Saints And Postmodernism:

Saints and Postmodernism Edith Wyschogrod, 1990-10-15 Saintliness in Wyschogrod's book is not a nostalgic return to premodern hagiography but a postmodern expression of excessive desire a desire on behalf of the Other that seeks the cessation of another's suffering and the birth of another's joy Publisher The Postmodern Saints of France Colby Dickinson, 2013-07-18 From the mid to the late 20th century various French thinkers have at times toyed with the label of the saint applying it to friends colleagues the revered and even the worshipped such as Genet Sartre Camus or Foucault Despite this profaning of the term however here are many subtle truths which emerge from its usage among such writers This volume is devoted to exploring certain varied notions of the saint in recent French philosophical and literary thought from within a theological context offering insights and valuable contributions toward how we understand sainthood in cultural philosophical and religious terms Each essay focuses on the convergence of a particular author's work and their various reformulations of saintliness in their writings whether this concept is directly expressed in their writings or not In general the aim of the volume is to develop a critical engagement between each author's philosophical worldview and historical notions of sainthood such that we are capable of providing new understandings of what a saint could be said to be in our world today

Heroes, Saints, and Ordinary Morality Andrew Michael Flescher, 2003-11-25 Most of us are content to see ourselves as ordinary people unique in ways talented in others but still among the ranks of ordinary mortals Andrew Flescher probes our contented state by asking important questions How should ordinary people respond when others need our help whether the situation is a crisis or something less Do we have a responsibility an obligation to go that extra mile to act above and beyond the call of duty Or should we leave the braver responses to those who are somehow different than we are better somehow heroes or saints Traditional approaches to ethics have suggested there is a sharp distinction between ordinary people and those called heroes and saints between duties and acts of supererogation going beyond the expected Flescher seeks to undo these standard dichotomies by looking at the lives and actions of certain historical figures Holocaust rescuers Martin Luther King Jr Dorothy Day among others who appear to be extraordinary but were in fact ordinary people Heroes Saints and Ordinary Morality shifts the way we regard ourselves in relationship to those we admire from afar it asks us not only to admire but to emulate as well further it challenges us to actively seek the acquisition of virtue as seen in the lives of heroes and saints to learn from them a dynamic aspect of ethical behavior that goes beyond the mere avoidance of wrongdoing Andrew Flescher sets a stage where we need to think and act calling us to lead lives of self examination even if that should sometimes provoke discomfort He asks that we strive to emulate those we admire and therefore allow ourselves to grow morally and spiritually It is then that the individual develops a deeper altruistic sense of self a state that allows us to respond as the heroes of our own lives and therefore in the lives of others when times and circumstance demand that of us

Saintliness and some aporias of postmodernism, from Saints and postmodernism Edith Wyschogrod, 1997

The Spirit and the Common Good Daniela C. Augustine, 2019-09-12 A fresh vision of the common good through pneumatological lenses Daniela C Augustine a brilliant emerging scholar offers a theological ethic for the common good Augustine develops a public theology from a theological vision of creation as the household of the Triune God bearing the image of God in a mutual sharing of divine love and justice and as a sacrament of the divine presence The Spirit and the Common Good expounds upon the application of this vision not only within the life of the church but also to the realm of politics economics and care for creation The church serves a priestly and prophetic function for society indeed for all of creation This renewed vision becomes the foundation for constructing a theological ethic of planetary flourishing in and through commitment to a sustainable communal praxis of a shared future with the other and the different While emphatically theological in its approach The Spirit and the Common Good engages readers with insights from political philosophy sociology of religion economics and ecology as well as forgiveness reconciliation and peacebuilding studies

