Shadows Of Light Of Waco:

The Shadows and Lights of Waco James D. Faubion, 2018-06-05 When James Faubion visited the site of the Branch Davidian compound after its conflagration what he found surprised him Though the popular imagination had relegated the site's millennialist denizens to the radical fringe Faubion found not psychopathology but a sturdy and comprehensive system for understanding the world He also found in the person of Amos Paul Bishop Roden a fascinating spokeswoman for that system Based on more than five years of fieldwork including extensive life history interviews with Roden Faubion interprets millennialism as a master pedagogy He reveals it as simultaneously a poetics a rhetoric a physics an approach to history a course of training a gnosis and an ethics Millennialism resists the categories that both academic and popular analysts use to discuss religion by melding the sacred and secular the spiritual and political and the transcendental and commonsensical In this respect and in others millennialism is a premodern pedagogy that has grown resolutely counter modern Yet mainstream culture sees in it not a critique of modernity but dangerous lunacy This disjunction prompts Faubion to investigate how the mainstream came to confine religion to an inner and otherworldly faith an inquiry that allows him to account for the irrationalization of millennialism Against this historical background we can discern the genealogy of Adventist millennialism and make sense of contemporary religious events including the actions of a small group in the central Texas prairie **From the Outside Looking In** Reid L. Neilson, Matthew J. Grow, 2016 This book contains fifteen essays from leading historians and religious studies scholars each originally presented as the annual Tanner lecture at the conference of the Mormon History Association Approaching Mormon history from a variety of angles such as gender identity creation American imperialism and globalization these scholars all experts in their fields but new to the study of Mormon history itself ask intriguing questions about Mormonism's past and future and analyze familiar sources in unexpected ways Leaving Anthony Stavrianakis, 2020-04-28 The first book length anthropological study of voluntary assisted dying in Switzerland Leaving is a narrative account of five people who ended their lives with assistance Stavrianakis places his observations of the judgment to end life in this way within a larger inquiry about how to approach and understand the practice of assisted suicide which he characterizes as operating in a political legal and medical paragon adjacent to medical care and expertise Frequently observers too rapidly integrate assisted suicide into moral positions that reflect sociological and psychological commonplaces about individual choice and its social determinants Leaving engages with core early twentieth century psychoanalytic and sociological texts arguing for a contemporary approach to the phenomenon of voluntary death seeking to learn from such conceptual repertoires as well as to acknowledge their limits Leaving concludes on the anthropological question of how to account for the ethics of assistance with suicide to grasp the actuality and composition of the ethical work that goes on in the configuration of a subject one who is making a judgment about dying with other participants and observers the anthropologist included **Method as Identity** Christopher M. Beautiful Shadow Andrew Wilson, 2008-12-07 The life of Patricia Highsmith was as secretive and unusual as that of many of the best known characters who people her peerlessly disturbing thrillers and short stories Yet even as her work has found new popularity in the last few years the life of this famously elusive writer has remained a mystery For Beautiful Shadow the first biography of Highsmith British journalist Andrew Wilson mined the vast archive of diaries notebooks and letters she left behind astonishing in their candor and detail He interviewed her closest friends and colleagues as well as some of her many lovers But Wilson also traces Highsmith's literary roots in the work of Poe noir and existentialism locating the influences that helped distinguish Highsmith's writing so startlingly from more ordinary thrillers The result is both a serious critical biography and one that

reveals much about a brilliant and contradictory woman one who despite her acclaim and affairs always maintained her solitude

In the Shadow of His Wings Jonathan Macy,2011-01-01 Historically angels have been viewed as either disconnected objects of speculative investigation or as mystifying beings mysteriously influencing our lives However this is not how the Bible describes them Scripture in sober and straightforward terms simply describes what angels do It is a practical depiction a pastoral presentation We see messages of encouragement revelation and guidance we see judgment and correction we see strengthening we see journeying we see prayer and worship The biblical focus concerning angels is on ministry to the people of God Angels are one way that God intervenes in human affairs in response to pastoral concerns or problems Using only

Scripture and a classic model of pastoral theology as the framework this book shows practically how angels are employed by God to bless His church and people as His servant ministers who glorify Him alone **Shadow of Turning** Clayton Carpenter, 2004-11-10 When opportunists with criminal purposes worm their way into the power structure of a large school system compromise law enforcement and gain access to all that tax money education takes on a whole new meaning As events escalate ugly acts of violence disguised as accidents are inflicted upon those who get in the way When Ben Kelly a man on shaky emotional underpinnings raises questions he finds himself a target by people who will stop at nothing to carry out their felonious schemes His unique path through hard circumstances down a perilous road of action provides the drive for what happens to him and those around him In The Annunaki Woman Rena station chief of an interstellar craft carries out her orders to attempt capture of a human with unusual DNA components All hell breaks loose She is stunned when her subject Ben Kelly and two companions react with deadly force and annihilate her team More deadly events transpire and Rena is forced into tough decisions which throw her into conflict with her own people Her problems are complicated by manifestations of Earth's development of The Singularity the intrusion of ancient races and entities guarding old secrets emerging to engage her Rena and Kelly are thrown together to survive The action roars out of New Orleans into Arkansas and to other places farther north and then on to other very different places very far away
