Sexual Sacrifices:

Why Women Have Sex Cindy M. Meston, David M. Buss, 2009-09-29 An unparalleled exploration of the mysteries underlying women's sexuality that rivals the culture shifting Kinsey Report from two of America's leading research psychologists Do women have sex simply to reproduce or display their affection When University of Texas at Austin clinical psychologist Cindy M Meston and evolutionary psychologist David M Buss joined forces to investigate the underlying sexual motivations of women what they found astonished them Through the voices of real women Meston and Buss reveal the motivations that guide women's sexual decisions and explain the deep seated psychology and biology that often unwittingly drive women's desires sometimes in pursuit of health or pleasure or sometimes for darker disturbing reasons that a woman may not fully recognize Drawing on more than a thousand intensive interviews conducted solely for the book as well as their pioneering research on physiological response and evolutionary emotions Why Women Have Sex uncovers an amazingly complex and nuanced portrait of female sexuality They delve into the use of sex as a defensive tactic against a mate's infidelity protection as a ploy to boost self confidence status as a barter for gifts or household chores resource acquisition or as a cure for a migraine headache medication Why Women Have Sex stands as the richest and deepest psychological understanding of female sexuality yet achieved and promises to inform every woman's and her partner's awareness of her relationship to sex and her sexuality

Sex Worship Clifford Howard, 1897 **Sex Worship** Clifford Howard, 2019-06-25 No subject is of greater importance and significance in the history of the human race than that of sex worship the adoration of the generative organs and their functions as symbols of the procreative powers of nature It was the universal primitive religion of the world and has left its indelible impress upon our ideas our language and our institutions It constitutes the basis of all religious systems and the origin of our most sacred symbols and many of our most familiar customs in a word it is the foundation of religious thought and conduct

Sex, Death, and Sacrifice in Moche Religion and Visual Culture Steve Bourget, 2010-06-28 The Moche people who inhabited the north coast of Peru between approximately 100 and 800 AD were perhaps the first ancient Andean society to attain state level social complexity Although they had no written language the Moche created the most elaborate system of iconographic representation of any ancient Peruvian culture Amazingly realistic figures of humans animals and beings with supernatural attributes adorn Moche pottery metal and wooden objects textiles and murals These actors which may have represented both living individuals and mythological beings appear in scenes depicting ritual warfare human sacrifice the partaking of human blood funerary rites and explicit sexual activities In this pathfinding book Steve Bourget raises the analysis of Moche iconography to a new level through an in depth study of visual representations of rituals involving sex death and sacrifice He begins by drawing connections between the scenes and individuals depicted on Moche pottery and other objects and the archaeological remains of human sacrifice and burial rituals He then builds a convincing case for Moche iconography recording both actual ritual activities and Moche religious beliefs

regarding the worlds of the living the dead and the afterlife Offering a pioneering interpretation of the Moche worldview Bourget argues that the use of symbolic dualities linking life and death humans and beings with supernatural attributes and fertility and social reproduction allowed the Moche to create a complex system of reciprocity between the world of the living and the afterworld He concludes with an innovative model of how Moche cosmological beliefs played out in the realms of rulership and political authority

The Culture of Sex in Ancient China Paul R. Goldin,2001-10-31 The subject of sex was central to early Chinese thought Discussed openly and seriously as a fundamental topic of human speculation it was an important source of imagery and terminology that informed the classical Chinese conception of social and political relationships This sophisticated and long standing tradition however has been all but neglected by modern historians In *The Culture of Sex in Ancient China* Paul Rakita Goldin addresses central issues in the history of Chinese attitudes toward sex and gender from 500 B C to A D 400 A survey of major pre imperial sources including some of the most revered and influential texts in the Chinese tradition reveals the use of the image of copulation as a metaphor for various human relations such as those between a worshiper and his or her deity or a ruler and his subjects In his examination of early Confucian views of women Goldin notes that while contradictions and ambiguities existed in the articulation of these views women were nevertheless regarded as full participants in the Confucian project of self transformation He goes on to show how assumptions concerning the relationship of sexual behavior to political activity assumptions reinforced by the habitual use of various literary tropes discussed earlier in the book led to increasing attempts to regulate sexual behavior throughout the Han dynasty Following the fall of the Han this ideology was rejected by the aristocracy who continually resisted claims of sovereignty made by impotent emperors in a succession of short lived dynasties Erudite and immensely entertaining this study of intellectual conceptions of sex and sexuality in China will be welcomed by students and scholars of early China and by those with an interest in the comparative development of ancient cultures

The Power of Tantra Hugh B. Urban,2009-10-30 In the West the varied body of texts and traditions known as Tantra for more than two centuries has had the capacity to scandalize and shock For European colonizers Orientalist scholars and Christian

missionaries of the Victorian era Tantra was generally seen as the most degenerate and depraved example of the worst tendencies of the so called Indian mind a pathological mixture of sensuality and religion that prompted the decline of modern Hinduism Yet for most contemporary New Age and popular writers Tantra is celebrated as a much needed affirmation of physical pleasure and sex indeed as a cult of ecstasy to counter the perceived hypocritical prudery of many Westerners In recent years Tantra has become the focus of a still larger cultural and political debate In the eyes of many Hindus much of the western literature on Tantra represents a form of neo colonialism which continues to portray India as an exotic erotic hyper sexualized Orient Which then is the real Tantra Focusing on one of the oldest and most important Tantric traditions based in Assam northeast India Hugh B Urban shows that Tantra is less about optimal sexual pleasure than about harnessing the divine power of the goddess that flows alike through the cosmos the human body and political society In a fresh and vital contribution to the field the author suggests that the real meaning of Tantra lies in helping us rethink not just the history of Indian religions but also our own modern obsessions with power sex and the invidious legacies of cultural imperialism

Purity, Community, and Ritual in Early Christian Literature Moshe Blidstein, 2017-04-28 Purity Community and Ritual in Early Christian Literature investigates the meaning of purity purification defilement and disgust for Christian writers readers and listeners from the first to third centuries Anthropological and sociological works over the past decades have demonstrated how purity and defilement rituals practices and discourses harness the power of a raw emotion in order to shape and manipulate cultural structures Moshe Blidstein builds on such theories to explain how early Christian writers drew on ancient Jewish and Greco Roman traditions on purity and defilement using them to create new types of community form Christian identity and articulate the relationship between body sin and ritual Blidstein discusses early Christian purity issues under several headings dietary law death defilement purity of the heart defilement of outsiders and purity of the community Analysis of the motivations shaping the development of each area of discourse reveals two major considerations polemical and substantive Thus Christian writing on dietary law and death defilement is essentially polemical constructing Christian identity by marking the purity practices and beliefs of others as false Concerning the subjects of baptism eucharist

and penance however the discourse turns inwards and becomes more substantive seeking to create and maintain theories of ritual and human nature coherent with the theological principles of the new religion
