

An illustration of four hands, two from the left and two from the right, all reaching towards the center and interlocking their fingers in a power grip. The hands are rendered in a realistic, shaded style, with the skin tones varying slightly to suggest different individuals. The background is a plain, light color.

Sexual Bargaining Power Politics In The American Marriage Second Edition:

Sexual Bargaining John Scanzoni, 1982-04 Is the institution of marriage in America breaking down Is marriage as we have known it largely irrelevant Are the forms of marriage changing Are the changes in women's roles in society related to the breakdown irrelevance and formal alteration of marriage In this updated edition of his fundamental study of modern marriage John Scanzoni challenges the widespread assumption that marriage is a dying institution By analyzing the reward seeking which generates conflicts between males and females he shows that marriage indeed has a future but that its form will continue to change as sex role equality emerges both within and outside of marriage *Sexual Bargaining in the Digital*

Era John H. Scanzoni, 2021-10-05 *Sexual Bargaining in the Digital Era* follows the evolution of genders sexualities and so on away from their Old Normal ON pattern which prevailed during the Agricultural Age and the Industrial Age and into the New Normal NN pattern which is currently surfacing in concert with an emerging Digital Era ON was based on the ancient traditional script governing how women men children ought to behave within the spheres of genders marriages families relationships sexualities Over the centuries ON eventually modified into the familiar 1950s style nuclear patriarchal cisgender husband wife with children and family And now that style itself is fading away into NN NN is based not on script but on improvisation it is essentially a continual work in progress To make it function the partners engage in ongoing negotiation governed by the principle that everything is negotiable except the principle that everything is negotiable NN has thus far been pursued most frequently by persons New Lights who are educated and relatively advantaged ON has been pursued mostly by persons Old Lights who are less educated and relatively less advantaged ON is also strongly embraced by persons of a traditional religious bent persons who tend to be rigid and unbending in their religious views Currently they tend to be extremely right wing evangelicals and extremely right wing Catholics Importantly their political clout far exceeds their relatively modest numbers within the larger population In brief the shift from ON to NN is a move away from the sanctity of a particular structure to the primacy of persons engaged in ongoing processes of inventing and reinventing certain arrangements of genders marriages families relationships sexualities enabling them to fulfil their needs for primary intrinsic emotional satisfactions such as liking loving empathy companionship sexual and so forth Among other things this shift replaces the preeminence of the historic binary or cisgender approach heterosexual legal children and so on in favor of the diversity variety multiplicity approach which incorporates under one conceptual umbrella all persons of whatever genders sexualities and so on All persons are thus engaged in a common struggle to achieve personal satisfactions as well as contribute to the Greater Good *Sexual Bargaining: Power Politics in the American Marriage* John H. Scanzoni, 1972

The Dynamics of Connection David C. Bell,2012-07-10 The Dynamics of Connection How Evolution and Biology Create Caregiving and Attachment describes the logic of giving love trust and nurturance Bowlby s theory of attachment provides an excellent starting point for an explanation of nurturance but there are some limitations in this theory especially its tendency to minimize the caregiving side of the relationship The book builds on and extends Bowlby s theory by examining the evolutionary evidence for both attachment and caregiving the origins of which can be seen in the earliest mammals It describes neurobiological research that has identified the brain circuits that underlie caregiving and attachment The book then describes a theory of relationships based on these neurobiological circuits and the resulting human desire to give and receive emotional contact warmth and support The theory details the emotional logic of this relationship process The proactive connection process caregiving characteristic of parents involves a growing capacity for both empathy and responsibility In the receptive process attachment trust grows from the experience of being cared for and nurtured These processes coexist alongside other motivations with which they interact The Dynamics of Connection introduces a view of the dyadic social psychology of connection that underlies both parent child and close adult relationships It provides a description and explanation of parental and adult nurturance It gives a long needed account of the origins of social norms of parenting

While building on the foundation of attachment theory David Bell brings together new insights from both evolutionary theory and neurobiology to deepen our understanding of caregiving and attachment *Uncoupling* Diane Vaughan,1986 Many books explain why relationships end but never before has a book shown in riveting step by step detail precisely how they end Through extensive interviews and original research Diane Vaughan reveals the underlying pattern beneath every disintegrating relationship This is a groundbreaking book that will help anyone who has ever left a relationship or been left to understand what happened Perhaps even more important it will help some people who don't even know their relationship is in trouble to see what is happening Armed with a new awareness of what is usually an unconscious process until it's too late the partners acquire the ability to either live with it control it or change it Vaughan shows that no matter what the characteristics of the couple involved rich or poor straight or gay married or not and whether they've been together 18 months or 18 years the dynamics of the uncoupling process are essentially the same The key to understanding how two people separate according to Vaughan is the role they assume in the leavetaking Most often one partner the initiator wants out of a relationship while the other wants the relationship to continue Although both people must go through the same steps in altering their perceptions of each other and themselves they do so at different times By the time the still loving partner realizes the relationship is in serious trouble the initiator is already gone in a number of ways *Uncoupling* begins with the initiator's first secret awareness of discomfort depicts his or her search for a confidant who is selected is a telling factor and reveals the subtle often barely perceptible signalling of his discontent to the partner Vaughan traces the initiator's groping for and testing of a new single identity and depicts the initiator's confrontation with the partner She shows how two people try and why trying often fails Finally she explains how the partner makes his or her own transition out of the relationship Replete with case histories many poignant the book provides answers to many puzzling questions why one person can sometimes take the end of a long term relationship so calmly why counseling so often fails why one member of a couple can be so much better prepared for a single life than the other why some people never psychologically separate and much more

Advances in Personal Relationships Warren H. Jones,Daniel Perlman,1992 Recent research has made it increasingly clear that close personal relationships are the cornerstone of interpersonal behaviour and social contact and that such relationships are more than merely common in human experience they are necessary for survival Research indicating that the quality of one's intimate relationships predict the frequency severity and prognosis of both psychological and medical complaints and also possibly mediate the influence of environmental stress on adjustment and well being It is clear that much work needs to be done in order to fully understand the nature and influence of relationships in our lives *Choices And Chances* Lorne Tepperman,2019-03-11 *Choices and Chances* is an ideal supplement to introductory textbooks By showing how theories can apply to everyday life it demonstrates the ways sociology a living growing discipline can shed light on issues of immense personal and social importance *Designing Families* John Scanzoni,2000 *Designing Families* is a

thought provoking examination of the challenges facing the nuclear family as it enters the new millenium John Scanzoni sets the issue of change in families in aN historical and cross cultural perspective tracing the development of the family from the Agricultural Age to the Information Age
