Abstract

Sexual expressions in the 21st century have become diverse to the extent that previously stereotyped expressions are gaining popularity within Christian ethical discourses. Most Christian denominations differentiate homosexual orientation from homosexual behaviors. This distinction allows these denominations to denounce homosexual behaviors and tolerate homosexual orientation. The underlying notion is that one is not guilty until they have acted on their sexual orientation. Thus experiencing homosexual orientation alone does not necessarily make one a homosexual. This article examines sexual orientation and sexual behavior as components of sexual expression. The examination links sexual orientation and sexual behavior to sexual identity. The fundamental question of the inquiry is: are sexual orientations and sexual behaviors mutually exclusive as far as sexual expression is concerned? Are Christian denominations justified in denouncing homosexual behaviors but tolerant of homosexual orientations? The article reveals that not all sexual orientations have corresponding sexual behaviors, but sexual orientations influence sexual behaviors and the choice of a sex partner. Individuals determine their sexual identity through their preferred sexual orientation and not through their sexual behaviors or choice of a sex partner. Consequently, it is incorrect to focus on sexual behaviors or the gender of sex partners to respond to issues on sexual identity. Jesus' statement in Matthew 5:28 shows that unhealthy sexual orientation is as toxic as unhealthy sexual behavior. It is, therefore, inconsistent for a Christian community to strictly condemn sexual behaviors in same-sex relations while tolerating homoneoticism.

Keywords: homosexual, sexual behavior, sexual expression, sexual identity, sexual orientation.

Introduction

Religion and Sexuality in Cross-Cultural Perspective Stephen Ellingson,M. Christian Green,2014-03-18 Issues of sexuality and gender are hotly contested in both religious communities and national cultures around the world In the social sciences religious traditions are often depicted as inherently conservative or even reactionary in their commitments to powerful patriarchal and pronatalist sexual norms and gender categories In illuminating the practices of religious traditions in various cultures these essays expose the diversity of religious rituals and mythologies pertaining to sexuality In the process the contributors challenge conventional notions of what is normative in our sexual lives

The Quest for Human Dignity in the Ethics of Pregnancy Termination Tom Joel Obengo,2016-06-22 The Quest for Human Dignity in the Ethics of Pregnancy Termination describes and analyzes the problem of termination of pregnancy with special attention to its prevalence in Kenya where more than seven hundred abortions are performed daily on girls between fifteen and seventeen years of age Although pregnancy termination is illegal in Kenya its practice goes on in the rural villages in homes in urban streets and in private clinics The book focuses on the ethical quest for human dignity in the context of the church s response to the challenge of termination of pregnancy It examines the perceptions and attitudes of various cadres of Christians such as church ministers doctors and lawyers towards the problem The book proposes ways and means by which the church in Kenya can approach the challenge of termination of pregnancy including those pregnancies arising out of rape and incest Findings support the current legal framework that prohibits pregnancy termination but reveal a desire for change in the way the church deals with members who get unplanned pregnancies and those who terminate the same The book suggests in addition that the church s role should emphasize counseling teaching and pastoral care rather than ex communication and public rebuke

Our Right to Choose Beverly Wildung Harrison, 2011-11-07 Endorsements Wipf and Stock is to be congratulated for making Beverly Wildung Harrison's Our Right to Choose newly available. Recognized as a classic in its field from its publication in 1983, Our Right to Choose is as compelling and needed today as it was then. Nyla Rasmussen RN, Maternal Child Health, Larry Rasmussen, Reinhold Niebuhr Professor Emeritus of Social Ethics, Union Theological Seminary, New York City. This historic book is as incisive, pertinent, timely, and morally compelling as it was twenty-eight years ago. Harrison has both ethical purchase and feminist vision on the issue of our age. Read it, learn, be convicted, and act. Rev. Dr. Serene Jones, President of Union Theological Seminary. Decades after its initial publication, Beverly Wildung Harrison's sex-positive justice and social welfare affirming study of abortion remains a unique and trailblazing contribution to the field of Christian ethics. From the treatment of women's procreation in the history of Western Christianity to the rhetoric of 1970s abortion politics, she offers meticulous critiques and constructive feminist Christian ideas sorely needed in today's debates about abortion rights. Traci C. West, author of Disruptive Christian Ethics: When Racism and Women's Lives Matter. About the Contributor's: Two years after Our Right to Choose appeared in 1983, the world of Christian ethics was again impacted by Beverly Wildung Harrison's second groundbreaking book, Making the Connections: Essays in Feminist Social Ethics, edited by Carol S. Robb. Beacon, 1985. Over the next fifteen years, until retiring in 1999 as the Carolyn Williams Baird Professor of Christian Ethics at New York's Union Theological Seminary, Harrison continued to teach and shape a methodology in feminist social ethics which attracted scores of graduate students, both men and women, who currently occupy professorships in ethics throughout the United States and elsewhere in the world. Her former students also include pastors in the United States and Europe and around the globe in countries as diverse as Australia, New Zealand, South Africa, Kenya, and Korea. Since her retirement, Beverly Harrison has continued to consult with former and current graduate students. In 2004, six of her former students worked with Harrison in publishing a commentary on her methodology, Justice in the Making: Feminist Social Ethics. Westminster John Knox Press. Since 1999, Beverly Harrison has lived in an intentional community in the mountains of western North Carolina, where, along with her longtime companion, Carter Heyward, and several other friends, she continues to work for justice in every venue possible, including active involvement in the Democratic Party and in movements for racial, economic, sexual, and gender justice. She has been particularly devoted to pro-choice work and LGBT justice efforts in the Presbyterian and Episcopal churches and in society at large. Harrison delights in the companionship of several dogs, cats, and horses.

