

# Love Wanes Versus Love Grows

- Lust of love?
  - Novelty produces heightened arousal (Mook, 1987)
  - Exotic becomes erotic (Bem, 1996)
  - From passionate/consummate to companionate (Sternberg, 1988).
  - Bad news?
  - Sex life can improve over time
  - Love can grow over time
- "Cellulite and sexual potential are highly correlated."**

**Age Matters** Toni M. Calasanti, Kathleen F. Slevin, 2013-10-11 This volume of original chapters is designed to bring attention to a neglected area of feminist scholarship aging After several decades of feminist studies we are now well informed of the complex ways that gender shapes the lives of women and men Similarly we know more about how gendered power relations interface with race and ethnicity class and sexual orientation Serious theorizing of old age and age relations to gender represents the next frontier of feminist scholarship In this volume leading national and international feminist scholars of aging take first steps in this direction illuminating how age relations interact with other social inequalities particularly gender In doing so the authors challenge and transform feminist scholarship and many taken for granted concepts in gender studies

Following Charcot Julien Bogousslavsky, 2011 Jean Martin Charcot the iconic 19th century French scientist is still regarded today as the most famous and celebrated neurologist in the world Despite the development of strong independent schools of thought in the USA UK and Germany his Salpêtrière school has become symbolic of the early development and rise of neurological practice and research This book presents a fresh look at the origins of nervous system medicine and at the fate of Charcot's school and pupils Special emphasis is placed upon the parallels and interactions between developments in neurology and mental medicine clearly demonstrating that Charcot is not only the father of clinical neurology but also wielded enormous influence upon the field we would come to know as psychiatry Providing new insights into the life and work of Charcot and his pupils this book will make fascinating reading for neurologists psychiatrists physicians and historians

The Satanic Witch Anton Szandor LaVey, 2003-02-01 The late Anton Szandor LaVey founder of the Church of Satan may be the most notoriously familiar for his Satanic Bible but *The Satanic Witch* best reflects the discoveries Anton made in his younger days working the carnal shows and Mitt Camps This is undiluted Gypsy lore regarding the forbidden knowledge of seduction and manipulation *The Satanic Witch* is not designed for Barbie Dolls but women cunning and crafty enough to employ the workable formulas within which instantly surpass the entire catalogue of self help tomes and New Age idiocies The Introduction Peggy Nadramia High Priestess of the Church of Satan tells us how this book changed her life The Afterword Blanche Barton Anton LaVey's biographer Chairmistress of the Council of Nine and mother of Satan Xerxes Carnacki LaVey Anton's third child informs us how *The Satanic Witch* came to pass and influence the behavior of so many women

**Deviant Bodies** Jennifer Terry, Jacqueline L. Urla, 1995-12-22 the papers in *Deviant Bodies* reveal an ongoing Western preoccupation with the sources of identity and human character Times Literary Supplement Highly recommended for cultural studies The Reader's Review It would be useful for upper level undergraduate and graduate courses in the sociology of the body the history and sociology of science and medicine and women's studies courses particularly those exploring the feminist critiques of science and medicine Contemporary Sociology a powerful deconstruction of the scientific gaze in configuring bodily deviance as a means of legitimating the social order within multiple

historical and social contexts the many excellent selections will make for compelling reading for students of medical anthropology and the history of science American Anthropologist Deviant Bodies reveals that the normal healthy body is a fiction of science Modern life sciences medicine and the popular perceptions they create have not merely observed and reported they have constructed bodies the homosexual body the HIV infected body the infertile body the deaf body the colonized body and the criminal body

**Families in Jeopardy** Roddey Reid,1993 This interdisciplinary study shows how a new commercial and learned print culture attempted to write and regulate individual and collective practices in terms of a master idiom of family sexuality and gender upon which a post revolutionary national community would turn Offering a radical new approach to family and textuality in the field of cultural and literary studies the author argues that from its very inception this print culture from domestic manuals to public health reports and most notably prose fiction promoted new norms of behavior and selfhood not through narratives of idealized family life but instead by means of a rhetoric of danger lack and pathology The book follows familial discourse as it assigns deficient or illicit behaviors to ever wider social groups from the Old Regime nobility and the traditional bourgeoisie to the new middle classes urban workers and the peasants in the countryside to finally the new social elites of the late nineteenth century The author describes how the lack of normative family and sexuality became the primary tactic for designating social others within the social body and for reworking social and gender identities so as to authorize new knowing practices and expertise and new objects of knowledge and discipline Furthermore through analyses of novels by Bernardin de Saint Pierre Sue Balzac Sand Zola and Gide the author demonstrates that the peculiar force of the French novel resided in its power to reach wide newly literate audiences and to inscribe new identities and desires through the reading process Finally the book proposes the provocative thesis that because of these tales of threatened or failed family life the domestic conjugal household has never worked even down to our time it has always been in crisis endangered by forces from without and within and thus in constant need of protection and renewal

