## Shakespeare Factory 1:

*Shakespeare's Curse* Bjoern Quiring, 2020-11-25 Conceptualizing the curse as the representation of a foundational mythical violence that is embedded within juridical discourse Shakespeare's Curse pursues a reading of Richard III King John and King Lear in order to analyse the persistence of imprecations in the discourses of modernity Shakespeare wrote during a period that was transformative in the development of juridical thinking However taking up the relationship between theatre theology and law Bjoern Quiring argues that the curse was not eliminated from legal discourses during this modernization of jurisprudence rather it persisted and to this day continues to haunt numerous speech acts Drawing on the work of Derrida Lacan Walter Benjamin and Giorgio Agamben among others Quiring analyses the performativity of the curse and tracks its power through the juristic themes that are pursued within Shakespeare's plays such as sovereignty legitimacy succession obligation exception and natural law Thus this book provides an original and important insight into early modern legal developments as well as a fresh perspective on some of Shakespeare's best known works A fascinating interdisciplinary study this book will interest students and scholars of Law Literature and History Encyclopedia of German Literature Matthias Konzett, 2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities the Encyclopedia of German Literature includes more than 500 entries on writers individual work and topics essential to an understanding of this rich literary tradition Drawing on the expertise of an international group of experts the essays in the encyclopedia reflect developments of the latest scholarship in German literature culture and history and society In addition to the essays author entries include biographies and works lists and works entries provide information about first editions selected critical editions and English language translations All entries conclude with a list of further readings **The Theater of Heiner Müller** Jonathan Kalb, 2001 The revised and enlarged edition of the first comprehensive English language study of the work of Heiner Müller widely regarded as Bertolt Brecht's spiritual heir and as one of the most important German playwrights of the twentieth century Kalb's quest to try and penetrate some of the surfaces of what he calls this glacially infuriating writer is engrossing and he negotiates his own ambivalences and reservations about Müller as theatre maker and man with both honesty and adroitness As a piece of scholarship this is a breathtaking tour de force Mary Luckhurst New Theatre Quarterly **Shakespeare and European Politics** Dirk Delabastita, Jozef de Vos, Paul Franssen, 2008 This volume's main focus is on the ways in which over the past 400 years Shakespeare has played a role of significance within a European framework particularly where a series of political events and ideologically based developments were concerned such as the early modern wars of religion the emergence of the nation during the late eighteenth and nineteenth centuries the First and Second World Wars the process of European unification during the 1990s the attack on the World Trade Center in New York and Britain's participation in the war in Iraq The whole of the collection

and particularly the opening section clearly invites a European and even a global perspective This book convincingly demonstrates that Shakespeare both at the level of his meaning in his own time and at that of his reception in later ages should no longer be studied only in relation to particular nations but as Dirk Delabastita argues also at various supranational levels Book Jacket

**Shakespeare's Histories on Screen** Jennie M. Votava,2023-06-29 This volume reframes the critical conversation about Shakespeare's histories and national identity by bringing together two growing bodies of work early modern race scholarship and adaptation theory Theorizing a link between adaptation and intersectionality it demonstrates how over the past thirty years race has become a central and constitutive part of British and American screen adaptations of the English histories Available to expanding audiences via digital media platforms these adaptations interrogate the dialectic between Shakespeare's cultural capital and racial reckonings on both sides of the Atlantic and across time By engaging contemporary representations of race ethnicity gender sexuality disability and class adaptation not only creates artefacts that differ from their source texts but also facilitates the conditions in which race and its intersections in the plays become visible At the centre of this analysis stand two landmark 21st century history adaptations that use non traditional casting the British TV miniseries *The Hollow Crown* 2012 2016 and the American independent film *H4* 2012 an all Black Henry IV conflation In addition to demonstrating how the 21st century screen history illuminates both past and present constructions of embodied difference these works provide a lens for reassessing two history adaptations from Shakespeare's 1990s box office renaissance when actors of colour were first cast in cinematic versions of the plays As exemplified by these formal adaptations reappropriations of race in history non traditional Shakespearean casting practices are also currently shaping digital culture's conversations about race in non Shakespearean period dramas such as *Bridgerton*

**Shakespeare's Theatre** Hugh Macrae Richmond,2004-01-01 Under an alphabetical list of relevant terms names and concepts the book reviews current knowledge of the character and operation of theatres in Shakespeare's time with an explanation of their origins

