

Shakespeare The Commonwealth

Huw Griffiths

Shakespeare The Commonwealth:

Shakespeare and the Commonwealth Royal Commonwealth Society, 196? **Shakespeare and the Commonwealth**
Donald Herbert Simpson, 1964 **Perspectives on Politics in Shakespeare** John Albert Murley, Sean D. Sutton, 2006-01-01
Political science is becoming ever more reliant on abstract statistical models and almost divorced from human judgment hope and idealism William Shakespeare offers the political scientist an antidote to this methodological alienation this self imposed exile from the political concerns of citizens and politicians Shakespeare the most quoted author in the English speaking world presents his characters as rulers citizens and statesmen of the most famous regimes governed by their respective laws and shaped by their respective political and social institutions The actions deliberations mistakes and successes of his characters reveal the limitations and strengths of their regimes whether they be Athens Rome or England The contributors to this volume esteemed scholars of political science show us that Shakespeare's poetic imagination displays the very essence of politics and inspires valuable reflection on the fundamental questions of statesmanship and political leadership Perspectives on Shakespeare's Politics explores such themes as classical republicanism and liberty the rule of law and morality the nature and limits of statesmanship and the character of democracy **Shakespeare and the Politics of Commoners** Chris Fitter, 2017 Shakespeare and the Politics of Commoners is a highly original contribution to our understanding of Shakespeare's plays It breaks important new ground in introducing readers lay and scholarly alike to the existence and character of the political culture of the mass of ordinary commoners in Shakespeare's England as revealed by the recent findings of the new social history The volume thereby helps to challenge the traditional myths of a non political commons and a culture of obedience It also brings together leading Shakespeareans who digest recent social history with eminent early modern social historians who turn their focus on Shakespeare This genuinely cross disciplinary approach generates fresh readings of over ten of Shakespeare's plays and locates the impress on Shakespearean drama of popular political thought and pressure in this period of perceived crisis The volume is unique in engaging and digesting the dramatic importance of the discoveries of the new social history thereby resituating and revaluing Shakespeare within the social depth of politics Shakespeare's Eden
Bertram Leon Joseph, 1971 **Shakespeare and National Identity** Christopher Ivic, 2017-01-12 The Arden Shakespeare Dictionary on Shakespeare and National Identity makes a timely and valuable contribution to the discipline National identity in the early modern period is a central topic of scholarly investigation it is also a dominant topic in classroom instruction and discussion More than any other early modern playwright Shakespeare especially his history plays is at the heart of recent critical investigations into a host of relevant topics borders history identity land memory nation place and space This Dictionary works through Shakespeare's plays and the cultural moment in which they were produced to provide a rich and informative account of such topics An ideal reference work for upper level students and scholars and an essential resource for any literary library **Shakespeare and the Legal Imagination** Ian Ward, 1999-07 This work offers an analysis of

