Porter, 2001-03-30 Gustave Flaubert is probably the most famous novelist of nineteenth century France and his best known work *Madame Bovary* is read in numerous comparative literature and French courses His fiction set the standard to which other authors turned to learn their craft and his cult of art and his unrelenting search for stylistic perfection inspired many later writers such as Maupassant Proust Conrad Faulkner and Joyce His denunciation of materialistic corrupt society his fascination with altered states of consciousness his oscillation between metaphysical longings and a radical nihilism and his deep seated mistrust of the adequacy of words themselves anticipate the works of contemporary authors This reference is a convenient guide to his life and writings Included in this volume are several hundred alphabetically arranged entries on Flaubert s individual works and major characters historical persons and events that shaped his life the themes that run throughout his writings the critical approaches employed by scholars studying his works and related topics of interest Each entry is written by an expert contributor and most close with a brief bibliography All of his major works are treated at length and the volume mentions nearly every unpublished project of his that has a title The book concludes with a selected general bibliography of major studies *Game of Thrones versus History* Brian A. Pavlac, 2017-03-09 Since it first aired in 2011 *Game of Thrones* galloped up the ratings to become the most watched show in HBO s history It is no secret that creator George R R Martin was inspired by late 15th century Europe when

writing *A Song of Ice and Fire* the sprawling saga on which the show is based. Aside from the fantastical elements *Game of Thrones* really does mirror historic events and bloody battles of medieval times but how closely *Game of Thrones* versus *History Written in Blood* is a collection of thought provoking essays by medieval historians who explore how the enormously popular HBO series and fantasy literature of George R R Martin are both informed by and differ significantly from real historical figures, events, beliefs and practices of the medieval world. From a variety of perspectives the authors delve into Martin's plots, characterizations and settings offering insights into whether his creations are historical possibilities or pure flights of fantasy. Topics include the Wars of the Roses, barbarian colonizers, sieges and the nature of medieval warfare, women and agency, slavery, celibate societies in Westeros, myths and legends of medieval Europe and many more. While life was certainly not a game during the Middle Ages, *Game of Thrones* versus *History Written in Blood* reveals how a surprising number of otherworldly elements of George R R Martin's fantasy are rooted deeply in the all too real world of medieval Europe. The Penguin Companion to Classical Music Paul Griffiths, 2004-10-07. This superbly authoritative new work provides a comprehensive A-Z guide to some 1000 years of Western music. It explores in detail the lives and achievements of a vast range of composers as well as looking at such key topics as music history from medieval plainchant to contemporary minimalism, performers' theory and jargon. Through Griffiths skilfully blends lightly worn scholarship with personal insight whether examining the emotional colouring that different musical keys achieve or charting the rise and development of the symphony.

[Butrint 6: Excavations on the Vrina Plain](#) Simon Greenslade, 2019-08-04. Butrint 6 describes the excavations carried out on the Vrina Plain by the Butrint Foundation from 2002-2007. Lying just to the south of the ancient port city of Butrint, these excavations have revealed a 1300-year long story of a changing community that began in the 1st century AD, one which not only played its part in shaping the city of Butrint but also in how the city interacted and at times reacted to the changing political, economic and cultural situations occurring across the Mediterranean World over this period. Volume II discusses the finds from the Vrina Plain excavations. This volume provides an insight into how the Vrina Plain community lived, worked and ultimately died and includes chapters on the medieval and post-medieval ceramics from the excavations, analysis of the human and faunal remains, environmental evidence, Roman and Medieval coins, a detailed study of the small finds as well as a discussion of the glass including a report on a number of glass cakes, ingots of raw glass associated with glass working that were found during the excavations. The volume also reports on five lead seals dating from the late 9th to the 10th century, an uncommon find but one which when considered with the contemporary coins suggests that for 100 years the Vrina Plain was Butrint.
