Warner, Edward Cornelius Towne, George Henry Warner, 1897 **A Library of the World's Best Literature, Ancient and Modern: A-Z** Charles Dudley Warner, Hamilton Wright Mabie, Charles Henry Warner, Lucia Isabella Gilbert Runkle, 1897 *Evolution and Human Sexual Behavior* Peter B. Gray, 2013-04-01 A comprehensive survey of the evolutionary science of human sexual behavior Evolution and Human Sexual Behavior invites us to imagine human sex from the vantage point of our primate cousins in order to underscore the role of evolution in shaping all that happens biologically and behaviorally when romantic passions are aroused Sexual Education Around the World - Past, Present and Future Issues Rogena Sterling, 2023-09-13 Sexual education is a worldwide concern that intersects with various attitudes values and cultural norms It is an area of life that has for many years been kept private but now there is recognition that there is a need to support people especially young people in modern societies The way sexual education is taught and applied within institutions shapes the way we understand and approach human sexuality Various societies have chosen various means to provide sexual education both at school and to the wider society There is still much more development and support needed however We can begin to identify strategies for overcoming challenges in sex

education promoting healthier attitudes and empowering individuals to make informed decisions about their own bodies and relationships This book is organized into three sections The first section focuses on issues in sexual education such as sexual harassment sexuality and relationship education and advocacy by people with disabilities future challenges and sex differences in physical attractiveness The second section focuses on the means of sexual health education interventions including the use of technology The last section includes a chapter on sex education and the invisibility of intersex people in the curriculum

Handbook of Medieval Sexuality Vern L. Bullough, James Brundage, 2013-01-11 Like specialists in other fields in humanities and social sciences medievalists have begun to investigate and write about sex and related topics such as courtship concubinage divorce marriage prostitution and child rearing The scholarship in this significant volume asserts that sexual conduct formed a crucial role in the lives thoughts hopes and fears both of individuals and of the institutions that they created in the middle ages The absorbing subject of sexuality in the Middle Ages is examined in 19 original articles written specifically for this Handbook by the major authorities in their scholarly specialties The study of medieval sexuality poses problems for the researcher indices in standard sources rarely refer to sexual topics and standard secondary sources often ignore the material or say little about it Yet a vast amount of research is available and the information is accessible to the student who knows where to look and what to look for This volume is a valuable guide to the material and an indicator of what subjects are likely to yield fresh scholarly rewards

Borderlines in a Globalized World G. Preyer, Mathias Bös, 2013-11-11 Scholars of different schools have extensively analyzed world systems as networks of communication under the fashionable heading of globalization. Our collected new research pushes the argument one step further. Globalization is not a homogenization of all social life on earth. It is a heterogeneous process that connects the global and the local on different levels. To understand these contemporary developments, this book employs innovative concepts, strategies of research, and explanations. Globalization is a metaphor for different border structures, new borderlines, and conditions of membership which emerge in a global world system. As a world system expands, it incorporates new territories and new peoples. The process of incorporation creates frontiers or boundaries of the world system. These frontiers or boundary zones are the locus of resistance to incorporation, ethnogenesis, ethnic transformation, and ethnocide.
