

▼ **Figure 5.16 Review: passive and active transport.**

Passive transport. Substances diffuse spontaneously down their concentration gradients, crossing a membrane with no expenditure of energy by the cell. The rate of diffusion can be greatly increased by transport proteins in the membrane.

Active transport. Some transport proteins act as pumps, moving substances across a membrane against their concentration (or electrochemical) gradients. Energy is usually supplied by ATP hydrolysis.

VISUAL SKILLS For each solute in the right panel, describe its direction of movement, and state whether it is moving with or against its concentration gradient.

Electricity and Magnetism in Biology and Medicine Ferdinando Bersani, 2012-12-06 In the last few decades the research on bioelectromagnetics has expanded worldwide About one thousand researchers are now working in the field in a variety of institutions throughout the world including medical biological engineering and technical laboratories and protection agencies After many years of research a clear picture is now emerging Initially the research was mainly interested in the therapeutic applications of ELF electric and magnetic fields and the RF range was mainly taken into consideration with respect to thermal effects only Then the growing body of biological effects of ELF fields on cells and biological tissues particularly for the repair processes in bone have drawn the attention of researchers to non thermal effects ranging from static fields to microwaves A specific field of interest that has been the object of a large debate in the last twenty years has been the potential health risk associated with electric power production and distribution and more recently with domestic and industrial appliances In the last few years the explosion of the market for cellularphones has highlighted the issue of possible health dangers related to their use and to the widespread presence of base stations The first World Congress on Electricity and Magnetism in Biology and Medicine was held in Orlando Florida in 1992 and collected the widest amount of contributions from almost all the major researchers involved in the field **DIGI SMART BOOKS Understanding NCERT Science for Class 9** GBP Editorial, 2023-08-21 Rationalised textbooks published by NCERT The latest syllabus prescribed by the CBSE The latest Sample Paper released by the CBSE Notes on each topic subtopic activity published in the NCERT textbook along with separate videos explanation for each item Comprehensive Explanation of each and every Intext Question and Questions given in the exercise in the book published by NCERT with separate video explanation for each question Comprehensive Question Bank on each chapter covering all varieties of questions as given in the CBSE Sample Paper along with separate video explanation for each question The latest CBSE Sample Paper with video explanation of each question Model Test Papers along with video explanation of each question *Understanding Anatomy & Physiology* Gale Sloan
