Our Light Body MARY ELIZABETH. RABYOR, 2012-04 Human beings are now evolving into a new species popularized as the light body that starts to grow when our vibration is high enough to activate DNA that exists in our genes. The growing force increases the vibration of all objects over time. When the old body design no longer thrives in the increased vibratory field, a species-wide metamorphosis triggers. That is where we are today. In early 2006, Mary unexpectedly experienced a kundalini awakening after years of doing meditation. After this, she devoted three years full time to the kundalini transformation and took daily notes. The core of *Our Light Body* is Mary's journal for the first year of kundalini transformation, with notes, poetry, insights, visions, and dreams. The book has chapters with the author's insights about the personality, the higher self, steps of spiritual awakening, dark nights of the soul, DNA activation, kundalini, human metamorphosis, and evolution.

The Last 100 Days John Toland, 2014-11-26 A dramatic countdown of the final months of World War II in Europe. *The Last 100 Days* brings to life the waning power and the ultimate submission of the Third Reich. To reconstruct the tumultuous hundred days between Yalta and the fall of Berlin, John Toland traveled more than 100,000 miles in twenty-one countries and interviewed more than six hundred people, from Hitler's personal chauffeur to Generals von Manteuffel, Wenck, and Heinrici, from underground leaders to diplomats, from top Allied field commanders to brave young GIs. Toland adeptly weaves together these interviews using research from thousands of primary sources. When it was first published, *The Last 100 Days* made history revealing after-action reports, staff journals, and top secret messages and personal documents previously unavailable to historians. Since that time, it has come to be regarded as one of the greatest historical narratives of the twentieth century.
