Lunda Under Belgian Rule The Politics Of Ethnicity:

Lunda Under Belgian Rule Edouard Bustin,1975 The Lunda-Ndembu James Anthony Pritchett,2001 Pritchett anthropology African studies Boston U presents an account of the Lunda Ndembu people of northwestern Zambia The text is based upon archaeological data travel accounts colonial field reports and the scholarly studies of others as well as his own field research conducted intermittently over the course of 14 years He contends that despite much cultural borrowing in recent decades the Lunda people have an image of themselves that is essentially unchanged He also reflects on continuity and change in Africa c Book News Inc *Rethinking African Politics* Miles Larmer,2016-04-08 In 1964 Kenneth Kaunda and his United National Independence Party UNIP government established the nation of Zambia in the former British colony of Northern Rhodesia In parallel with many other newly independent countries in Africa this process of decolonisation created a wave of optimism regarding humanity's capacity to overcome oppression and poverty Yet as this study shows in Zambia as in many other countries the legacy of colonialism created obstacles that proved difficult to overcome Within a short space of time democratisation and development was replaced by economic stagnation political authoritarianism corruption and ethnic and political conflict To better understand this process Dr Larmer explores UNIP's political ideology and the strategies it employed to retain a grip on government He shows that despite the party's claim that it adhered to an authentically African model of consensual and communitarian decision making it was never a truly nationally representative body Whereas in long established Western societies unevenness in support was accepted as a legitimate basis for party political difference in Zambia this was regarded as a threat to the fragile bindings of the young nation state and as such had to be denied and repressed This led to the declaration of a one party state presented as the logical expression of UNIP supremacy but it was in fact a reflection of its weakening grip on power Through case studies of opposition political and social movements rooted in these differences the book demonstrates that UNIP's control of the new nation state was partial uneven and consistently prone to challenge Alongside this the study also re-examines Zambia's role in the regional liberation struggles providing valuable new evidence of the country's complex relations with Apartheid era South Africa and the relationship between internal and external opposition shaped by the context of regional liberation movements and the Cold War Drawing on extensive archival research and interviews Dr Larmer offers a ground breaking analysis of post colonial political history which helps explain the challenges facing contemporary African polities *Subnationalism in Africa* Joshua Forrest,2004 This examination of the politics of ethnicity and nation building in Africa stresses the trend towards subnationalist autonomy and away from a singular state centric system based on the Western model Forrest ranges across the continent to explore a variety of subnational movements **Tears Of Rain - Ethnicity & Hist** Wim van Binsbergen,2016-05-06 First published in 1992 This is a book about ethnicity among the Nkoya people in central western Zambia and about the historical background out of which that ethnicity is made It studies in detail the fascinating ways in which ethnicity both creates and feeds upon

ethno history At the same time it assesses the possibility of reconstructing objective historical processes in that region since the sixteenth century on the basis primarily of one very extensive source Rev Johasaphat Malasha Shimunika s Likota lya Bankoya whose production as a compilation and processing of local oral traditions is intimately related to contemporary ethnicity But most of all this is a book about that fundamental and humble condition of scholarship reading

Politics and Religion in the Portuguese Colonial Empire in Africa (1890-1930) Hugo Goncalves Does, 2020-12-01 The Portuguese authorities balanced missionary and political dynamics as they sought to strengthen their claims over African territories in an imperial and colonial world that was becoming increasingly internationalized This book sets out to investigate how missionary authorities reacted to national challenges from the monarchical and republican regimes and rising competition within the Catholic world as well as the Protestant threat at the international level To what degree were religious and missionary projects a political instrument Was this situation similar in other colonial empires The 1890 British Ultimatum was part of a process of conflicting religious competition in Africa among Catholics and between Catholics and Protestants in parallel with inter imperial disputes The Portuguese authorities saw missionary presence as a potentially useful political weapon but it cut two ways in favour of or

against its colonial rule. Foreigner missionaries in what was considered the Portuguese empire were viewed as threats since they could act as political bridgeheads for other imperial powers or could influence the native populations against Portuguese colonial presence. Anglo Portuguese competition in Africa, the native uprisings against Portuguese rule, the attempts to negotiate a concordat with the Holy See, the Portuguese First Republic and the aftermath of the First World War had powerful effects on the direction of Portuguese statehood and were reflected in substantive internal debate and political disagreement. The overview of missionary experience in the Portuguese empire provided in this book is a major contribution to the international historiography of missions and empires.

The Katangese Gendarmes and War in Central Africa

Erik Kennes, Miles Larmer, 2016-07-04. A history of the 1960s unrecognized state's army and their role in Central Africa's political and military conflicts. Erik Kennes and Miles Larmer provide a history of the Katangese gendarmes and their largely undocumented role in many of the most important political and military conflicts in Central Africa. Katanga, located in today's Democratic Republic of Congo, seceded in 1960 as Congo achieved independence and the gendarmes fought as the unrecognized state's army during the Congo crisis. Kennes and Larmer explain how the ex-gendarmes then exiled in Angola struggled to maintain their national identity and return home. They take readers through the complex history of the Katangese and their engagement in regional conflicts and Africa's Cold War. Kennes and Larmer show how the paths not taken at Africa's independence persist in contemporary political and military movements and bring new understandings to the challenges that personal and collective identities pose to the relationship between African nation states and their citizens and subjects. A fascinating story which is tied to the colonial development of Katanga province, cold war politics in Central Africa, the crisis of the postcolonial state in the Congo and the interregional politics in the Great Lakes area. Georges Nzongola Ntalaja, University of North Carolina. A major contribution to our understanding of postcolonial politics in Africa, more broadly, and sheds light on the survival of militias over time and forms of subnationalism emerging from regional consciousness. M. Crawford Young, University of Wisconsin-Madison.
