Salish People Vol 2 The Squamish And The Lillooet:

Colonizing Bodies Mary-Ellen Kelm, 2011-11-01 Recent debates about the health of First Nations peoples have drawn a flurry of public attention and controversy and have placed the relationship between Aboriginal well being and reserve locations and allotments in the spotlight Aboriginal access to medical care and the transfer of funds and responsibility for health from the federal government to individual bands and tribal councils are also bones of contention Comprehensive discussion of such issues however has often been hampered by a lack of historical analysis Promising to remedy this is Mary Ellen Kelm's *Colonizing Bodies* which examines the impact of colonization on Aboriginal health in British Columbia during the first half of the twentieth century Using postmodern and postcolonial conceptions of the body and the power relations of colonization Kelm shows how a pluralistic medical system evolved She begins by exploring the ways in which Aboriginal bodies were materially affected by Canadian Indian policy which placed restrictions on fishing and hunting allocated inadequate reserves forced children into unhealthy residential schools and criminalized Indigenous healing She goes on to consider how humanitarianism and colonial medicine were used to pathologize Aboriginal bodies and institute a regime of doctors hospitals and field matrons all working to encourage assimilation Finally Kelm reveals how Aboriginal people were able to resist and alter these forces in order to preserve their own cultural understanding of their bodies disease and medicine This detailed but highly readable ethnohistory draws on archival sources archeological findings fieldwork and oral history interviews with First Nations elders from across British Columbia Kelm's cross disciplinary approach results in an important and accessible book that will be of interest not only to academic historians and medical anthropologists but also to those concerned with Aboriginal health and healing today

The Poetics of Land and Identity Among British Columbia Indigenous Peoples Christine J. Elsey, 2024-08-15T00:00:00Z *The Poetics of Land and Identity* is about the meaning of land for the many diverse First Nations within British Columbia The work offers a study of the folklore and symbolic traditions within many Aboriginal regions and illustrates how these traditions emphasize the importance of orality and poetics as the defining factor in the value of land Christine J Elsey offers a deft scholarly discussion of these storyscapes providing us with a point of access for understanding First Nations perspectives on the world and their land She provides an important alternative to the monetary exploitative resource driven view of nature and land ownership and highlights the conflicts between the colonial Western perspective of nature and the holistic view of First Nations people

The Resettlement of British Columbia Cole Harris, 2011-11-01 In this beautifully crafted collection of essays Cole Harris reflects on the strategies of colonialism in British Columbia during the first 150 years after the arrival of European settlers The pervasive displacement of indigenous people by the newcomers the mechanisms by which it was accomplished and the resulting effects on the landscape social life and history of Canada's western most province are examined through the dual lenses of post colonial theory and empirical data By providing a compelling look at the colonial construction of the province

the book revises existing perceptions of the history and geography of British Columbia In their entirety this eloquent collection of nine essays constitute a provocative and unique investigation into the meaning of colonialism and geographical change in the province

Salish Blankets Leslie Heyman Tepper, Janice George, Willard Joseph, 2017 Salish Blankets presents a new perspective on Salish weaving through technical and anthropological lenses Worn as ceremonial robes the blankets are complex objects said to preexist in the supernatural realm and made manifest in the natural world through ancestral guidance The blankets are protective garments that at times of great life changes birth marriage death offer emotional strength and mental focus A blanket can help establish the owner's standing in the community and demonstrate a weaver's technical expertise and artistic vision The object the maker the wearer and the community are bound and transformed through the creation and use of the blanket Drawing on first person accounts of Salish community members object analysis and earlier ethnographic sources the authors offer a wide ranging material culture study of Coast Salish lifeways Salish Blankets explores the design color pigmentation meaning materials and process of weaving and examines its historical and cultural contexts

Respect and Responsibility in Pacific Coast Indigenous Nations E. N. Anderson, Raymond Pierotti, 2022-10-12 This book examines ways of conserving managing and interacting with plant and animal resources by Native American cultural groups of the Pacific Coast of North America from Alaska to California These practices helped them maintain and restore ecological balance for thousands of years Building upon the authors and others previous works the book brings in perspectives from ethnography and marine evolutionary ecology The core of the book consists of Native American testimony myths tales speeches and other texts which are treated from an ecological viewpoint The focus on animals and in depth research on stories especially early recordings of texts set this book apart The book is divided into two parts covering the Northwest Coast and California It then follows the division in lifestyle between groups dependent largely on fish and largely on seed crops It discusses how the survival of these cultures functions in the contemporary world as First Nations demand recognition and restoration of their ancestral rights and resource management practices

A Bounded Land Cole Harris, 2020-11-01 Canada is a country of bounded spaces a nation situated between rock and cold to the north and a political border to the south In A Bounded Land Cole Harris seeks answers to a sweeping question How was society reorganized for Indigenous and non Indigenous people alike when Europeans resettled this distinctive land Through a series of vignettes that focus on people's experiences on the ground Harris exposes the underlying architecture of settler colonialism as it grew and evolved from the first glimpses of new lands and peoples to the immigrant experience in early Canada to the dispossession and resettlement of First Nations in British Columbia By considering the whole territory that became Canada over 500 years and focusing on sites of colonial domination rather than settler texts Harris unearths fresh insights on the continuing and growing influence of Indigenous peoples and argues that Canada's boundedness is ultimately drawing the country toward its Indigenous roots
