

The background of the cover is a historical map of China, likely from a traditional Chinese gazetteer. The map is oriented with North at the top. It features a decorative border with a repeating diamond pattern. A white rectangular box is placed over the left side of the map, containing the title. The map itself shows various geographical features, including rivers, mountains, and numerous place names in Chinese characters. The colors used are primarily green for land, yellow for water, and brown for mountains.

The Sextants of Beijing: Global Currents in Chinese History Joanna Waley-Cohen, 2000-04-17 A surprising survey of cosmopolitan China a civilization actively engaged with other cultures and societies *China's Quest for Global Order* Rosita Dellios, R. James Ferguson, 2012-12-13 The rise of China has become a ubiquitous and often menacing term in global politics China's Quest for Global Order From Peaceful Rise to Harmonious World by Rosita Dellios PhD and R James Ferguson PhD examines how China's leadership has responded to this depiction and the strategic approaches that have been developed to ameliorate threat perceptions Rather than simply reassuring others that its rise is peaceful China has taken proactive steps to reduce possible conflicts Beijing seeks to shape the emerging global governance order as both non threatening to itself and productive in transnational problem solving Borrowing from its own Confucian heritage to promote a harmonious world policy China's contribution to world order is likely to be more robust than the responsible stakeholder epithet upon which the West has pinned its collective hopes The book interprets China's quest for global order from Chinese perspectives old and new and provides the relevant philosophical and historical background to engage the reader in the ensuing debates The authors also contextualize Chinese concepts with those from contemporary international relations strategic studies and systems thinking Their resultant contributions to existing analyses include the notion of Confucian geopolitics and the interplay between strategic theatres of cooperation and protection **The Treasures Ships. Ming**

China on the seas: history of the Fleet that could conquer the world and vanished into thin air Stefano Cariolato, 2017-12-18 In 1400 an immense Chinese fleet of hundreds of ships and tens of thousands of men sailed through the seas reaching Indonesia India Persia Arabia and Africa sent by a proud emperor to bring to the world the glory and the power of the Ming was commanded by the most famous of the Chinese admirals an eunuch named Zheng He The ships carried valuable books precious fabrics delicate and beautiful ceramics in addition to gold and silver destined for the princes of the visited countries and were taking back in China exotic merchandise to show at court with the ambassadors of the Asian world who prostrated themselves in submission for this reason they were called Treasures Ships The history and descriptions of the peoples met are presented based on the news collected by previous and following travellers as well as by the chroniclers who followed the fleet leaving a testimony of the voyages that had been accomplished Despite the fact that the surviving information is very limited this book narrates the missions of the Fleet of the Treasures between 1405 and 1433 attempting to reconstruct the routes likely to have been followed on the basis of the sea and wind conditions phased by the monsoon cycle and detected today with precision by the satellites After a thirty year long endeavour the Chinese retired from the sea cancelled the travels reports destroyed the ships renouncing to sail and remained helpless in face of the penetration of European Navies before and of the Japanese aggression afterward Today China is currently rebuilding a large fleet that is already carrying its weight in home and neighbouring waters and its flag in the oceans retracing the endeavour accomplished