*The Radicalism of Romantic Love* Renata Grossi,David West,2017-03-31

Undoubtedly Romantic love has come to saturate our culture and is often considered to be a or even the major existential goal of our lives capable of providing us with both our sense of worth and way of being in the world The Radicalism of Romantic Love interrogates the purported radicalism of Romantic love from philosophical cultural and psychoanalytic perspectives exploring whether it is a subversive force capable of breaking down entrenched social political and cultural norms and structures or whether in spite of its role in the fight against certain barriers it is in fact a highly conservative impulse Exploring both the grounds for the central place of Romantic love in contemporary lives and the meaning extent and nature of its supposed radicalism this volume considers love from a variety of theoretical perspectives with attention to matters of gender sexuality class and ethnicity With authors examining a range of questions including the role of love in the

same sex marriage debate polyamory and the notion of love as a political force The Radicalism of Romantic Love illuminates a fundamental but perplexing aspect of our contemporary lives and will appeal to scholars across the social sciences and humanities with interests in the emotions and love as a social and political phenomenon Index-catalogue of the Library of the Surgeon General's Office, National Library of Medicine: Subjects N-Z National Library of Medicine (U.S.),1961

**The Energies of Love** Donna Eden, David Feinstein, 2014-09-04 The bestselling authors of Energy Medicine and Energy Medicine for Women present a complete program for using energy medicine to heal and strengthen romantic relationships A relationship begins with the meeting of two unique energies This union of energies though invisible determines the way you communicate fight love and want to be loved In this groundbreaking book the bestselling authors of Energy Medicine draw on the real life experiences of couples who have attended their popular Energies of Love workshops as well as their own experience as husband and wife to show how an understanding of your energy system and that of your partner can help you build a more harmonious and loving bond We all have different ways of making sense of the world around us but when faced with conflict especially with those we care most about we tend to revert to one of four Energetic Stress Styles Visuals are extremely passionate and inspire others to care about the things they care about but in moments of conflict their take on the situation can overshadow what is actually occurring undermining their ability to empathize with their partner Kinesthetics are generous compassionate and accepting of other people but their caring nature pulls them in too many directions They try to meet others needs at the expense of their own which can cause mounting resentment Digitals are rational and principled and have a gift for quickly understanding complex situations but they can become closed to others perspectives and feelings Tonals have a gift for understanding others and their dilemmas but during moments of conflict their ability to read between the lines can morph into hearing what was never said felt or thought According to the authors the strongest relationships are those in which the two parties feel that they are partners on a shared spiritual journey By helping you better understand your own unique energy system as well as that of your partner you will be able to recognize your strengths as a couple and avoid the pitfalls The Energies of Love serves as a powerful resource for anyone who wishes to build a rich partnership while maintaining the spark that keeps a relationship exciting      *REALITY Just a Thought* Gregory P. Lomb, 2022-05-04 What is reality Is there an absolute reality or is reality merely relative in nature If Isaac Newton were alive today could Newton make claim to reality as he did gravity space and time or has Einsteinium thought overruled Newtonian thoughts on reality as well as our thoughts on gravity space and time Many make claim reality is nothing more than their personal interpretation of the world but just about everyone interprets the world differently Are there really a multitude of realities Many of us men and

women alike perceive and then define the world as it best fits their desire of what they wish the world to be Most people only see and hear what they want to see and hear they almost never agree as to the objective truth of things as they really are they almost never agree as to what is reality This book is not a scientific study objectively testing reality The thoughts I put forth herein are merely my attempt at objectively postulating what I believe to be an absolute reality pertaining to sometimes specific and sometimes general situations in life      *Evil Sisters* Bram Dijkstra,1996 And Dijkstra shows how these distortions have been reflected in painting in popular and literary fiction from Bram Stoker s *Dracula* to the novels of Conrad Fitzgerald Hemingway and Faulkner and in cinema s *femmes fatales* from Louise Brooks Garbo and Dietrich to the fatal women of the 1990s