Postmodernism and Christian Philosophy Roman Theodore Ciapalo, 1996-12-31 The contributors to Postmodernism and Christian Philosophy bring a wealth of philosophical insights and methodological approaches to bear on a common concern namely the possibility and extent of a fruitful dialogue between Christian philosophy and postmodern thought They tackle the timely question of how realism ought to respond to the threat to what Gilson called the Western Creed posed by modernity's heir apparent Enriched and invigorated by the insights of St Thomas Jacques Maritain Yves R Simon and others the articles assembled in this volume offer a provocative vision of the way in which a world bearing the imprint of modernity can nevertheless avoid succumbing to the false alternative proposed by postmodernism Contributors include Benedict M Ashley O P Don T Asselin Michael Baur David B Burrell C S C John Deely Curtis L Hancock Thomas S Hibbs Gregory J Kerr John F X Knasas Joseph W Koterski S J James L Marsh Matthew S Pugh Gregory M Reichberg Robert Royal James V Schall S J Rosalind Smith Edman Brendan Sweetman Joseph M de Torre Merold Westphal and Robert E Wood ABOUT THE EDITOR Roman T Ciapalo is associate professor of philosophy at Loras College in Dubuque Iowa

The Saint's Life and the Senses of Scripture Ann W. Astell, 2024-07-15 Through close examination of ancient medieval and modern Lives of the saints Ann W Astell demonstrates how the historical transformation of hagiography as a genre correlates with similar changes in biblical studies Christian hagiography flourished from the fourth to the fifteenth centuries illuminating the gospel through the overlapping forms of exempla and vita Originally the Lives of the saints were understood as hermeneutical extensions of the Bible God authors the saint just as God authors the divinely inspired scriptures During the medieval period a sense of dual authorship between God and the cooperating saint developed paralleling the Scholastic impulse to assign greater agency to the human writers of scripture Then in the sixteenth century powerful new anxieties about historical truth pushed hagiography aside for biography its successor Drawing on her expertise in the history of Christianity and biblical exegesis Astell convincingly shows how this radical shift in hagiography's status the loss of the literal allegorical tropological

and anagogical senses of the Lives serves as a bellwether for modern biblical reception **The Making of the Self** Richard Valantasis, 2008-03-15 A leading scholar of ascetical studies Richard Valantasis explores a variety of ascetical traditions ranging from the Greco Roman philosophy of Musonius Rufus the asceticism found in the Nag Hammadi Library and in certain Gnostic texts the Gospel of Thomas and other early Christian texts This collection gathers historical and theoretical essays that develop a theory of asceticism that informs the analysis of historical texts and opens the way for postmodern ascetical studies Wide ranging in historical scope and in developing theory these essays address asceticism for scholar and student alike The theory will be of particular interest to those interested in cultural theory and analysis while the historical essays provide the researcher with easy access to a significant corpus of academic writing on asceticism **A Primer on Postmodernism** Stanley J. Grenz, 1996-02-06 From the academy to pop culture our society is in the throes of change rivaling the birth of modernity out of the decay of the Middle Ages We are now moving from the modern to the postmodern era But what is postmodernism How did it arise What characterizes the postmodern ethos What is the postmodern mind and how does it differ from the modern mind Who are its leading advocates Most important of all what challenges does this cultural shift present to the church which must proclaim the gospel to the emerging postmodern generation Stanley Grenz here charts the postmodern landscape He shows the threads that link art and architecture philosophy and fiction literary theory and television He shows how the postmodern phenomenon has actually been in the making for a century and then introduces readers to the gurus of the postmodern mind set What he offers here is truly an indispensable guide for understanding today's culture **Love and Christian Ethics** Frederick V. Simmons, 2016-12-15 At the heart of Christian ethics is the biblical commandment to love God and to love one's neighbor as oneself But what is the meaning of love Scholars have wrestled with this question since the recording of the Christian gospels and in recent decades teachers and students of Christian ethics have engaged in vigorous debates about appropriate interpretations and implications of this critical norm In Love and Christian Ethics nearly two dozen leading experts analyze and assess the meaning of love from a wide range of perspectives Chapters are organized into three areas influential sources and exponents of Western Christian thought about the ethical significance of love perennial theoretical questions attending that consideration and the implications of Christian love for important social realities Contributors bring a richness of thought and experience to deliver unprecedentedly broad and rigorous analysis of this central tenet of Christian ethics and faith William Werpehowski provides an afterword on future trajectories for this research Love and Christian Ethics is sure to become a benchmark resource in the field
