**Shakespeare, Politics, and Italy** Michael J. Redmond, 2016-04-01 The use of Italian culture in the Jacobean theatre was never an isolated gesture In considering the ideological repercussions of references to Italy in prominent works by Shakespeare and his contemporaries Michael J Redmond argues that early modern intertextuality was a dynamic process of allusion quotation and revision Beyond any individual narrative source Redmond foregrounds the fundamental role of Italian textual precedents in the staging of domestic anxieties about state crisis nationalism and court intrigue By focusing on the self-conscious overt rehearsal of existing texts and genres the book offers a new approach to the intertextual strategies of early modern English political drama The pervasive circulation of Cinquecento political theorists like Machiavelli Castiglione and Guicciardini combined with recurrent English representations of Italy to ensure that the negotiation with previous writing formed an integral part of the dramatic agendas of period plays

**Shakespeare and I** William McKenzie, Theodora Papadopoulou, 2012-03-29 Following the ethos and ambition of the Shakespeare NOW series and

harnessing the energy challenge and vigour of the minigraph form Shakespeare and I is a provocative appeal and manifesto for a more personal form of criticism A number of the most exciting and authoritative writers on Shakespeare examine and scrutinise their deepest most personal and intimate responses to Shakespeare s plays and poems to ask themselves if and how Shakespeare has made them the person they are Their responses include autobiographical histories reflections on their relationship to their professional institutional or familial roles and meditations on the person making force of religious or political conviction The book aims to inspire readers to think and write about their ever changing personal relationship with Shakespeare about how the poems and plays and writing about them can reveal or transform our sense of ourselves

Cox,2007 Seeming Knowledge revisits the question of Shakespeare and religion by focusing on the conjunction of faith and skepticism in his writing Cox argues that the relationship between faith and skepticism is not an invented conjunction The recognition of the history of faith and skepticism in the sixteenth century illuminates a tradition that Shakespeare inherited and represented more subtly and effectively than any other writer of his generation

all Hamlin's study constitutes a major contribution to investigations of literary readership in pre-Enlightenment Europe

**Renaissance Syntax and Subjectivity** John C. Leeds, 2010 John Leeds examines the choice made by Renaissance chroniclers between Latin and the vernacular in light of some central concerns of current literary theory. He extends the boundaries of existing critical literature on early modern subjectivity to include the grammatical subject, showing how its disposition in the radically dissimilar syntactic systems of Latin and Scots conditions the way in which the subject, i.e. the human individual, is conceived in the writing of history.

**Montaigne's Politics** Biancamaria Fontana, 2010-02-20 Michel de Montaigne (1533-92) is principally known today as a literary figure, the inventor of the modern essay and the pioneer of autobiographical self-exploration, who retired from politics in midlife to write his private philosophical and apolitical *Essais*. But as Biancamaria Fontana argues in *Montaigne's Politics*, a novel, vivid account of the political meaning of the *Essais* in the context of Montaigne's life and times, his retirement from the Bordeaux parliament in 1570 could be said to have marked the beginning rather than the end of his public career. He later served as mayor of Bordeaux and advisor to King Henry of Navarre, and as Fontana argues, Montaigne's *Essais* very much reflect his ongoing involvement and preoccupation with contemporary politics, particularly the politics of France's civil wars between Catholics and Protestants. Fontana shows that the *Essais*, although written as a record of Montaigne's personal experiences, do nothing less than set forth the first major critique of France's ancien régime, anticipating the main themes of Enlightenment writers such as Voltaire and Diderot. Challenging the views that Montaigne was politically aloof or evasive, or that he was a conservative skeptic and supporter of absolute monarchy, Fontana explores many of the central political issues in Montaigne's work: the reform of legal institutions, the prospects of religious toleration, the role of public opinion, and the legitimacy of political regimes.

