Before and Beyond the 'Big Society' Joseph Forde, 2022-01-01 John Milbank's theology has shaped much modern political thinking both within and without the Church In Before and Beyond the Big Society Joseph Forde presents the first study devoted exclusively to John Milbank's theology of welfare and how it has influenced policy in the Church of England since 2008 By examining the favourable response the Church gave to the Big Society project in 2010 12 Forde shows that Milbank's Blue Socialist fingerprint increasingly dominates Church policy This theology has not evolved

in a vacuum however and Forde expertly places it in its historical and theoretical context He offers a detailed critical discussion of Milbank's own critique of what has been the mainstream Temple Anglican theology of welfare in the Church of England since the 1940s and a fresh contribution to the assessment of Anglican social theology Finally he demonstrates how Milbank's ideas have been furthered by other influential Anglicans It is this influence that will carry the greatest implications for the Church of England's policy on welfare in future making this study relevant to all who care about its contribution to the provision of welfare

Making Volunteers Nina Eliasoph, 2011-02-28 An inside look at how community service organizations really work Volunteering improves inner character builds community cures poverty and prevents crime We've all heard this kind of empowerment talk from nonprofit and government sponsored civic programs But what do these programs really accomplish In *Making Volunteers* Nina Eliasoph offers an in depth humorous wrenching and at times uplifting look inside youth and adult civic programs She reveals an urgent need for policy reforms in order to improve these organizations and shows that while volunteers learn important lessons they are not always the lessons that empowerment programs aim to teach With short term funding and a dizzy mix of mandates from multiple sponsors community programs develop a complex web of intimacy governance and civic life Eliasoph describes the at risk youth served by such programs the college bound volunteers who hope to feel selfless inspiration and plump up their resumes and what happens when the two groups are expected to bond instantly through short term projects She looks at adult plug in volunteers who working in after school programs and limited by time hope to become like beloved aunties to youth Eliasoph indicates that adult volunteers can provide grassroots support but they can also undermine the family like warmth created by paid organizers Exploring contradictions between the democratic rhetoric of empowerment programs and the bureaucratic hurdles that volunteers learn to navigate the book demonstrates that empowerment projects work best with less precarious funding more careful planning and mandatory training reflection and long term commitments from volunteers Based on participant research inside civic and community organizations *Making Volunteers* illustrates what these programs can and cannot achieve and how to make them more effective