600 years ago *The Expanding Roles of Chinese Americans in U.S.-China Relations* Peter Koehn, Xiao-Huang Yin, Xiao-huang Yin, 2015-02-12 This book addresses the historical and contemporary involvement of Chinese Americans from diverse walks of life in U S China relations The contributors present new evidence and fresh perspectives on familiar and unfamiliar national and transnational networks including families businesspersons community newspapers students lobbyists philanthropists and scientists and consider the likely future impact of such contacts on the most important bilateral relationship at the start of the new millennium The volume makes a multidisciplinary contribution to understanding the extensive and vital roles and promise of Chinese Americans at this critical juncture in U S China relations and to revealing the importance of migrants as actors in contemporary global politics The assessments shared by the contributors suggest that the nature and scope of the Chinese American involvement particularly in global civil society networks increasingly will determine the outcome of state to state relations between the United States and the PRC International Orders in the Early Modern World Shogo Suzuki, Yongjin Zhang, Joel Quirk, 2013-09-05 This book examines the historical interactions of the West and non Western world and investigates whether or not the exclusive adoption of Western oriented international norms is the prerequisite for the construction of international order This book sets out to challenge the Eurocentric foundations of modern International Relations scholarship by examining international relations in the early modern era when European primacy had yet to develop in many parts of the globe Through a series of regional case studies on East Asia the Middle East Africa and Latin America and Russia written by leading specialists of their field this book explores patterns of cross cultural exchange and civilizational encounters placing particular emphasis upon historical contexts The chapters of this book document and analyse a series of regional international orders that were primarily defined by local interests agendas and institutions with European interlopers often playing a secondary role These perspectives emphasize the central role of non European agency in shaping global history and stand in stark contrast to conventional narratives revolving around the Rise of the West which tend to be based upon a stylized contrast between a dynamic West and a passive and static East Focusing on a crucial period of global history that has been neglected in the field of International Relations International Orders in the Early Modern World will be interest to students and scholars of international relations international relations theory international history early modern history and sociology *The Politics and Philosophy of Chinese Power* R. James Ferguson, Rosita Dellios, 2016-12-12 This book provides a timely analysis of the politics philosophy and history of Chinese power focusing on social strategic and diplomatic trends that have shaped China for over three thousand years Chinese elites have used the past to inform the present but have also mobilized new ideas to address the country s rapid transition to global power China s intellectual world can draw on a surprisingly pluralist legacy When Chinese thinkers assess power they bring to bear their classical legacy the military classics Chinese socialism and Western political thought There are also a number of intriguing formulations that give shape to the exercise of Chinese power Among these are comprehensive national strength

stability preservation soft power asymmetric conflict and counter intervention strategies This book looks at key periods in Chinese history when attitudes to power evolved and at their current expressions These include China's expanded use of think tanks to chart the future efforts at creating an eco civilization to balance growth and an extended set of security and information capabilities From observing the centrality of power in today's international affairs the book moves to the foundational concepts of Chinese governance its belief in a strategic configuration of power as understood in military contexts as well as its growing diplomatic and maritime engagement abroad This analysis culminates in new ideas of functional multipolarity Power is also deployed internally China's use of nationalism as a major tool for state building and cohesion the ongoing role of socialism and the People's Liberation Army are all examined in this light China's current strategic culture has shaped President Xi Jinping's search for a new model of power for China in the twenty first century an endeavor that will have serious implications for the future global order This book provides an alternative perspective on China's trajectory towards a revised international system

China's Outbound Tourism Wolfgang Arlt, 2006-09-27 The People's Republic of China has changed from a country which actively discouraged tourism into one of the major source markets for the international industry the 35 million Chinese travelling across the border in 2005 are merely the tip of the iceberg China's Outbound Tourism is the first book on this major development and has been written using a multitude of sources from China and around the world The topic is approached from many angles using methods from the fields of economics political sciences sociology and cross cultural studies The book explains the economic and social background of the surge in tourism and the changes in policy in the country since 1949 when it moved from prevention through controlled development to encouragement of outbound travels Throughout the book facts and figures are given for the global development as well as in depth information about China's key destinations The growing importance of tourists from China is however not just a question of quantity the text explains the features which distinguish their travel motivations and behaviours from western and Japanese tourists and the consequences for product adaptation and marketing methods for destinations interested in attracting and satisfying Chinese tourists Arlt's groundbreaking book cannot be ignored by professionals academics and students of tourism and leisure it offers fresh insight into the topic and indicates some of the future lines of development in this area

The Global Atlantic Christoph Strobel, 2015-02-11 The Global Atlantic provides a concise lively overview of the complex and diverse history of the greater Atlantic region from 1400 to 1900 During this period the lands around the Atlantic basin Europe Africa and the Americas became deeply interconnected in networks of trade cultural exchange and geopolitics that reshaped these regions and the world beyond In this accessible and engaging text Christoph Strobel integrates the Atlantic into world history showing that the Atlantic oceanic system was always interlinked with the rest of globe From the Mediterranean origins of slave worked sugar plantations to the Chinese demand for silver from American mines The Global Atlantic discusses key examples of these connections with clarity enabling

