**Shackleton** Jonathan Shackleton, John MacKenna, 2003 Drawing on family records diaries and letters this book aims to take us beyond the myth to Shackleton the man It relates the untold stories of Shackleton's upbringing in Kildare his time in the Merchant Navy his marriage and love affairs and his final fatal expedition on the *Quest* [Shackleton: Leadership Lessons from Antarctica](#) Arthur Ainsberg, 2010-04-28 The more I read about Shackleton the more I realized how truly heroic

leadership is almost impossible to find in today's businesses. Despite all the research and programs devoted to motivating employees, most workers admit they feel disenfranchised in their daily work life. In reading the Shackleton story, it became clear to me that Shackleton's leadership lessons could benefit these very same people. This book is my attempt to bring an extraordinary explorer's leadership lessons to those business leaders who on a daily basis must guide their workforce towards a common goal. Because Shackleton's story is more than just one man fighting for survival in the Arctic region, it is about coordinating teamwork under the most strenuous conditions. Even in the fast-paced and often unpredictable business world, leaders can use Shackleton's strategies to make every team effort a successful one. In this book are inspirational lessons from one of the greatest leaders of the 20th century, lessons that can enrich both the way we work and the lives of those we lead.

**Leadership Challenges from the Edge of Experience** James Warn, Michael Cox, 2019-11-18 Leadership Challenges from the Edge of Experience

This book is a must read for the responsible leader who is committed to a serving ethos to lead and excel in any context. The book takes the reader on a leadership journey using the dramatic device of following Shackleton's attempt to cross the Antarctic continent in order to explore perennial leadership principles and challenges in challenging contexts. The book explores seven perennial challenges to leadership and advances corresponding principles for developing the state of mind for responsible leadership and leveraging strategic capability in any context. The focus of the book is on the lived experience of exemplary leadership to provide the reader with a real and immediate understanding of timeless leadership challenges and corresponding principles. The scientific research provides the underlying rigour to the book but the emphasis throughout is on the immediacy of the challenge and how the reader can apply the principles to be effective as a leader. The book integrates theory and practice based on extensive applied research and field work in complex and demanding contexts. The authors have clearly lived what they write. Dr Michael Cox is Professor Emeritus in Leadership and former Director Centre for Studies in Leadership, University of Guelph. Dr James Warn is Former Head School of Business and Leadership Programs, Australian Defence Force Academy at the University of New South Wales. Cox and Warn have written a remarkable book. Using the real life epic journey of explorer Shackleton as an exemplary responsible leader, they have fleshed out the form to show numerous instances and examples of leadership principles in action. The authors ask us to join them as they follow Shackleton through his horrific life threatening journey and take advantage of each setback to illustrate Shackleton's inherent genius at leadership. From the earliest revelation that the map is not the territory, they use the explorer's actions to demonstrate the author's Seven Cs of leadership. It is a fantastic journey which continually challenges the reader to self assess his perception of leadership. John R Vickers, P Eng, Past C E O Westinghouse Air Brake Casting Division. The authors draw out principles and tenets of leadership and skillfully refine them into modern leadership lessons. The self assessments at the end of each chapter are useful to help a leader put the principles into action. Overall, the authors validate that principled leadership is ageless. Mark Easden, Chief Operating Officer, Dale Lessmann LLP. In my early twenties I found myself in a middle management role and over the years I intuitively found ways to manage. A book like this would have been such a great help. A leader who does not walk the talk soon loses the moral authority to lead others. Leaders must take action, commit and be prepared to handle what comes next. This book will have a place to help leaders in family business and organizations. Len Verhey, President Canway Equipment Manufacturing Inc. The authors skillfully and richly illustrate how to move from the leadership approach of managing numbers and cutting people to creating wins for leaders, followers, communities and the world. The authors have clearly lived what they write. This book will be inspiring for the responsible leader who rejects the notion of self focussed leadership. This book provides hope for humanity. Iain P Murray, PhD, Professor Emeritus, Gordon S Lang School of Business and Economics, University of Guelph. The authors take us on a journey exploring leadership in contemporary challenging and crisis contexts by using illustrative narrative and illuminating paintings from the story of Shackleton's Antarctica expedition.
