Mozart Portrait Of A Genius:

Mozart Norbert Elias, Michael Schröter, 1993-01 Transclasses Chantal Jaquet, 2023-05-30 How people become class traitors One is not born a worker or a boss Social reproduction is not an iron law it admits of exceptions that must be accounted for in order to measure its scope This book aims to understand the passage from one social class to another and to forge a method of approaching these particular cases which remain a blind spot in the theory of social reproduction It analyzes the political economic social familial and singular causes that contribute to non reproduction and their effects on the constitution of individuals transiting from one class to another At the crossroads of collective history and intimate history Chantal Jaquet identifies class locations the interplay of affects and encounters and the role of sexual and racial differences She invites us to break out of disciplinary isolation in order to grasp singularity at the crossroads of philosophy sociology psychology and literature This requires deconstruction of the concepts of social and personal identity in favour of a concepts like complexion and the criss crossing determinations Through the figure of the transclass it is thus the whole human condition that is illuminated in a new light **Theological Anthropology in Mozart's La clemenza di Tito** Steffen Lösel, 2022-07-13 This book asks what theological messages theologically educated Catholics in late eighteenth century Prague might have perceived in Mozart's late opera seria La clemenza di Tito The book's thesis is two fold first that Catholics might have heard the opera's advocacy of enlightened absolutism as a celebration of a distinctly Catholic understanding of political governance and second that they might have found in the opera a metaphor for the relationship between a gracious God and humanity caught up in sin expressed as sexual concupiscence pride and lust for power The book develops its interpretation of the opera through narrative character analyses of the main protagonists an examination of their dramatic development and by paying attention to the biblical and theological associations they may have evoked in a Catholic audience The book is geared towards academic readers interested in opera theologians historians and those who work at the intersection of theology and the arts It contributes to a better understanding of the theological implications of Mozart's operatic work *The Biography Book* Daniel S.
