in the female body Yvonne Owens reads these images against the humanist intellectual milieu of Renaissance Germany showing how classical and medieval medicine and natural philosophy interpreted female anatomy as toxic defective and dangerously beguiling She reveals how Hans Baldung exploited this radical polarity to create moralising and titillating portrayals of how monstrous female sexuality victimised men and brought them low Furthermore these images issued from and contributed to the contemporary understanding of witchcraft as a heresy that stemmed from natural feminine defect a concept derived from Aristotle Offering new and provocative interpretations of Hans Baldung s iconic witchcraft imagery this book is essential reading for historians of art culture and gender relations in the late medieval and early modern periods

The Centre as Margin: Eccentric Perspectives on Art Maria de Lurdes Craveiro, Carla Alexandra Gonçalves, 2019-10-01 The Centre as Margin Eccentric Perspectives on Art is a multi authored volume of collected essays that answer the challenge of thinking Art History and the Arts in a broader sense from a liminal point of view Its main goal is thus to discuss the margin from the centre drawing on its concomitance within study themes and subjects ontological and epistemological positions or research methodologies themselves Marginality eccentricity liminality and superfluity are all part of a dynamic relationship between centre and margin s that will be approached and discussed from the point of view of disciplines as different and as close as art history philosophy literature and design from medieval to contemporary art Resulting from recent research developed from the privileged viewpoint offered by the margin this volume brings together the contributions of young

researchers along with the work of career scholars Likewise it does not obey a traditional or a rigid diachronic structure being rather organized in three major parts that organically articulate the different essays Within each of these parts in which the book is divided papers are sometimes organized according to their timeframes providing the reader with an encompassing though not encyclopedic overview of the common ground over which the various artistic disciplines build their methodological theoretical and thematic centers and margins The intended eccentricity of this volume and the original essays herein presented should provide researchers scholars students artists curators and the general reader interested in art with a refreshing approach to its various scientific strands *A Cultural History of Youth in the Renaissance* Lucy