students to understand how existing ideas and incentives shaped the emerging Global Atlantic and how these Atlantic systems in turn created the world we live in today **The Chinese Cornerstone of Modern Banking** Frederic Delano Grant, Jr.,2014-09-25 Modern bank insurance is traced to its roots in The Chinese Cornerstone of Modern Banking The Canton Guaranty System and the Origins of Bank Deposit Insurance 1780 1933 Frederic Delano Grant Jr provides new understandings of the Canton System collective responsibility for debt at Canton and the history of deposit insurance The Canton Guaranty System inspired radical reform in New York in 1829 the ancestor of all modern deposit insurance Yet it was never the success imagined and soon failed In the Opium War the Chinese government as implicit guarantor was forced to pay its debts in full on 23 July 1843 The afflictions of the Chinese system including moral hazard too big to fail and unenforced laws remain familiar today **Qing Colonial Enterprise** Laura Hostetler,2005-12-15 In Qing Colonial Enterprise Laura Hostetler shows how Qing China 1636 1911 used cartography and ethnography to pursue its imperial ambitions She argues that far from being on the periphery of developments in the early modern period Qing China both participated in and helped shape the new emphasis on empirical scientific knowledge that was simultaneously transforming Europe and its colonial empires at the time Although mapping in China is almost as old as Chinese civilization itself the Qing insistence on accurate to scale maps of their territory was a new response to the difficulties of administering a vast and growing empire Likewise direct observation became increasingly important to Qing ethnographic writings such as the illustrated manuscripts known as Miao albums from which twenty color paintings are reproduced in this book These were intended to educate Qing officials about various non Han peoples so that they could govern these groups more effectively Hostetler s groundbreaking account will interest anyone studying the history of the early modern period and colonialism

Living the Good Life Elif Akçetin,Suraiya Faroghi,2017-10-02 Eighteenth century consumers of the Qing and Ottoman empires had access to an increasingly diverse array of goods from home furnishings to fashionable clothes and new foodstuffs While this tendency was of shorter duration and intensity in the Ottoman world some urbanites of the sultans realm did enjoy silks coffee and Chinese porcelain By contrast a vibrant consumer culture flourished in Qing China where many consumers flaunted their fur coats and indulged in gourmet dining Living the Good Life explores how goods furthered the expansion of social networks alliance building between rulers and regional elites and the expression of elite urban and gender identities The scholarship in the present volume highlights the recently emerging material turn in Qing and Ottoman historiographies and provides a framework for future research Contributors Arif Bilgin Michael G Chang Edhem Eldem Colette Estabilet Antonia Finnane Selim Karahasanoglu Lai Hui min Amanda Phillips Hedda Reindl Kiel Martina Siebert Su Te Cheng Joanna Waley Cohen Wang Dagang Wu Jen shu Y ld z Y lmaz and Yun Yan **Accommodating the Chinese** Michelle Campbell Renshaw,2005-04-02 This in depth comparative study demonstrates that the hospital established in China its planning and architecture financing and all aspects of day to day operation differed from its counterpart at home These

differences were never due to a single or even dominant cause They were a result of a complex process involving accommodation appreciation negotiation opportunism and pragmatism *Cultural Objects and Reparative Justice* Patty Gerstenblith,2023 *Cultural Objects and Reparative Justice* provides a comprehensive legal and historical analysis surrounding the question of where cultural objects removed without consent should be located Following an interdisciplinary approach based in law history art history anthropology and archaeology this book proposes a paradigm for reparations