**East, West, and Others** Arlene Akiko Teraoka,1996-01-01 *East West and Others* is the first work to examine the Third World in German literature from World War II to the present Arlene A Teraoka investigates how prominent post World War II East and West German authors have portrayed the Third World She discusses the persistent stereotypes of race culture and sexuality in texts by authors whose careers were shaped by concerns with Third World politics Those writers include Anna Seghers Peter Weiss Hans Magnus Enzensberger and Heiner Müller East Germans Claus Hammel and Peter Hacks and the documentary West German writers Max von der Grün Günter Wallraff and Paul Geiersbach Teraoka demonstrates the continuing German need to construct a postwar identity freed from the fascist past and the conflicts and clichés that inevitably mar this dream of the self Whether authors project a champion of humanity who upholds Enlightenment ideals or a fragmented European protagonist paralyzed by guilt all negotiate between the forces of rationality and prejudice universality and difference solidarity and helplessness

*Shakespeare's Surrogates* S. Loftis,2015-12-11

Shakespeare's Surrogates contends that adapting Renaissance drama played a key role in the development of modern drama's major aesthetic movements Loftis posits that playwrights' reactions to Shakespeare and his contemporaries worked to create their public personas, inform their theoretical writings and influence the development of new genres *Reimagining Shakespeare's Playhouse* Joe Falocco, 2010 Numerous attempts have been made in the modern and postmodern era to recreate the staging conventions of Shakespeare's theatre from William Poel to the founders of the New Globe This volume examines the work of these directors analyzing their practical successes and failures it also engages with the ideological critiques of early modern staging advanced by scholars such as W B Worthen and Ric Knowles The author argues that rather than indulging in archaism for its own sake the movement looked backward in a progressive attempt to address the challenges of the twentieth century The book begins with a re-examination of the conventional view of Poel as an antiquarian crank Subsequent chapters are devoted to Harley Granville Barker and Nugent Monck the author argues that while Barker's major contribution was the dubious achievement of establishing the movement's reputation as an essentially literary phenomenon Monck took the first tentative steps toward an architectural reimagining of modern performance space an advance which led to later triumphs in early modern staging The book then traces the sporadic and irregular development of Tyrone Guthrie's commitment to early modern practices The final chapter looks at how competing historical theories of playhouse design influenced the construction of the Globe while the conclusion discusses the ongoing potential of early modern staging in the new millennium *William Shakespeare* Karl Elze, 1888 *Déjà Vu* Peter Krapp, 2004 Referring to a past that never was déjà vu shares a structure not only with fiction but also with the ever more sophisticated effects of media technology Tracing the term from the end of the nineteenth century when it was first popularized in the pages of the *Revue philosophique* Peter Krapp examines the genealogy and history of the singular and unrepeatable experience of déjà vu This provocative book offers a refreshing counterpoint to the clichéd celebrations of cultural memory and forces us to take a double take on the sanctimonious warnings against forgetting so common in our time Disturbances of cultural memory screen memories false recognitions premonitions disrupt the comfort zone of memorial culture strictly speaking déjà vu is neither a failure of memory nor a form of forgetting Krapp's analysis of such disturbances in literature art and mass media introduces historicizes and theorizes what it means to speak of an economy of attention or distraction Reaching from the early psychoanalytic texts of Sigmund Freud to the plays of Heiner Müller this exploration of the effects of déjà vu pivots around the work of Walter Benjamin and includes readings of kitsch and aura in Andy Warhol's work of cinematic violence and certain exaggerated claims about shooting and cutting of the memorial character of architecture and of the high expectations raised by the Internet Peter Krapp lecturer in the Department of Cultural Studies and Comparative Literature at the University of Minnesota coedited *Medium Cool* a special issue of the *South Atlantic Quarterly* on contemporary media theory He has published in the fields of German studies media studies and literary theory and since 1995 has acted as editor of the *Hydra*

Web site for theories of literature and media      Shakespearean Genealogies of Power Anselm Haverkamp, 2010-10-18

Shakespearean Genealogies of Power proposes a new view on Shakespeare's involvement with the legal sphere as a visible space between the spheres of politics and law and well able to negotiate legal and political even constitutional concerns Shakespeare's theatre opened up a new perspective on normativity His plays reflect even create history in a new sense on the premises of the older conceptions of historical and legal exemplarity examples cases and instances are to be reflected rather than treated as straightforwardly didactic or salvific Thus what comes to be recognized reflected and acknowledged has a disowning alienating effect whose enduring aftermath rather than its theatrical immediacy counts and remains effective In Shakespeare the law gets hold of its normativity as the problematic efficacy of unsolved or rarely ever completely solved problems on the stage of the theatre the law has to cope with a mortgage of history rather than with its own success story The exemplary interplay of critical cultural and legal theory in the twentieth century between Carl Schmitt and Hans Kelsen Walter Benjamin and Ernst Kantorowicz Hans Blumenberg and Giorgio Agamben Robert Cover and Niklas Luhmann found in Shakespeare's plays its speculative instruments      *The Constructed Past* Philippe Paniel, Peter G.
