East Meets West Daniel A. Bell, 2000-05-08 Is liberal democracy a universal ideal Proponents of Asian values argue that it is a distinctive product of the Western experience and that Western powers shouldn't try to push human rights and democracy onto Asian states Liberal democrats in the West typically counter by questioning the motives of Asian critics arguing that Asian leaders are merely trying to rationalize human rights violations and authoritarian rule In this book written as a dialogue between an American democrat named Demo and three East Asian critics Daniel A Bell attempts to chart a middle ground between the extremes of the international debate on human rights and democracy Bell criticizes the use of Asian values to justify oppression but also draws on East Asian cultural traditions and contributions by contemporary intellectuals in East Asia to identify some powerful challenges to Western style liberal democracy In the first part of the book Bell makes use of colorful stories and examples to show that there is a need to take into account East Asian perspectives on human rights and democracy The second part a fictitious dialogue between Demo and Asian senior statesman Lee Kuan Yew examines the pros and cons of implementing Western style democracy in Singapore The third part of the book is an argument for an as yet unrealized Confucian political institution that justifiably differs from Western style liberal democracy This is a thought provoking defense of distinctively East Asian challenges to Western style liberal democracy that will stimulate interest and debate among students of political theory Asian studies and international human rights

Learning Marketplace, The: East Meets West In Singapore Prem Kumar, 2015-09-23 In Asia we are witnessing an era where the pendulum of power seems to be swaying towards the East with the rising strength of China and India and Singapore is at the crossroads between these populous nations Although Singapore may appear to be the most westernized country in Asia she is nevertheless a multi cultural Asian society Having the most open economy in the world Singapore is plugged into the global marketplace of education and learning The development of human capital is used as a strategic economic driver to internationalize and transform education for sustainable competitive advantage Singapore's education system regarded as one of the consistently best performing in the world offers a unique opportunity to explore issues where eastern and western culture values beliefs learning and knowledge systems converge clash and at times diverge This book is meant to extend our knowledge on the role

of learning often overlooked and taken for granted as the air that we breathe but which constantly transforms our lives and reshapes societies It is the first book that deals with the dichotomy of east and west going beyond the traditional learning and education framework to other areas such as economic socio cultural political and technological dimensions that impact Singapore It puts together key topical issues and explores the underbelly of how a small resourceless independent city state like Singapore stays ahead of the learning curve even while facing increasingly intense global competition where the discovery and emergence of new systems for empowerment and independence and the resulting creation of new knowledge and modes of communication are challenging traditional boundaries between the virtual and real world **International**

Hamnett, Belinda Yuen, 2019-05-08 Two hundred years ago Sir Stamford Raffles established the modern settlement of Singapore with the intent of seeing it become a great commercial emporium and fulcrum. But by the time independence was achieved in 1965 the city faced daunting problems of housing shortage, slums and high unemployment. Since then Singapore has become one of the richest countries on earth, providing in Sir Peter Hall's words perhaps the most extraordinary case of economic development in the history of the world. The story of Singapore's remarkable achievements in the first half century after its independence is now widely known. In *Planning Singapore: The Experimental City*, Stephen Hamnett and Belinda Yuen have brought together a set of chapters on Singapore's planning achievements, aspirations and challenges which are united in their focus on what might happen next in the planning of the island state. Chapters range over Singapore's planning system, innovation and future economy, housing, biodiversity, water and waste, climate change, transport and the potential transferability of Singapore's planning knowledge. A key question is whether the planning approaches which have served Singapore so well until now will suffice to meet the emerging challenges of a changing global economy, demographic shifts, new technologies and the existential threat of climate change. Singapore as a global city is becoming more unequal and more diverse. This has the potential to weaken the social compact which has largely existed since independence and to undermine the social resilience undoubtedly needed to cope with the shocks and disruptions of the twenty-first century. The book concludes, however, that Singapore is better placed than most to respond to the challenges which it will certainly face thanks to its outstanding systems of planning and implementation, a proven capacity to experiment and a highly developed ability to adapt quickly, purposefully and pragmatically to changing circumstances.

African Pentecostals in the West Caleb Opoku Nyanni,2021-01-11 The rise of African Pentecostal and Charismatic churches in the West has become a growing phenomenon and a starring feature in many social religious and political conversations Most of these discussions are generally centered on the first generation churches and their missionary attempt to evangelize the West In this book Caleb Nyanni offers a fresh insight into the African diaspora church from the perspective of the growing second generation members and their contributions to the life of the church He explores the changing nature of the African diaspora Pentecostalism by paying close attention to the Church of Pentecost in the United Kingdom which serves as a case study The book explores the frustrations challenges opportunities and culture of the second generation and examines what they bring to Pentecostalism in general **China Rule of Law and the West** Michael Hooper,2024-08-30

This book reveals how the Chinese Party State uses ideo political education to inculcate young citizens with official narratives on law It provides an account of China s version of rule of law under the Yifa Zhiguo paradigm arguing that authorities see law as a tool to apply when convenient and ignore when it impedes Party State goals Moving beyond the question of whether China s system can count as a rule of law order this book identifies three consistent features of Chinese law reform since the Opening and Reform era began the supremacy of the Communist Party of China over the law instrumentalism and reform repression dualism This book uniquely combines the what with the how of China s rule of law efforts China law researchers will benefit from understanding how China s young adults learn about official law narratives A more general audience interested in China s legal and political system will gain valuable insights from the analysis of China s rule of law The growing tensions between China and the West mean that now more than ever scholars and policymakers need to properly

understand China Understanding what Chinese officials mean when they talk about the rule of law in China helps avoid policy errors made from mistakenly assuming that Western definitions are universal The contents of this book can also inform government and university efforts to properly accommodate Chinese students in the West while mitigating harmful manifestations of the nationalist ideology in part implanted by ideological political education Rules and Networks Richard Appelbaum, William Felstiner, Volkmar Gessner, 2001-12-31 This book explores how business people and their legal advisers try to minimise the effect of the difficulties imposed by different cultures **Annotated Bibliography of Economic and Social Material in Singapore and West Malaysia** Joyce Challis, 1969