The Economies of Imperial China and Western Europe Patrick Karl O'Brien,2020-10-14 This book is a critical interpretation of a seminal and protracted debate in comparative global economic history Since its emergence in now classic publications in economic history between 1997 2000 debate on the divergent economic development that has marked the long term economic growth of China and Western Europe has generated a vast collection of books and articles conferences networks and new journals as well as intense interest from the media and educated public O'Brien provides an historiographical survey and critique of Western views on the long run economic development of the Imperial Economy of China a field of commentary that stretches back to the Enlightenment The book's structure and core argument is concentrated upon an elaboration of and critical engagement with the major themes of recent academic debate on the Great Divergence and it will be of enormous interest to academics and students of economic history political economy the economics of growth and development state formation statistical measurements environmental history and the histories of science and globalization *America's Lost Chinese* Hugo Wong,2023 The inspiring haunting story of Chinese migrant workers rejected by the USA and determined to build a new community in Mexico told by their great grandson *Chow Chop Suey* Anne Mendelson,2016-11-29 Chinese food first became popular in America under the shadow of violence against Chinese aliens a despised racial minority ineligible for United States citizenship The founding of late nineteenth century chop suey restaurants that pitched an altered version of Cantonese cuisine to white patrons despite a virulently anti Chinese climate is one of several pivotal events in Anne Mendelson's thoughtful history of American Chinese food *Chow Chop Suey* uses cooking to trace different stages of the Chinese community's footing in the larger white society Mendelson begins with the arrival of men from the poorest district of Canton Province during the Gold Rush She describes the formation of American Chinatowns and examines the curious racial dynamic underlying the purposeful invention of hybridized Chinese American food historically prepared by Cantonese descended cooks for whites incapable of grasping Chinese culinary principles Mendelson then follows the eventual abolition of anti Chinese immigration laws and the many demographic changes that transformed the face of Chinese cooking in America during and after the Cold War Mendelson concludes with the post 1965 arrival of Chinese immigrants from Taiwan Southeast Asia and many regions of mainland China As she shows they have immeasurably enriched Chinese cooking in America but tend to form comparatively self sufficient enclaves in which they unlike their predecessors are not dependent on cooking for a white clientele *Chinese Law in Imperial Eyes* Li

Chen,2015-12-22 How did American schoolchildren French philosophers Russian Sinologists Dutch merchants and British lawyers imagine China and Chinese law What happened when agents of presumably dominant Western empires had to endure the humiliations and anxieties of maintaining a profitable but precarious relationship with China In *Chinese Law in Imperial Eyes* Li Chen provides a richly textured analysis of these related issues and their intersection with law culture and politics in the eighteenth and nineteenth centuries Using a wide array of sources Chen's study focuses on the power dynamics of Sino Western relations during the formative century before the First Opium War 1839-1842 He highlights the centrality of law to modern imperial ideology and politics and brings new insight to the origins of comparative Chinese law in the West the First Opium War and foreign extraterritoriality in China The shifting balance of economic and political power formed and transformed knowledge of China and Chinese law in different contact zones Chen argues that recovering the variegated and contradictory roles of Chinese law in Western modernization helps provincialize the subsequent Eurocentric discourse of global modernity Chen draws attention to important yet underanalyzed sites in which imperial sovereignty national identity cultural tradition or international law and order were defined and restructured His valuable case studies show how constructed differences between societies were hardened into cultural or racial boundaries and then politicized to rationalize international conflicts and hierarchy

Bomb, Book and Compass Simon Winchester,2008-09-25 Before fate intervened Joseph Needham was a distinguished biochemist at Cambridge University married to a fellow scientist In 1937 he was asked to supervise a young Chinese student named Lu Gwei Djen and in that moment began the two greatest love affairs of his life Miss Lu and China Miss Lu inspired Needham to travel to China where he initially spent three dangerous years as a wartime diplomat He established himself as the pre eminent China scholar of all time firm in his belief that China would one day achieve world prominence By the end of his life Needham had become a truly global figure travelling endlessly and honoured by all though banned from America because of his politics And in 1989 after a fifty two year affair he finally married the woman who had first inspired his passion *The Magnificent Barbarian* is Simon Winchester at his best at once a magnificent portrait of one man's remarkable life and a riveting exploration of the country that so engaged him

China, State Sovereignty and International Legal Order Phil C.W. Chan,2015-05-19 China's rise has aroused apprehension that it will revise the current rules of international order to pursue and reflect its power and that in its exercise of State sovereignty it is unlikely to comply with international law This book explores the extent to which China's exercise of State sovereignty since the Opium War has shaped and contributed to the legitimacy and development of international law and the direction in which international legal order in its current form may proceed It examines how international law within a normative institutional framework has moderated China's exercise of State sovereignty and helps mediate differences between China's and other States approaches to State sovereignty such that State sovereignty and international law may be better understood

British Travel Writing from China, 1798-1901, Volume 1 Elizabeth H Chang,2022-01-26 In 1793

Lord Macartney led the first British diplomatic mission to China in over one hundred years. This five volume reset edition draws together British travel writings about China throughout the next century. The collection ends with the Boxer Uprising which marked the beginning of the end of informal British empire on the Chinese mainland.