constitutional law examining Shakespeare's plays as legal texts Professor Ward uses the plays as a starting point to investigate the development of constitutional ideas such as sovereignty commonwealth conscience and moral law and the art of government In the developing area of law and literature this book examines how Shakespeare's work offers a rich source of textual material on legal subjects *Shakespeare's Europe* Fynes Moryson, 1903 **Shakespeare's Political and Economic Language** Vivian Thomas, 2015-03-26 Shakespeare's plays are pervaded by political and economic words and concepts not only in the histories and tragedies but also in the comedies and romances The lexicon of political and economic language in Shakespeare does not consist merely of arcane terms whose shifting meanings require exposition but includes an enormous number of relatively simple words which possess a structural significance in the configuration of meanings Often operating by such means as puns they open up a surprising number of possibilities The dictionary reveals the conceptual nucleus of each term and explores the contexts in which it is embedded The overlap between the political and economic dimensions of a word in Shakespeare's drama is particularly exciting as he is highly attuned to the interactions of these two spheres of human activity and their centrality in human affairs **How to Find Out About Shakespeare** John Bate, 2014-05-17 How to Find Out About Shakespeare serves as a guide to the study of the poetry and plays of William Shakespeare This book provides information on Shakespeare's life his work and the society in which he lived Organized into 10 chapters this book begins with an overview of England in which Shakespeare lived to develop a sense of his times the ideas as well as the social and political tension of England This text then discusses the events of his life as well as the doubts that have been cast on his very existence Other chapters look at the theater in which he earned his living and won his fame This book discusses as well the literary criticism of his work followed by a selection of special subjects and themes as dealt with by Shakespeare The final chapter explains the main bibliographical tools for the study of Shakespeare This book is a valuable resource for teachers students and librarians **Shakespeare and the Classical Tradition** John Lewis Walker, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company **Shakespeare's Body Parts** Huw Griffiths, 2020-09-04 This book provides a sustained formalist reading of the multiple body parts that litter the dialogue and action of Shakespeare's history plays *Shakespeare's Tempest and Capitalism* Helen Scott, 2019-09-12 In this forceful study Helen C Scott situates *The Tempest* within Marxist analyses of the primitive accumulation of capital which she suggests help explain the play's continued and particular resonance The storm of the title refers both to Shakespeare's *Tempest* hurtling through time and to Walter Benjamin's concept of history as a succession of violent catastrophes Scott begins with an account of the global processes of dispossession of the peasantry and indigenous populations accompanying the emergence of capitalism which generated new class relationships new understandings of human subjectivity and new forms of oppression around race gender and disability Developing a detailed reading of the play at its moment of production in the business of theatre in 1611 Scott then moves gracefully through the global reception history showing how its central

thematic concerns and figurative patterns bespeak the upheavals and dispossessions of successive stages of capitalist development Paying particular attention to moments of social crisis and unearthing a radical political tradition Scott follows the play from its hostile takeover in the Restoration through its revival by the Romantics and consolidation and contestation in the nineteenth century In the twentieth century transatlantic modernism generated an acutely dystopic Tempest then during the global transformations of the 1960s postcolonial writers permanently associated it with decolonization At century s end the play became a vehicle for exploring intersectional oppression and the remarkable Sycorax school featured iconoclastic readings by writers such as Abena Busia May Joseph and Sylvia Wynter Turning to both popular culture and high profile stage productions in the twenty first century Scott explores the ramifications and figurative potential of Shakespeare s Tempest for global social and ecological crises today Sensitive to the play s original concerns and informed by recent scholarship on performance and reception history as well as disability studies Scott s moving analysis impels readers towards a fresh understanding of sea change and metamorphosis as potent symbols for the literal and figurative tempests of capitalism s old age now threatening the great globe itself Lessons from Shakespeare's Classroom Robin

Lithgow,2022-12-30 This volume explores the relationship between the emphasis on performance in Elizabethan humanist education and the flourishing of literary brilliance around the turn of the sixteenth century This study asks us what lessons we can learn today from Shakespeare s Latin grammar school What were the cognitive benefits of an education so deeply rooted in what Demosthenes and Quintilian called actio acting Because of the vast difference between educational practice then and now we have not often followed one essential thread the focus on performance This study examines the connections relevant to the education offered in schools today This book will be of great interest to teachers scholars and administrators in performing arts and education **Libels and Theater in Shakespeare's England** Joseph Mansky,2023-10-19 In the

first comprehensive history of libels in Elizabethan England Joseph Mansky traces the crime across law literature and culture outlining a viral and often virulent media ecosystem During the 1590s a series of crises simmering xenophobia years of dearth and hunger surges of religious persecution sparked an extraordinary explosion of libeling The same years also saw the first appearances of libels on London stages Defamatory seditious texts were launched into the sky cast in windows recited in court read from pulpits and seized by informers Avatars of sedition libels nonetheless empowered ordinary people to pass judgment on the most controversial issues and persons of the day They were marked by mobility swirling across the early modern media and across class confessional and geographical lines Ranging from Shakespearean drama to provincial pageantry this book charts a public sphere poised between debate and defamation between free speech and fake news **A Companion to Shakespeare's Works, Volume I** Richard Dutton,Jean E. Howard,2008-04-15 This four volume Companion to Shakespeare s Works compiled as a single entity offers a uniquely comprehensive snapshot of current Shakespeare criticism Brings together new essays from a mixture of younger and more established scholars from around the world

