Citizenship Diane Richardson, 2017-09-18 Sexual citizenship has become a key concept in the social sciences It describes the rights and responsibilities of citizens in sexual and intimate life including debates over equal marriage and women s human rights as well as shaping thinking about citizenship more generally But what does it mean in a continually changing political landscape of gender and sexuality In this timely intervention Diane Richardson examines the normative underpinnings and varied critiques of sexual citizenship asking what they mean for its future conceptual and empirical development as well as for political activism Clearly written the book shows how the field of sexuality and citizenship connects to a range of important areas of debate including understandings of nationalism identity neoliberalism equality governmentality individualization colonialism human rights globalization and economic justice Ultimately this book calls for a critical rethink of sexual citizenship Illustrating her argument with examples drawn from across the globe Richardson contends that this is essential if scholars want to understand the sexual politics that made the field of sexuality and citizenship studies what it is today and to enable future analyses of the sexual inequalities that continue to mark the global order **Adolescent Parenthood** Max Sugar, 2012-12-06 The definition of the risks of adolescent childbearing has received considerable investigative attention during the last decade We have gradually moved away from simplistically studying young maternal age as the sole determinant of biologic and psychosocial outcome even though we recognize it is one of several factors which warrant consideration We now recognize that if adolescents receive adequate and consistent pre natal care they and their infants should do nearly as well as adult women and their infants of similar backgrounds Thus the major morbidities for adolescent mothers adolescent fathers and their infants are psychosocial lack of educational and vocational futures failed marriages and dependence on government aid for support The adequacy of the parenting of adolescent mothers and fathers and the long term developmental and physical outcomes of their children are largely unstudied This book edited by Dr Max Sugar a recognized authority on adolescence focuses on the important topic of adolescent parenthood

The authors of this timely contribution approach the topic of adolescent parenthood in a unique fashion utilizing a combination of several approaches consideration of fictional characters in history astute and carefully conceptualized clinical observations reviews of the literature and their own investigation It will be through the use of such a creative approach that we shall define the important questions which should be addressed about adolescents as parents and the outcome for their children

The Romance of Innocent Sexuality Geoffrey Rees, 2011 From the polling place to the pulpit *The Romance of Innocent Sexuality* investigates the passions that are enacted in debates about same sex marriage In a critique that is at once humorous and unrelenting Geoffrey Rees argues that sexual desire is fundamentally a desire to make sense of oneself as a whole person Through a constructive engagement with the writings of Saint Augustine on original sin Rees turns on its head the conventional wisdom regarding the goodness of sexual relationship arguing that sin not innocence is the starting point in pursuing justice in sexual ethics To that end Rees boldly reclaims the wisdom of the most disreputable teachings of the Augustinian tradition that original sin is a literal inheritance of all humanity of the singular disobedience of Adam and Eve in Eden and the inherent sinfulness of all human sexuality This work also engages theological readings of nineteenth century fiction and literary readings of contemporary theological writings In so doing Rees shows that debates about same sex marriage are so compelling because the participants are all telling a common story in which they seek to establish the innocence of their own preferred forms of self understanding as defined against some other persons sinful selves In contrast to this Rees argues for the acceptance of responsibility for the sinful exclusions that make possible finding the meaning of embodied personal identity through marriage between any two persons
