Shakespeare and University Drama in Early Modern England Daniel Blank,2023 This book examines how the apparently secluded theatrical culture of the universities became a major source of inspiration for Shakespeare and his contemporaries It offers groundbreaking new readings of plays from throughout Shakespeare s career illustrating how their depictions of academic culture were shaped by university plays Shakespeare and the Classical Tradition Lewis Walker,2019-05-24 This bibliography will give comprehensive coverage to published commentary in English on Shakespeare and the Classical Tradition during the period from 1961 1985 Doctoral dissertations will also be included Each entry will provide a clear and detailed summary of an item s contents For pomes and plays based directly on classical sources like Antony and Cleopatra and The Rape of Lucrece virtually all significant scholarly work during the period covered will be annotated For other works such as Hamlet any scholarship that deals with classical connotations will be annotated Any other bibliographies used in the compiling of this volume will be described with emphasis on their value to a student of Shakespeare and the Classics **Shakespeare and the Twentieth Century** International Shakespeare Association. World Congress,1998 In close to fifty sessions the congress theme Shakespeare and the Twentieth Century allowed for critical approaches from many directions through twentieth century theater history on almost every continent through a range of media representations from film to databases through the changing theoretical models of the period that extend to the latest politically inflected readings and through appropriations of the play texts by modern art forms such as recent fiction

Shakespeare, Theatre, and Time Matthew Wagner,2013-03-01 That Shakespeare thematized time thoroughly almost obsessively in his plays is well established time is among other things a devourer Love s Labour s Lost one who can untie knots Twelfth Night or perhaps most famously simply out of joint Hamlet Yet most critical commentary on time and Shakespeare tends to incorporate little focus on time as an essential if elusive element of stage praxis This book aims to fill that gap Wagner s focus is specifically performative asking after time as a stage phenomenon rather than a literary theme or poetic metaphor His primary approach is phenomenological as the book aims to describe how time operates on Shakespearean stages Through philosophical historiographical dramaturgical and performative perspectives Wagner examines the ways in which theatrical activity generates a manifest presence of time and he demonstrates Shakespeare s acute awareness and manipulation of this phenomenon Underpinning these investigations is the argument that theatrical time and especially Shakespearean time is rooted in temporal conflict and thickness the heightened sense of the present moment bearing the weight of both the past and the future Throughout the book Wagner traces the ways in which time

transcends thematic and metaphorical functions and forms an essential part of Shakespearean stage praxis

Shakespeare's Tragic Art Rhodri Lewis, 2024-10-08 A new account of Shakespearean tragedy as a response to life in an uncertain world In *Shakespeare's Tragic Art* Rhodri Lewis offers a powerfully original reassessment of tragedy as Shakespeare wrote it of what drew him toward tragic drama what makes his tragedies distinctive and why they matter After reconstructing tragic theory and practice as Shakespeare and his contemporaries knew them Lewis considers in detail each of Shakespeare's tragedies from *Titus Andronicus* to *Coriolanus* He argues that these plays are a series of experiments whose greatness lies in their author's nerve straining determination to represent the experience of living in a world that eludes rational analysis They explore not just our inability to know ourselves as we would like to but the compensatory and generally unacknowledged fictions to which we bind ourselves in our hunger for meaning from the political philosophical social and religious to the racial sexual personal and familial Lewis's Shakespeare not only creates tragedies that exceed those written before them Through his art he also affirms and invigorates the kinds of knowing that are available to intelligent animals like us A major reevaluation of Shakespeare's tragedies *Shakespeare's Tragic Art* is essential reading for anyone interested in Shakespearean tragedy or the capacity of literature to help us navigate the perplexities of the human condition
