

Safe Sex: Tips

You are your safest sex partner

Use toys to masturbate. Take this time to find out what makes you feel good.

Get off while maintaining distance

The phone, sexting and web chat platforms can be ways to connect socially and sexually without exchanging fluids.

Selective kissing

COVID-19 can easily pass kissing. Be cautious when kissing anyone outside your close circle.

Use condoms

Particularly during oral or anal sex, condoms, and dental dams can reduce contact with saliva or feces.

Press Pause

A mouth on the anus may transmit COVID-19. A virus can be spread through the mouth by feces.

Wash your hands

Before and after sex, you should wash up. Hands should be washed frequently with soap and water for at least 20 seconds.

Katherine S. Newman, 2013-01-29 Why are adults in their twenties and thirties stuck in their parents homes in the world s wealthiest countries There s no question that globalization has drastically changed the cultural landscape across the world The cost of living is rising and high unemployment rates have created an untenable economic climate that has severely compromised the path to adulthood for young people in their twenties and thirties And there s no end in sight Families are hunkering down expanding the reach of their households to envelop economically vulnerable young adults Acclaimed sociologist Katherine Newman explores the trend toward a rising number of accordion families composed of adult children who will be living off their parents retirement savings with little means of their own when the older generation is gone While the trend crosses the developed world the cultural and political responses to accordion families differ dramatically In Japan there is a sense of horror and fear associated with parasite singles whereas in Italy the cult of mammismo or mamma s boys is common and widely accepted though the government is rallying against it Meanwhile in Spain frustrated parents and millenials angrily blame politicians and big business for the growing number of youth forced to live at home Newman s investigation conducted in six countries transports the reader into the homes of accordion families and uncovers fascinating links between globalization and the failure to launch trend Drawing from over three hundred interviews Newman concludes that nations with weak welfare states have the highest frequency of accordion families while the trend is virtually unknown in the Nordic countries The United States is caught in between But globalization is reshaping the landscape of adulthood everywhere and the consequences are far reaching in our private lives In this gripping and urgent book Newman urges Americans not to simply dismiss the boomerang generation but rather to strategize how we can help the younger generation make its own place in the world