Australia Canada France New Zealand the United Kingdom and the United States Examines each of Shakespeare's plays and major poems using all the resources of contemporary criticism from performance studies to feminist historicist and textual analysis Volumes are organized in relation to generic categories namely the histories the tragedies the romantic comedies and the late plays problem plays and poems Each volume contains individual essays on all texts in the relevant category as well as more general essays looking at critical issues and approaches more widely relevant to the genre Offers a provocative roadmap to Shakespeare studies at the dawning of the twenty first century This companion to Shakespeare's tragedies contains original essays on every tragedy from Titus Andronicus to Coriolanus as well as thirteen additional essays on such topics as Shakespeare's Roman tragedies Shakespeare's tragedies on film Shakespeare's tragedies of love Hamlet in performance and tragic emotion in Shakespeare

Political Theologies in Shakespeare's England Debora Shuger, 2001-09-06 Shuger's study of Measure to Measure offers a sweeping reinterpretation of English political thought in the aftermath of the Reformation one that focuses not on the tension between Crown and Parliament but on the relation of the sacred to the state

New Readings & New Renderings of Shakespeare's Tragedies Henry Halford Vaughan, 1878

Shakespeare's Politics Robin Headlam Wells, 2009-03-06 An introduction to the political and historical context to Shakespeare's tragedy and history plays written in an accessible jargon free style

Shakespeare's Imaginary Constitution Paul Raffield, 2010-10-28 Through an examination of six plays by Shakespeare the author presents an innovative analysis of political developments in the last decade of Elizabethan rule and their representation in poetic drama of the period The playhouses of London in the 1590s provided a distinctive forum for discourse and dissemination of nascent political ideas Shakespeare exploited the unique capacity of theatre to humanise contemporary debate concerning the powers of the crown and the extent to which these were limited by law The autonomous subject of law is represented in the plays considered here as a sentient political being whose natural rights and liberties found an analogue in the narratives of common law as recorded in juristic texts and law reports of the early modern era Each chapter reflects a particular aspect of constitutional development in the late Elizabethan state These include abuse of the royal prerogative by the crown and its agents the emergence of a politicised middle class citizenry empowered by the ascendancy of contract law the limitations imposed by the courts on the lawful extent of divinely ordained kingship the natural and rational authority of unwritten *lex terrae* the poetic imagination of the judiciary and its role in shaping the constitution and the fusion of temporal and spiritual jurisdiction in the person of the monarch The book advances original insights into the complex and agonistic relationship between theatre politics and law The plays discussed offer persuasive images both of the crown's absolutist tendencies and of alternative polities predicated upon classical and humanist principles of justice equity and community It is now canon in progressive U S legal scholarship that to focus solely on the text of our Constitution is myopic We look as well for constitutional moments moments when the *zeitgeist* is so transformed that our fundamental legal charter changes with it In

this breathtakingly erudite book Paul Raffield argues that the late Elizabethan period was such a constitutional moment in England a moment literally played out for the polity by the greatest dramatist of all time A lawyer and a thespian Raffield handles both legal and literary sources with exquisite care As with the works of the Old Masters one dwells pleasurably on each detail until their cumulative force presses one backward to see the canvas in its sudden glorious entirety A major achievement Kenji Yoshino Chief Justice Earl Warren Professor of Constitutional Law NYU School of Law

Immerse yourself in the artistry of words with is expressive creation, **Shakespeare The Commonwealth** . This ebook, presented in a PDF format (Download in PDF: *), is a masterpiece that goes beyond conventional storytelling. Indulge your senses in prose, poetry, and knowledge.
