Lehman, 2005 This introductory textbook is for students who are interested in learning about and establishing healthy marriage family and intimate relationships With divorce rates high and relationships fragile books and courses are needed that help students address important issues regarding relationships The readers of this text examine many important and relevant issues through the lens of theory and research and do so using a written format that is readable

understandable and easy to apply to one's life. It was written so that each chapter has information that readers will find helpful as they attempt to establish and maintain meaningful healthy relationships. There are questions throughout each chapter that help readers focus not only on the material but also on how the material relates to their present and past relationship and family situations. The text provides material on the research of John Gottman, the object relations theory of Harville Hendrix, the solution focused approach of Michele Weiner Davis, and the PREP approach to conflict management of Markman, Stanley, and Blumberg. These and other topics discussed are very relevant to students' concerns and are addressed in greater depth than found in most other texts. The emphasis is not just on couple relationships but also on family relationships. Therefore, in this book, there is extensive coverage of family systems theory and the influence of family rules and family structure on the development of families. There is also material on how change produces transitions in family life that must be assimilated into the family structure. For example, when a couple has their first child, both couple and family issues are addressed throughout the book. For instructors who want to focus their courses on marriage, family, and intimate relationships, this book would be an ideal choice. A study guide for students and instructional material for instructors can be obtained by visiting [www.understandingrelationships.net](http://www.understandingrelationships.net).

**Family Life Now** Kelly J. Welch, 2024-11-22. Written with a down-to-earth and student-focused approach. *Family Life Now* 4th edition delivers a comprehensive examination of interaction among family members and intimate partners. With an emphasis on today's diverse and complex individual family and the evolving impact of societal issues, this text engages students through a balanced integrated approach of the human development and family science disciplines. Author Kelly Welch uses a first-person narrative style of writing to engage readers, encourage them to draw upon their own background and experiences to understand theories and concepts, and to paint a realistic view of families and intimate relationships. This text lays the foundation to understanding relationships better, applying research and theory, and promotes the ways in which those considering a helping profession career such as social worker, therapist, psychologist, teacher, early childhood childcare provider, or healthcare provider can employ strengths-oriented best practices to create and deliver effective quality couple and family life education.

Transitioning to Adulthood in Asia: School, Work, and Family Life Wei-Jun Jean Yeung, Cheryll Alipio, Frank F. Furstenberg, Jr., 2013-03-07. In the past decade or so, scholars in the United States have identified the emergence of a new distinct stage of life as adolescence has become protracted and most young people of recent generations take longer to achieve economic and psychological autonomy than they did a half century ago. This new life stage, in between adolescence and adulthood, when young people are in a semiautonomous state, has come to be known as early adulthood. Main characteristics of this new life stage include a later entry into the work force, a longer period of time living in the natal home, and a delayed age at marriage and childbearing. These trends not only have profound implications for young adults' well-being and intergenerational relationships but also challenge social institutions such as family, schools, labor markets, and many youth-serving institutions.

*Mandela's Children* Oscar A. Barbarin, Linda M. Richter, 2013-11-26 There is a gap between the hope for improved social conditions in post apartheid South Africa and the grim reality of black life there is especially striking for South African children who face serious threats to their health and development as a consequence of poverty racism violence and residual social inequality *Mandela's Children* presents the contrasting conditions of hope and peril that characterize life in South African families schools and communities Using empirical data and qualitative case studies the authors analyze and discuss research on children's behavioral emotional and academic development and how they are influenced by community violence household poverty and family functioning This discussion is balanced by one that considers the competence health and resilience of South African children