Sexuality and Medicine E.E. Shelp, 2012-12-06 It may be unnecessary to some to publish a text on sexuality in 1986, since the popular press speaks of the sexual revolution as if it were over and was possibly a mistake. Some people characterize society as too sexually obsessed, and there is an undercurrent of desire for a return to a supposedly simpler and happier time when sex was not openly discussed, displayed, taught, or even presumed. Indeed, we are

experiencing something of a backlash against open sexuality and sexual liberation For example during the 60s and 70s tolerance of homosexual persons and homosexuality increased Of late there has been a conservative backlash against gay rights laws Sexual intercourse before marriage which had been considered healthy and good has been of late characterized as promiscuous In fact numerous articles have appeared about the growing popularity of sexual abstinence There is a renewed vigor in the fight against sex education in the schools and an anti pornography battle being waged by those on the right and those on the left who organize under the guise of such worthy goals as deterring child abuse and rape but who are basically uncomfortable with diverse expressions of sexuality One would hope that such trends and the ignorance about sex and sexuality that they reflect would not touch medical professionals That Dr *The Bond of Love: Catholic Teaching on Marriage & Sexual Ethics* Willem Jacobus Cardinal Eijk, 2025-09-10 Contemporary attitudes toward marriage family life and human sexuality have undergone profound changes since the mid twentieth century spurred by a host of social and cultural factors Large segments of the population in the West now hold views on marriage and sexual ethics that are very different from the values and norms taught by the Church Indeed Catholic teaching on the truth of marriage and human sexuality is open to strong criticism including among groups of Catholics and seems at best poorly understood In *The Bond of Love* Willem Jacobus Cardinal Eijk provides a comprehensive and unflinching account of the Church's teaching on marriage and sexual ethics dispelling misconceptions and elucidating its truth with grace and clarity As he demonstrates far from being a set of arbitrary rules that constrain human freedom this teaching is instead a deep wisdom for human flourishing anchored in the truth of God and man divinely revealed within Scripture Tradition and the Gospel Eijk first locates Catholic teaching on marriage and sexuality in relation to the currently dominant views in Western society He follows this with an exposition of the fundamental starting point of the Church's teaching on the nature of marriage and sexuality rooted in theological anthropology Next discussed is the virtue of chastity the integration of the sexual faculties into the personality and what it requires of both married and unmarried persons The volume concludes by addressing practices and circumstances that violate the essence of marriage This powerful witness to the truth and beauty of Catholic teaching on marriage and sexual ethics is a vital resource for pastors teachers and all of the Church's faithful striving to live in the love and communion that is grounded in Christ

Randall B. Bush, 2019-07-01 Randall B Bush analyzes the ways unacknowledged axiological assumptions e g about what is important why human beings are valuing creatures and where the capacity to value comes from prejudice the perspectives and approaches of various academic disciplines especially in the social sciences and the humanities The disciplines of ethics and aesthetics provide the most useful tools for a philosophy of value but academic overspecialization has compartmentalized and segregated these disciplines from others threatening to unravel the unity of conceptions of the moral and the beautiful in human existence Bush argues that a dialectical approach to conflicts between ethics and aesthetics can point to a broader axiological vision informed by a Trinitarian conception of reality in which the whole a coherent theory of value is more than the sum of its parts **Women, Gays, and the Constitution** David A. Richards, 1998-07-20 In this remarkable study David A J Richards combines an interpretive history of culture and law political philosophy and constitutional analysis to explain the background development and growing impact of two of the most important and challenging human rights movements of our time feminism and gay rights Richards argues that both movements are extensions of rights based dissent rooted in antebellum abolitionist feminism that condemned both American racism and sexism He sees the progressive role of such radical dissent as an emancipated moral voice in the American constitutional tradition He examines the role of dissident African Americans Jews women and homosexuals in forging alternative visions of rights based democracy He also draws special attention to Walt Whitman s visionary poetry showing how it made space for the silenced and subjugated voices of homosexuals in public and private culture According to Richards contemporary feminism rediscovers and elaborates this earlier tradition And similarly the movement for gay rights builds

upon an interpretation of abolitionist feminism developed by Whitman in his defense both in poetry and prose of love between men Richards explores Whitman's impact on pro gay advocates including John Addington Symonds Havelock Ellis Edward Carpenter Oscar Wilde and Andr Gide He also discusses other diverse writers and reformers such as Margaret Sanger Franz Boas Elizabeth Stanton W E B DuBois and Adrienne Rich Richards addresses current controversies such as the exclusion of homosexuals from the military and from the right to marriage and concludes with a powerful defense of the struggle for such constitutional rights in terms of the principles of rights based feminism