Thinking with Shakespeare Julia Reinhard Lupton, 2019-10-04 What is a person? What company do people keep with animals, plants, and things? Such questions, bearing fundamentally on the shared meaning of politics and life, animate Shakespearean drama, yet their urgency has often been obscured. Julia Reinhard Lupton gently dislodges Shakespeare's plays from their historical confines to pursue their universal implications. From Petruchio's animals and Kate's laundry to Hamlet's friends and Caliban's childhood, Lupton restages thinking in Shakespeare as an embodied act of consent, cure, and care. Thinking with Shakespeare encourages readers to ponder matters of shared concern with the playwright by their side. Taking her cue from Hannah Arendt, Lupton reads Shakespeare for fresh insights into everything from housekeeping and animal husbandry to biopower and political theology.

French Connections in the English Renaissance Catherine Gimelli Martin, Hassan Melehy, 2016-04-15 The study of literature still tends to be nation-based, even when direct evidence contradicts longstanding notions of an autonomous literary canon. In a time when current events make inevitable the acceptance of a global perspective, the essays in this volume suggest a corrective to such scholarly limitations: the contributors offer alternatives to received notions of influence and the more or less linear transmission of *translatio studii*, demonstrating that they no longer

provide adequate explanations for the interactions among the various literary canons of the Renaissance Offering texts on a variety of aspects of the Anglo French Renaissance instead of concentrating on one set of borrowings or phenomena this collection points to new configurations of the relationships among national literatures Contributors address specific borrowings rewritings and appropriations of French writing by English authors in fields ranging from lyric poetry to epic poetry to drama to political treatise The bibliography presents a comprehensive list of publications on French connections in the English Renaissance from 1902 to the present day

**Shakespeare's Individualism** Peter Holbrook, 2010-01-21

Providing a provocative and original perspective on Shakespeare Peter Holbrook argues that Shakespeare is an author friendly to such essentially modern and unruly notions as individuality freedom self realization and authenticity These expressive values vivify Shakespeare's own writing they also form a continuous and a central part of the Shakespearean tradition Engaging with the theme of the individual will in specific plays and poems and examining a range of libertarian minded scholarly and literary responses to Shakespeare over time Shakespeare's Individualism advances the proposition that one of the key reasons for reading Shakespeare today is his commitment to individual liberty even as we recognize that freedom is not just an indispensable ideal but also potentially a dangerous one Engagingly written and jargon free this book demonstrates that Shakespeare has important things to say about fundamental issues of human existence

**Shakespeare's liminal spaces** Ben Haworth, 2024-07-09 This engaging study appreciably advances recent critical developments in the way the playwright created his worlds to reflect concurrent cartographic geopolitical and social anxieties In seeking to expose the dynamics and fluctuations of power on the stage Shakespeare's liminal spaces provides a unique set of perspectives through which Shakespeare's forests battlefields shores and gardens are revealed as deliberate dramatic devices with the capacity to destabilise social structures Haworth's nuanced consideration of these spaces reveals that they were ideally suited to the staging of social frictions as he traces the shifting balance of power between opposing ideological standpoints and the internal struggles between an emergent subjectivity and conformity with the centralised authorities of Church and Court

**Shakespeare, the Renaissance and Empire** Jonathan Locke Hart, 2021-03-10

Shakespeare the Renaissance and Empire presents Shakespeare as both a local and global writer investigating Shakespeare's trans cultural writing through the interrelations and interactions of binaries including theory and practice past and present aesthetics and ethics freedom and tyranny republic and empire empires and colonies poetry and history rhetoric and poetics England and America and England and Asia The book breaks away from traditional western centric analysis to present a universal Shakespeare exposing readers to the relevance and significance of Shakespeare within their local contexts and cultures This text aims to present a global Shakespeare utilizing a dual perspective or dialectical presentation mainly centred on questions of 1 how Shakespeare can be viewed as both an English writer and a world writer 2 how language operates across genres and kinds of discourse and 3 how Shakespeare helps to articulate a poetics of both texts literature and

contexts cultures The book's originality lies in its articulation of the importance and value of Shakespeare in the emerging landscape of global culture
